Doro 7970

Doro 780X 4G Mobile Phone User Manual

Model: 7970

INTRODUCTION

This manual provides comprehensive instructions for the Doro 780X 4G mobile phone. It covers setup, operation, maintenance, and troubleshooting to ensure optimal use of the device.

The Doro 780X is designed for ease of use, featuring a simplified keyboard and essential functions for communication and safety.

WHAT'S IN THE BOX

Upon unboxing your Doro 780X, please verify that all components are present:

- Doro 780X Mobile Phone
- Wall Charger
- Charging Cradle
- Earphones
- User Manual (this document)

SETUP

1. Inserting the SIM Card and Battery

1. Carefully remove the back cover of the phone.
2. Insert the SIM card into the designated slot, ensuring correct orientation.
3. Insert the battery, aligning the contacts.
4. Replace the back cover until it clicks into place.

2. Charging the Phone

Before first use, fully charge the phone. Place the phone in the charging cradle or connect the wall charger directly to the phone.

3. Initial Power On and Setup

Press and hold the power button to turn on the phone. Follow the on-screen prompts to set language, time, and date.

OPERATING INSTRUCTIONS

Simplified Keyboard and Direct Call Buttons

The Doro 780X features a simplified keyboard with three large, programmable direct call buttons (A, B, C). These buttons allow you to quickly call pre-assigned contacts without navigating menus.

Doro 780 X

- 3 Contacts Préenregistrés
- Clavier Simplifié
- Son Fort et Clair
- Response by Doro
- Grande Autonomie

Programming Direct Call Buttons:

1. Access the phone's settings menu.
2. Navigate to 'Direct Call Buttons' or similar option.
3. Select A, B, or C and assign a contact from your phonebook or enter a new number.
4. Save the changes.

Making a Call:

- To call a direct contact, simply press the corresponding A, B, or C button.
- To dial a number manually, use the numeric keypad and press the green call button.

Receiving Calls and Messages

When a call comes in, the phone will ring and display the caller's information. Press the green call button to answer. To end a call, press the red end call button.

Text messages are displayed on the large screen for easy readability. You can reply to messages using the simplified keyboard.

HD Voice and Hearing Aid Compatibility (HAC)

The Doro 780X supports HD Voice technology for clear and powerful sound during conversations. It is also compatible with hearing aids (HAC), ensuring comfortable use for individuals with hearing impairments.

Response by Doro Assistance Button

The phone is equipped with a dedicated assistance button, often located on the back of the device. In an emergency, pressing this button will alert pre-configured contacts.

DORO 780 X, LE TÉLÉPHONE POUR LES PLUS FRAGILE (HANDICAP / DÉMENCE)

Le Doro 780X apporte plus de sécurité en toute simplicité. Trois grandes touches avec étiquette vous permettent d'appeler facilement des personnes de confiance, sans naviguer dans les menus ou parcourir le répertoire.

Image: The rear view of the Doro 780X, highlighting the prominent assistance button.

When activated, the Response by Doro feature sends the user's GPS location to designated contacts and automatically initiates a voice call to them.

This feature also allows trusted contacts to remotely adjust phone settings like volume and text size via their smartphone, enhancing ease of use for the Doro 780X user.

Security Timer

The Doro 780X includes a security timer feature, useful for tasks that might pose a risk. If the timer expires without user interaction, it can trigger an alert to pre-set contacts, similar to the assistance button.

Battery Life and Charging

The Doro 780X offers extended battery life, with up to 330 hours of standby time. The included charging cradle ensures the phone is always charged and easily locatable.

MAINTENANCE

Cleaning the Device

Use a soft, dry cloth to clean the phone's screen and body. Avoid using harsh chemicals or abrasive materials.

Water Resistance (IP54)

The Doro 780X has an IP54 rating, meaning it is protected against dust ingress and splashing water from any direction. It is not designed for submersion in water.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|--------------------------------|---|--|
| Phone does not turn on. | Battery is depleted or not inserted correctly. | Charge the phone for at least 30 minutes. Ensure the battery is properly seated. |
| Cannot make or receive calls. | No network signal or SIM card issue. | Check network signal strength. Reinsert SIM card. Contact your service provider if the issue persists. |
| Sound is unclear or too low. | Volume settings are too low or speaker is obstructed. | Adjust the volume using the side buttons. Ensure the speaker is not covered. |
| Assistance button not working. | Contacts not configured or GPS signal weak. | Verify that emergency contacts are correctly programmed. Ensure the phone has a clear view of the sky for GPS. |
