iHome iWBTW200B

iHome TIMEBASE PRO+ (iWBTW200B) Triple Charging Alarm Clock User Manual

Model: iWBTW200B | Brand: iHome

Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your iHome TIMEBASE PRO+ (iWBTW200B) Triple Charging Alarm Clock. This device integrates multiple functionalities including Qi-certified wireless charging, an Apple Watch charging dock, a Bluetooth speaker, a USB charging port, and a digital alarm clock with battery backup. Please read this manual thoroughly to ensure proper use and to maximize the features of your device.

Important Safety Information

- Read all instructions before use.
- Keep this manual for future reference.
- Do not expose the unit to rain or moisture.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this unit during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Product Overview

Familiarize yourself with the components and features of your iHome TIMEBASE PRO+.

Figure 1: Front view of the iHome TIMEBASE PRO+ with an iPhone and Apple Watch actively charging. This image displays the main unit with its digital clock display, a smartphone docked for wireless charging, and an Apple Watch attached to its dedicated charging arm.

Figure 2: Front view of the iHome TIMEBASE PRO+ without any devices. This image highlights the empty wireless charging pad for smartphones and the integrated Apple Watch charging arm, ready for use.

Figure 3: Rear view of the iHome TIMEBASE PRO+ showing the USB charging port. This perspective illustrates the additional USB-A port located on the back of the unit, allowing for wired charging of a third device.

Setup

1. **Power Connection:** Connect the included AC adapter to the DC input jack on the back of the unit. Plug the adapter into a working wall outlet.
2. **Initial Power On:** The unit will power on automatically. The clock display will illuminate.
3. **Time Synchronization:** The clock is designed to automatically synchronize time when connected to a power source. If manual adjustment is needed, refer to the "Alarm Clock Operation" section.
4. **Battery Backup:** The unit includes a battery backup feature to maintain time settings during power outages. Ensure the unit is connected to power for the backup battery to charge.

Operating Instructions

Wireless Charging (Qi-Certified)

Place your Qi-compatible smartphone (e.g., iPhone, Android) on the wireless charging pad located on top of the unit. Ensure the device is centered on the pad for optimal charging. A charging indicator on your device or the unit will confirm charging has begun.

Apple Watch Charging

Attach your Apple Watch to the integrated charging arm. The magnetic charging puck will align with your Apple Watch to initiate charging. Ensure a secure connection.

USB Charging

Connect any USB-powered device (e.g., another smartphone, earbuds) to the 5W USB-A charging port located on the back of the unit using a compatible USB cable (not included). This allows for simultaneous charging of a third device.

Alarm Clock Operation

- **Setting the Alarm:** Use the dedicated alarm set buttons (usually labeled with a clock icon) to enter alarm setting mode. Adjust the hour and minute using the +/- buttons. Select alarm days (weekdays, weekends, or 7 days a week) as per your preference.
- **Snooze Function:** Press the large 'Snooze' button (often labeled 'ZZZ') on top of the unit to temporarily silence a sounding alarm. The alarm will sound again after the preset snooze duration.
- **Display Dimmer:** The display brightness can be adjusted using the dimmer controls, typically located on the top or back of the unit, to suit your environment, especially at night.

Bluetooth Speaker

- **Pairing:** Press the Bluetooth pairing button (often labeled with a Bluetooth icon) to enter pairing mode. The unit's display or an indicator light will show it's ready to pair.
- **Connect Device:** On your smartphone or other Bluetooth-enabled device, search for "iHome iWBTW200B" (or similar) in the Bluetooth settings and select it to connect. A confirmation tone will sound upon successful pairing.
- **Audio Playback:** Once paired, you can stream audio from your device to the iHome TIMEBASE PRO+ speaker. Use your device's controls or the unit's volume/track buttons to manage playback.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the unit. Do not use liquid cleaners or aerosol sprays.
- **Storage:** If storing the unit for an extended period, unplug it from the power outlet and store it in a cool, dry place.

Troubleshooting

Problem	Possible Solution

Problem	Possible Solution
Unit does not power on.	Ensure the AC adapter is securely connected to both the unit and a working power outlet. Check if the outlet is functional.
Wireless charging is not working.	◦ Ensure your device is Qi-compatible. ◦ Remove any thick cases from your device. ◦ Center your device properly on the charging pad. ◦ Check for any metallic objects between your device and the charging pad.
Apple Watch is not charging.	Ensure the Apple Watch is correctly seated on the magnetic charging arm and making proper contact.
Bluetooth pairing fails.	◦ Ensure the unit is in Bluetooth pairing mode. ◦ Make sure your device's Bluetooth is enabled and discoverable. ◦ Move your device closer to the unit. ◦ Forget the device from your phone's Bluetooth settings and try pairing again.
Alarm does not sound.	Verify that the alarm is set correctly and enabled for the desired days. Check the alarm volume settings.
