Hot Wheels HBY98

Hot Wheels Track Builder Unlimited Infinity Loop Kit (Model HBY98) Instruction Manual

Your guide to assembling and enjoying the Hot Wheels Track Builder Unlimited Infinity Loop Kit.

PRODUCT OVERVIEW

The Hot Wheels Track Builder Unlimited Infinity Loop Kit offers dynamic track transformations, allowing for two distinct and challenging setups. This kit encourages experimentation with momentum and gravity, providing visually engaging play experiences. It includes a stand launcher that propels cars into the infinity loop and then onto an exit track with a jump that flips vehicles into a catch cup. The set is designed for children aged 6 to 12 years and includes one 1:64 scale Hot Wheels vehicle. Colors and decorations of the included vehicle may vary.

Key Features:

- **Adjustable Infinity Loop:** Easily modify the loop to change the intensity and challenge of the track.
- **Versatile Jump Setup:** Allows for both front and back flips from the jump, increasing play variety.
- **Stand Launcher:** Propels vehicles into the loop with force, promoting understanding of momentum.
- **Connects to Other Sets:** Expand your track system by connecting this kit to other Hot Wheels Track Builder sets (sold separately).
- **Includes 1:64 Die-Cast Car:** Ready for immediate play with an included vehicle.

WHAT'S IN THE BOX

- Adjustable infinity loop
- Stand launcher
- Ramp
- Jump mechanism
- Different-sized track pieces
- 1 1:64 Hot Wheels car
- Catch cup

SETUP INSTRUCTIONS

- Unpack Components:** Carefully remove all track pieces, connectors, launcher, jump, catch cup, and the Hot Wheels car from the packaging.
- Assemble Base:** Connect the main base pieces of the infinity loop structure. Ensure all connections are secure.
- Attach Loop Tracks:** Securely attach the orange loop tracks to the blue support structures. The loops should fit snugly into their designated slots.
- Install Launcher:** Connect the stand launcher to the starting point of the track.
- Position Jump and Catch Cup:** Attach the jump mechanism and the catch cup to the end of the track, ensuring they are aligned to receive the car after the jump.
- Adjust Loop Configuration:** The infinity loop can be adjusted. Refer to the included visual guide for different setup options. The swivel base allows for changes in track orientation.

SWIVEL BASE!

OPERATING INSTRUCTIONS

1. **Place Car:** Position a 1:64 scale Hot Wheels car onto the stand launcher at the beginning of the track.
2. **Launch Car:** Press down firmly on the launcher to propel the car forward. The car will speed into the infinity loop.
3. **Observe Stunts:** Watch as the car navigates the loops and exits onto the ramp, performing a jump.
4. **Catch Car:** The goal is for the car to land in the catch cup after the jump. Adjust the jump angle or launcher force for optimal results.
5. **Experiment with Configurations:** Change the loop's orientation using the swivel base or connect additional track pieces (sold separately) to create new challenges.

2 FLIP CHALLENGES!

- **Cleaning:** Wipe down track pieces and components with a damp cloth as needed. Avoid harsh chemicals.
- **Storage:** For easy storage, the track can be disassembled. Store all pieces in a dry, safe place to prevent loss or damage. The kit is designed for compact storage.
- **Inspection:** Periodically check all connections and moving parts for wear or damage. Replace any broken pieces to ensure safe and optimal play.

TROUBLESHOOTING

Problem	Solution
Car does not complete the loop.	Ensure the launcher is pressed firmly and quickly. Check that all track connections are secure and there are no obstructions. Try a different Hot Wheels car, as some cars perform better than others on loops.
Car does not land in the catch cup.	Adjust the angle of the jump mechanism. Experiment with the force applied to the launcher. Ensure the catch cup is positioned correctly at the end of the jump.

Problem	Solution
Track pieces do not connect securely.	Verify that you are using the correct connectors for each piece. Apply gentle but firm pressure until you hear a click. If a piece is damaged, it may need to be replaced.
