GPEESTRAC HSP-B3

GPEESTRAC HSP-B3 Bluetooth Earpiece User Manual

Model: HSP-B3 | Brand: GPEESTRAC

Product Overview

The GPEESTRAC HSP-B3 is a versatile Bluetooth V5.0 earpiece designed for clear, hands-free communication. Featuring dual-mic noise-cancelling technology and a comfortable, rotatable design, it is ideal for business, workouts, driving, and office use. This manual provides detailed instructions to help you get the most out of your new earpiece.

What's in the Box

Your GPEESTRAC HSP-B3 package includes the following items:

- GPEESTRAC HSP-B3 Bluetooth Earpiece
- USB Charging Cable
- Eargels (Small, Medium, Large sizes for optimal fit)

Setup Guide

1. Charging the Earpiece

Before initial use, fully charge your HSP-B3 earpiece. The magnetic connector makes charging simple and secure.

- Connect the magnetic USB charging cable to the charging interface on the earpiece.
- Plug the USB end into a compatible USB power source (e.g., computer USB port, wall adapter).
- A red light indicator will show that the device is charging. The light will turn blue when fully charged.
- A full charge takes approximately 2 hours. A 10-minute charge can provide up to 2 hours of talk time.

2. Bluetooth Pairing

Follow these steps to pair your earpiece with your device:

1. Ensure the earpiece is charged and powered off.
2. Press and hold the Multi-function button on the earpiece until the LED indicator flashes red and blue alternately, indicating it's in pairing mode.
3. On your smartphone, tablet, or computer, enable Bluetooth and search for available devices.
4. Select "HSP-B3" from the list of found devices.
5. Once connected, the LED indicator will flash blue periodically, and you will hear a voice prompt confirming the connection.

The HSP-B3 supports connecting to two devices simultaneously, allowing you to seamlessly switch between them for calls or media.

Operating Instructions

Basic Functions

- **Power On/Off:** Press and hold the Multi-function button for 3 seconds to power on/off.
- **Answer/End Call:** Short press the Multi-function button.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds.
- **Volume Up/Down:** Short press the Volume + or Volume - buttons.
- **Play/Pause:** Short press the Multi-function button during music playback.
- **Next/Previous Track:** Long press the Volume + or Volume - buttons.
- **Activate Voice Assistant (Siri/Google Assistant):** On standby, tap the Mute button for 3 seconds.

Dual-Mic Noise Cancelling

The HSP-B3 features two built-in HD microphones and advanced CVC8.0 noise reduction technology. This significantly reduces disruptive background noise, ensuring crystal-clear conversations even in noisy environments.

Comfort and Fit

The earpiece is designed for ultimate comfort during extended use. It comes with three different sizes of ear gels (Small, Medium, Large) to ensure a snug and tailored fit. The 180° rotatable ear-hook and 270° flexible boom mic allow for adjustment and rotation to achieve a perfect fit on either ear, minimizing discomfort.

Maintenance

To ensure the longevity and optimal performance of your GPEESTRAC HSP-B3 earpiece, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the earpiece with a soft, dry cloth. For ear gels, remove them and clean with mild soap and water, then allow them to air dry completely before reattaching.
- **Storage:** When not in use, store the earpiece in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Avoid Moisture:** While durable, the earpiece is not water-resistant. Avoid exposure to excessive moisture, rain, or sweat.
- **Handle with Care:** Do not drop, disassemble, or attempt to repair the earpiece yourself, as this may void the warranty and cause damage.

Troubleshooting

If you encounter any issues with your HSP-B3 earpiece, please refer to the following common troubleshooting steps:

- **Cannot Power On:** Ensure the earpiece is fully charged. Connect it to the charger and try again.
- **Cannot Pair:** Make sure the earpiece is in pairing mode (flashing red and blue). Ensure Bluetooth is enabled on your device and that the earpiece is within 33 feet (10 meters) of your device. Try restarting both the earpiece and your device.
- **No Sound/Low Volume:** Check the volume levels on both the earpiece and your connected device. Ensure the earpiece is properly seated in your ear.
- **Poor Call Quality/Noise:** Ensure the boom mic is positioned correctly towards your mouth. Verify that the dual-mic noise-cancelling feature is active. Move closer to your connected device to improve signal strength.
- **Intermittent Connection:** Ensure there are no obstructions between the earpiece and your device. Avoid using the earpiece near strong electromagnetic interference sources.

If the problem persists after trying these steps, please contact GPEESTRAC customer service for further assistance.
