warmiplanet WICF02

warmiplanet 52-Inch Ceiling Fan Instruction Manual

Model: WICF02

Brand: warmiplanet

1. INTRODUCTION

Thank you for purchasing the warmiplanet 52-inch Ceiling Fan. This manual provides detailed instructions for the safe installation, operation, and maintenance of your new ceiling fan. Please read all instructions carefully before beginning installation and retain this manual for future reference.

Figure 1: warmiplanet 52-inch Ceiling Fan with Remote Control and reversible blades.

2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of electric shock, fire, or injury to persons, read and follow all instructions carefully.

- Ensure the power is turned off at the circuit breaker before installation or servicing.
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- The mounting structure must be capable of supporting a minimum of 35 lbs (15.9 kg).
- Do not operate the fan with damaged blades. Replace all blades if any are damaged.
- Maintain a minimum clearance of 7 feet (2.1 meters) from the floor to the trailing edge of the blades.
- Do not insert objects into the path of the fan blades.
- This fan is intended for indoor use only.

3. PACKAGE CONTENTS

Verify that all parts are included in the package before beginning installation.

Item	Description	Quantity
Ceiling Fan Motor Assembly	Brushed nickel motor with integrated light housing	1
Fan Blades	4 reversible wood blades (grey/white)	4
Remote Control	Multi-function remote with wall bracket	1
Downrod	Standard downrod for mounting	1
Mounting Bracket	Ceiling mounting bracket	1
Hardware Pack	Screws, washers, wire nuts, etc.	1
LED Light Kit	Integrated 24W LED	1
Instruction Manual	This document	1

4. SPECIFICATIONS

Feature	Detail
Model	WICF02
Dimensions	52"D x 52"W x 14.9"H
Number of Blades	4
Blade Material	Wood
Power Source	DC
Voltage	120 Volts
Wattage	32 watts
Noise Level	<50 dB
Air Flow Capacity	3300 CFM
Light Type	Integrated 24W LED
Luminous Flux	3000 lumen
Color Temperature	3000K (Warm), 4000K (Natural), 6000K (Cool)
Control Method	Remote Control
Usage	Indoor

5. SETUP AND INSTALLATION

Follow these steps for proper installation. It is recommended to watch the official installation video for visual guidance.

- Power Off:** Before starting, ensure the power is completely turned off at the circuit breaker to prevent electrical shock.
- Mounting Bracket Installation:** Securely attach the mounting bracket to the ceiling junction box. Ensure it can support the fan's weight.

3. Fan Assembly:

- Attach the downrod to the motor assembly.
- Connect the fan blades to the blade holders, ensuring the "THIS SIDE UP" label is correctly oriented for your desired blade finish (grey/white).

4. **Wiring:** Connect the fan's wires to the household wiring according to the wiring diagram in the manual. Ensure all connections are secure with wire nuts. The remote control unit will be integrated into the wiring.

Video 1: warmiplanet Ceiling Fan with Lights Installation Video. This video provides a step-by-step guide for installing the ceiling fan, including wiring and assembly.

5. **Hang Fan:** Carefully lift the fan assembly and hang it onto the mounting bracket.
6. **Secure Fan:** Secure the fan to the mounting bracket using the provided screws.
7. **Light Kit Installation:** Connect the LED light kit to the fan's wiring and secure it to the fan housing.
8. **Power On:** Once all connections are secure and the fan is fully assembled, restore power at the circuit breaker.

6. OPERATING INSTRUCTIONS

Your warmiplanet ceiling fan is operated using the included multi-function remote control.

Multi-functional Remote Control

Figure 3: Multi-functional remote control with buttons for fan speed, light settings, and timer.

- **Fan Speed:** Use the "LOW", "MED", and "HI" buttons to adjust fan speed. The fan also features 6 distinct speed settings for precise control.
- **Light Control:**
 - Press "LIGHT ON" to turn the light on, and "LIGHT OFF" to turn it off.
 - Cycle through color temperatures (6000K Cool White, 4000K Natural, 3000K Warm White) using the dedicated color

temperature buttons (WW, NW, DW).

- Adjust brightness from 10% to 100% using the dimming buttons (+/-).
- The fan and light have a memory function, retaining the last used color and speed settings.

More Lighting Options

Figure 4: The fan light offers 3000K Warm Light, 4000K Natural Light, and 6000K Cool White Light, all 10-100% dimmable.

- **Timer Function:** Set the fan to turn off automatically after 1 hour, 3 hours, or 6 hours using the corresponding timer buttons (1H, 3H, 6H).
- **Reversible Motor:** The fan features a reversible DC motor. A switch on the motor housing allows you to change the direction of the blades for summer (downward airflow) or winter (upward airflow to circulate warm air).

Suitable for All Seasons

Figure 5: Fan airflow direction can be reversed for summer cooling (counter-clockwise updraft) or winter warmth (clockwise downdraft).

Video 2: Warmiplanet 52 inch ceiling fan showing video. This video demonstrates the fan's operation and features.

7. MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your ceiling fan.

- **Cleaning:** To avoid damaging the finish, clean the fan with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Blade Cleaning:** Dust the fan blades regularly to prevent dust buildup, which can affect airflow and balance.
- **Tighten Screws:** Periodically check all screws on the fan and mounting hardware to ensure they are tight. Loose screws can cause wobbling or noise.
- **No Lubrication Needed:** The motor is permanently lubricated and does not require oiling.

8. TROUBLESHOOTING

If you experience issues with your fan, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control not paired.	Check circuit breaker; Verify all wiring connections are secure; Re-pair remote control (refer to manual for pairing instructions).
Fan wobbles	Loose blades or mounting hardware; Unbalanced blades.	Tighten all blade screws and mounting screws; Use the included balancing kit if necessary.
Noisy operation	Loose screws; Fan not properly secured to mounting bracket.	Check and tighten all screws; Ensure the fan is firmly attached to the mounting bracket.
Light does not work	Loose wire connection in light kit; LED panel failure.	Check light kit wiring connections; Contact customer support for LED panel replacement if faulty.

9. WARRANTY AND CUSTOMER SUPPORT

warmiplanet stands behind the quality of its products.

- **Motor Warranty:** The fan motor is covered by a 10-year warranty.
- **Whole Fan Warranty:** The entire fan (excluding the motor) is covered by a 2-year warranty.
- **Customer Support:** For any questions, installation assistance, or warranty claims, please contact warmiplanet customer support. They offer 24-hour support and aim to reply within 24 hours.
- **Installation Videos:** Additional installation videos and instructions are available from warmiplanet to assist with setup.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
