DURACELL 1600263

Duracell Broadview 550 Lumen LED Headlamp User Manual

Model: 1600263

1. INTRODUCTION

Thank you for choosing the Duracell Broadview 550 Lumen LED Headlamp. This headlamp is designed to provide superior illumination with a wide 220-degree viewing area, ensuring enhanced visibility and safety in various conditions. Featuring 9 distinct lighting modes and an IPX8 waterproof rating, it is built for durability and performance in demanding environments.

2. PACKAGE CONTENTS

- 3 x Duracell Broadview 550 Lumen LED Headlamps
- 9 x AAA Duracell Alkaline Batteries

3. KEY FEATURES

- **550 Lumens Output:** Provides powerful and bright illumination.
- **220-Degree Broadview:** Significantly wider viewing area compared to standard headlamps (typically 30 degrees), enhancing peripheral vision and safety.
- **9 Lighting Modes:** Versatile options including Flood, Spot, Night Vision, and various combinations.
- **IPX8 Waterproof Rating:** Designed to withstand immersion in water, ensuring functionality in wet conditions.
- **Integrated Downlight:** Illuminates the user's body, increasing visibility to others from a distance.
- **Durable Construction:** Made from robust plastic material for long-lasting use.
- **Power Lock:** Prevents accidental activation during transport or storage.

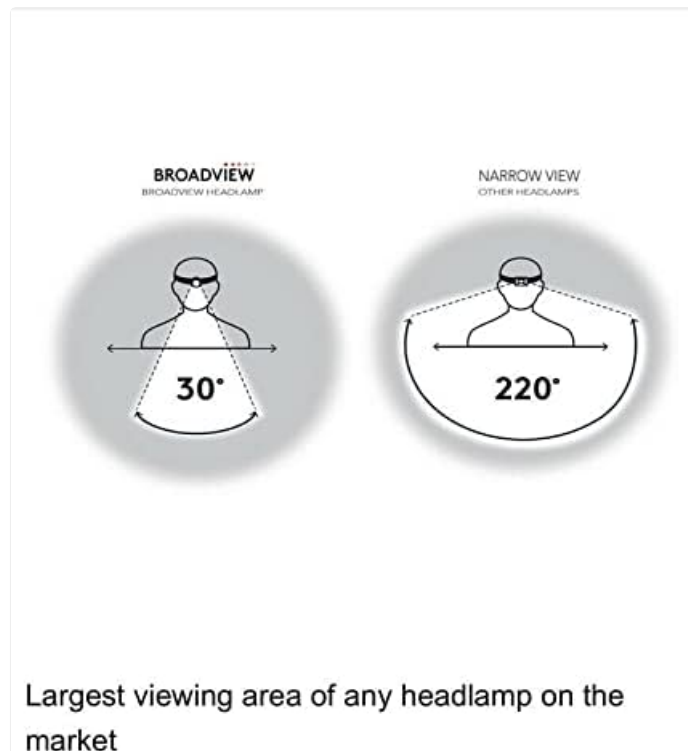

Image: Comparison of a standard 30-degree headlamp beam versus the Duracell Broadview's 220-degree beam, illustrating the significantly wider field of vision provided by the Broadview model.

Image: The Duracell Broadview headlamp shown with water splashing around it, highlighting its IPX8 waterproof capability, suitable for use in harsh weather or accidental submersion.

4. SETUP

4.1 Battery Installation

1. Locate the battery compartment on the rear of the headlamp unit.

2. Open the battery compartment cover by gently lifting the latch or sliding it open as indicated.
3. Insert three (3) AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment. Incorrect battery orientation can prevent the headlamp from functioning.
4. Close the battery compartment cover securely until it clicks into place, ensuring a watertight seal.

4.2 Adjusting the Headband

The elastic headband is adjustable to fit various head sizes. To adjust, simply slide the buckle on the strap to lengthen or shorten it until a comfortable and secure fit is achieved. The headlamp unit can also be tilted up or down to direct the beam as needed.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press the main power button located on the top of the headlamp once to turn it on.

5.2 Mode Selection

Once the headlamp is on, press the power button repeatedly to cycle through the available lighting modes. The headlamp will switch to the next mode with each press. To turn the headlamp off, continue pressing the power button until it cycles through all modes and switches off, or press and hold the power button for approximately 2 seconds.

5.3 Power Lock Feature

To engage the Power Lock feature (to prevent accidental activation), refer to the markings on the headlamp or packaging for specific instructions. Typically, this involves a specific button sequence or a long press of a dedicated button. To unlock, repeat the action.

Image: The Duracell Broadview headlamp shown fully illuminated in a dark setting, demonstrating its bright light output.

6. LIGHTING MODES

The Duracell Broadview Headlamp offers 9 versatile lighting modes to suit various needs:

- **Flood:** Wide, diffused light for general area illumination.
- **Spot:** Focused beam for long-distance viewing.
- **Night Vision:** Red light mode, preserves night adaptation and is less disruptive.
- **Peripheral Vision:** Activates side and down beams for enhanced situational awareness.
- **Flood + Spot:** Combines wide and focused beams for comprehensive lighting.
- **Flood + Peripheral Visions:** Wide area light with enhanced side and down visibility.
- **Spot + Peripheral Visions:** Focused beam with added peripheral awareness.
- **Flood + Spot + Peripheral Visions:** All lights active for maximum illumination and visibility.
- **Night Visions + Peripheral Visions:** Red light with enhanced side and down visibility.

lock icon, demonstrating the headlamp's versatile lighting capabilities.

Image: A person wearing the Duracell headlamp with its red night vision mode activated, illuminating a dark path, ideal for maintaining night vision and discreet use.

7. MAINTENANCE

7.1 Cleaning

To clean the headlamp, wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the plastic housing or lens. Ensure the battery compartment is sealed before cleaning.

7.2 Storage

When not in use for extended periods, store the headlamp in a cool, dry place away from direct sunlight. It is recommended to remove the batteries to prevent potential leakage and damage to the device.

8. TROUBLESHOOTING

- **Headlamp does not turn on:**
 - Check if batteries are inserted correctly with the correct polarity (+/-).
 - Replace with fresh AAA batteries.
 - Ensure the Power Lock feature is disengaged.
- **Light is dim or flickers:**
 - Batteries may be low. Replace all three AAA batteries.

9. SPECIFICATIONS

Model Number	1600263
--------------	---------

Light Output	550 Lumens (Maximum)
Beam Angle	220 Degrees
Number of Light Modes	9
Water Resistance	IPX8 (Waterproof)
Power Source	3 x AAA Alkaline Batteries (per headlamp)
Material	Plastic
Color	Black
Item Weight	549 g (Total for 3-pack)

10. SAFETY INFORMATION

- **Eye Safety:** Do not look directly into the LED light or shine it directly into the eyes of others. The intense light can cause temporary vision impairment or permanent eye damage.
- **Battery Safety:**
 - Always use the specified battery type (AAA alkaline).
 - Do not mix old and new batteries, or different types of batteries.
 - Ensure batteries are inserted with correct polarity.
 - Remove batteries if the device will not be used for an extended period.
 - Dispose of used batteries according to local regulations.
 - Batteries included should be used before 2027.
- **Children:** Keep out of reach of small children. This product is not a toy.
