ADESSO Xtream H5U

Adesso Xtream H5U Stereo USB Multimedia Headset Instruction Manual

Model: Xtream H5U | Brand: ADESSO

INTRODUCTION

The Adesso Xtream H5U Multimedia Headset with Microphone is designed for active lifestyles, offering a built-in soundcard for direct plug-and-play functionality via a simple USB connection. This eliminates the need for separate audio and microphone connections, providing a streamlined user experience. This manual will guide you through the setup, operation, and maintenance of your headset.

WHAT'S IN THE Box

Upon unpacking your Adesso Xtream H5U headset, please ensure all the following items are present:

- Headphone
- User Manual

SETUP

The Adesso Xtream H5U headset is designed for simple plug-and-play operation. Follow these steps to get started:

1. Locate an available USB port on your computer or compatible device.
2. Insert the USB connector of the headset firmly into the USB port.
3. Your operating system should automatically detect and install the necessary drivers. This process typically takes a few moments.
4. Once installed, the headset is ready for use. You may need to select the 'Xtream H5U' as your audio input and output device in your system's sound settings or within your communication application (e.g., Zoom, Microsoft Teams).

MAINTENANCE

To ensure the longevity and optimal performance of your Adesso Xtream H5U headset, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the earcups and headband. For deeper cleaning, a slightly damp cloth with mild soap can be used, ensuring no moisture enters the speaker grilles or microphone.
- **Storage:** When not in use, store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid wrapping the cable too tightly to prevent damage.
- **Cable Care:** Handle the USB cable gently. Avoid pulling on the cable itself when disconnecting; always grasp the plug.

TROUBLESHOOTING

If you encounter issues with your Adesso Xtream H5U headset, try the following troubleshooting steps:

- **No Sound/Microphone Not Working:**

- Ensure the USB connector is fully inserted into the port.
- Check your computer's sound settings to confirm the 'Xtream H5U' is selected as the default playback and recording device.
- Verify that the volume control on the headset is not set to minimum or muted.
- Test the headset on a different USB port or another computer to rule out port or system-specific issues.

- **Distorted Audio:**

- Lower the volume on both your computer and the headset.
- Ensure there are no loose connections.

- **Microphone Feedback:**

- Adjust the microphone's position further away from your mouth.
- Reduce the microphone input level in your computer's sound settings.

SPECIFICATIONS

Feature	Detail
