6. MAINTENANCE

To ensure the longevity and optimal performance of your PXN Steering Wheel V3II, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the steering wheel and pedal unit. Avoid using harsh chemicals or abrasive cleaners, as these can damage the surface.
- **Storage:** When not in use, store the device in a cool, dry place away from direct sunlight and extreme temperatures. Disconnect all cables to prevent tangling and damage.
- **Cable Care:** Avoid bending or twisting cables excessively. Ensure cables are not pinched or placed under heavy objects.

7. TROUBLESHOOTING

If you encounter any issues with your PXN Steering Wheel V3II, please refer to the following common solutions:

- **Device Not Responding:**
 - Ensure all cables are securely connected to the steering wheel, pedals, and console/PC.
 - Verify that the console's original controller is correctly connected to the steering wheel's guidance port (for PS4/Xbox).
 - Try connecting the steering wheel to a different USB port on your console or PC.
 - Restart your console or PC.
- **No Vibration Feedback:**
 - Check in-game settings to ensure vibration feedback is enabled.
 - Ensure the game you are playing supports vibration features.
- **Incorrect PC Mode (X-input/D-input):**
 - If on PC, long press the "HOME" button for 3 seconds to switch between X-input and D-input modes.
- **Steering Wheel Not Stable:**
 - Ensure the suction cups are clean and the surface is smooth and dry before pressing down firmly.
 - If using the U-fixed bracket, ensure it is tightened securely to the desk.
