## FLEXISPOT EG Set

# FLEXISPOT Standing Desk Instruction Manual

Model: EG Set (100x60cm, White Frame + Maple Top)

## 1. INTRODUCTION

This manual provides essential instructions for the assembly, operation, and maintenance of your FLEXISPOT EG Set electric height-adjustable standing desk. Designed for ergonomic comfort, this desk allows seamless transitions between sitting and standing positions, promoting a healthier work environment. Please read these instructions carefully before use to ensure proper function and safety.

## 2. SAFETY INFORMATION

**Warning: Do not exceed the maximum recommended load of 70 kg (dynamic) / 85 kg (static) to ensure the stability and safety of the desk.**

- Ensure all components are securely fastened before use.
- Keep children and pets away from the desk during operation.
- Avoid placing liquids directly on the control panel or near electrical components.
- Ensure the power cable is properly connected to a suitable electrical outlet.
- Do not attempt to disassemble or repair the motor or control system yourself. Contact customer support for assistance.

## 3. ASSEMBLY INSTRUCTIONS

Detailed assembly instructions are provided in a separate document included with your product packaging. Please refer to that document for step-by-step guidance. Assembly typically requires two individuals due to the weight of the tabletop and frame components. A screwdriver or magnetic driver is recommended for easier installation of the tabletop and control panel.

Ensure the desk is positioned near an electrical outlet for power supply to the electric height adjustment mechanism.

## 4. OPERATING INSTRUCTIONS

---

### 4.1. Height Adjustment

The desk features an electric height adjustment system, allowing the tabletop to be raised or lowered smoothly. The height can be adjusted from 73.5 cm to 118 cm, accommodating various user heights and preferences.

### 4.2. Control Panel

The desk is equipped with a user-friendly 6-button manual control panel. This panel includes an LED display for real-time height indication and allows you to store up to four different height positions for quick access.

# SMART CONTROL PANEL

Your Comfort, Remembered. Your Space, Your Way

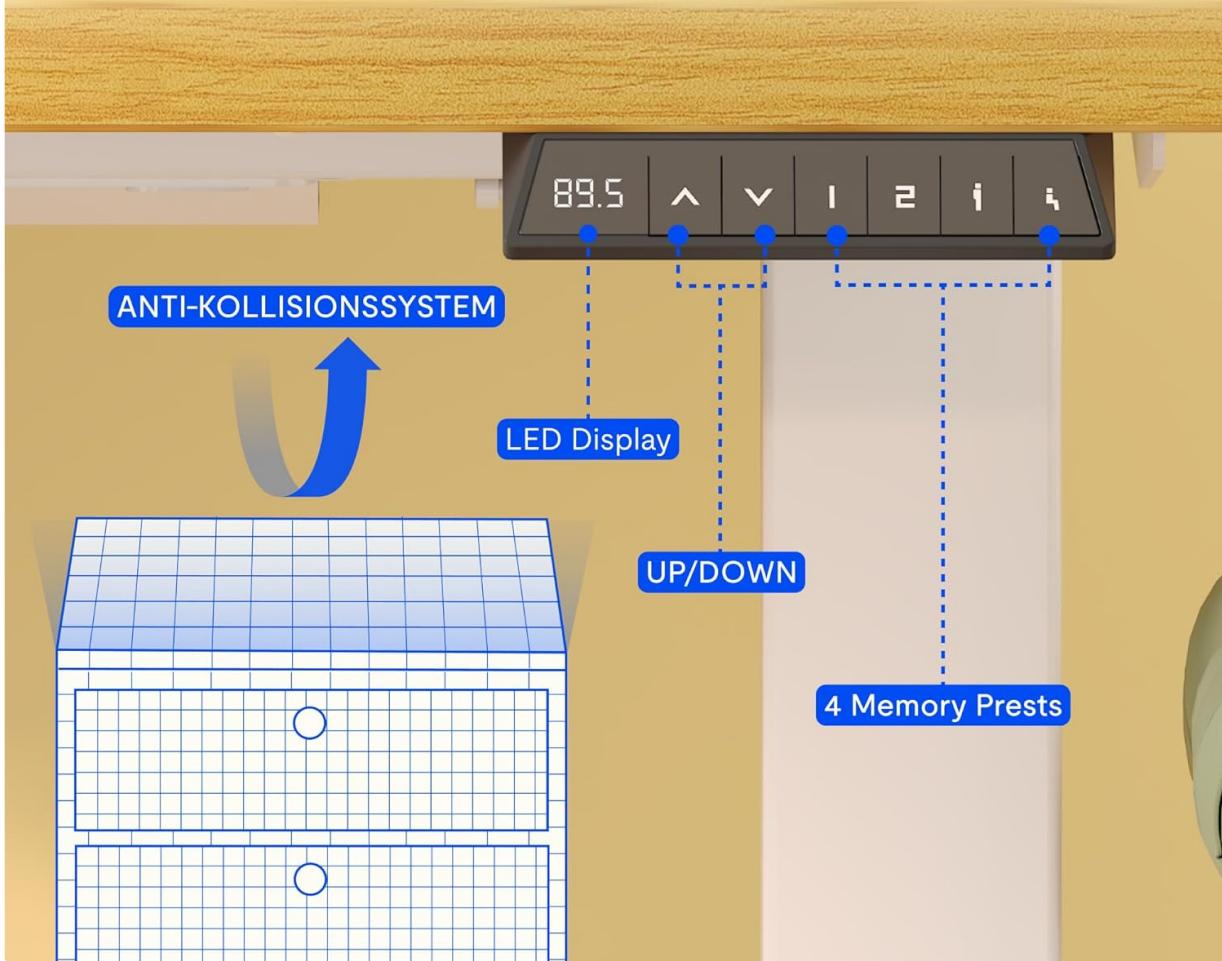

Image 2: Detail of the smart control panel with LED display and memory presets.

## 4.3. Memory Presets

To save a desired height position:

1. Adjust the desk to your preferred height using the up/down arrows.
2. Press the 'M' button (or similar memory button) followed by a number (1, 2, 3, or 4) to save the current height to that preset.
3. To recall a saved height, simply press the corresponding number button.

## 4.4. Anti-Collision Rebound Function

The desk is equipped with an anti-collision system. If the desk encounters an obstacle during height adjustment, it will automatically stop and slightly reverse direction to prevent damage or injury. This feature enhances safety during operation.

Image 3: Visual representation of the anti-collision rebound function, showing the desk stopping and reversing upon encountering an obstacle.

#### 4.5. Low Noise Operation

The electric motor operates at a low noise level, typically below 50dB, ensuring a quiet working environment. The standby power consumption is less than 0.5W, making it energy-efficient.

Image 4: The desk operates quietly, with noise levels below 50dB, as depicted by a cat sleeping undisturbed on the tabletop.

### 5. MAINTENANCE

To maintain the desk's appearance and functionality, wipe surfaces with a dry cloth. Avoid using harsh chemicals or abrasive cleaners. Regularly check all screws and connections to ensure they remain tight.

### 6. TROUBLESHOOTING

If you encounter any issues with your FLEXISPOT standing desk, please refer to the troubleshooting section in the separate assembly manual or contact FLEXISPOT customer support for assistance. Common issues may include:

- **Desk not moving:** Check power connections and ensure no obstacles are blocking the frame.
- **Uneven movement:** Perform a reset procedure (refer to the detailed manual) or ensure the desk is not overloaded.
- **Error codes on display:** Consult the detailed manual for specific error code meanings and solutions.

### 7. SPECIFICATIONS

Feature	Detail
Model Number	EG Set
Dimensions (L x W x H)	100P x 60I x 73.5H cm (at lowest height)
Height Adjustment Range	73.5 cm to 118 cm

Max Load Capacity	70 kg (dynamic), 85 kg (static)
Max Speed	15 mm/s
Low Noise Level	<50dB
Standby Power Consumption	<0.5W
Input Voltage	AC100-240V
Material (Frame)	Alloy Steel
Material (Tabletop)	Engineered Wood
Color	White Frame + Maple Top
Special Features	Ergonomic, Adjustable, Stable, Electric, Anti-Collision
