

GENIANI KW-JSQ10

GENIANI Portable Cool Mist Humidifier User Manual

Model: Erie (KW-JSQ10)

1. INTRODUCTION

Thank you for choosing the GENIANI Portable Cool Mist Humidifier. This ultrasonic humidifier is designed to enhance air quality and comfort in small spaces such as bedrooms, offices, nurseries, and even cars. Its compact and portable design, combined with quiet operation and essential features like auto shut-off and a night light, makes it a versatile addition to your environment. Please read this manual carefully before use to ensure proper operation and maintenance.

2. PRODUCT OVERVIEW

2.1 Key Features

- **Compact & Portable:** Lightweight design, easy to carry for use in various locations.
- **Enhanced Air Quality:** Two mist modes to improve air quality, ease allergies, and relieve dry skin and throat.
- **Energy-Efficient & Safe:** Features an auto shut-off for safety and energy conservation.
- **Silent Operation:** Operates at a quiet 38dB, ensuring undisturbed sleep.
- **Plant-Friendly:** Helps maintain optimal moisture levels for healthier plant growth.
- **Baby-Safe:** Creates a healthy breathing environment for babies without burn risks.
- **Soothing Night Light:** Doubles as a night light for a peaceful sleep environment.
- **Complete Package:** Includes 1x personal humidifier, 1x USB cable, and 2x replacement filters.

2.2 Components

The GENIANI Portable Cool Mist Humidifier consists of the following main components:

- Main Humidifier Unit (with integrated water tank)
- Top Cover
- Cotton Stick Filter (pre-installed, plus two replacements)
- USB Power Cable

Figure 2: Visual representation of the humidifier's key features, including quiet operation, two mist modes, USB power, up to 8 hours runtime, night light, and ease of use.

3. SETUP INSTRUCTIONS

Follow these steps to set up your GENIANI Humidifier for first-time use:

1. **Remove Top Cover:** Gently twist and lift the top cover from the humidifier base.
2. **Add Water:** Fill the water tank with clean tap water. Do not exceed the maximum fill line. The tank capacity is 250ML (0.25L).
3. **Prepare Cotton Stick Filter:** Remove the cotton stick filter from its housing. If it's the first time using or replacing, soak the cotton stick completely in water for a few minutes until fully saturated.
4. **Reinsert Filter:** Place the saturated cotton stick back into its housing and ensure it is securely seated.
5. **Replace Top Cover:** Align the top cover with the base and gently twist to secure it.
6. **Connect Power:** Plug the USB cable into the humidifier's power port and connect the other end to a compatible USB power source (e.g., computer, USB wall adapter).

PORTABLE FOR EASY USE ON THE GO

Figure 3: Step-by-step visual guide for initial setup of the humidifier, including water filling and filter preparation.

4. OPERATING INSTRUCTIONS

Your GENIANI Humidifier is designed for simple touch control.

- **Power On/Mist Mode Selection:** Press the touch button on the side of the unit once for continuous mist mode. Press it a second time for intermittent mist mode (mist for a few seconds, then pause). Press a third time to turn the mist off.
- **Night Light Function:** To activate the night light, press and hold the touch button for a few seconds. The light will illuminate the base of the unit. To turn off the night light, press and hold the button again.
- **Auto Shut-Off:** The humidifier will automatically shut off when the water level is too low, ensuring safety and preventing damage to the unit.

Figure 5: The humidifier's compact size allows it to fit conveniently in a car's cup holder, powered by USB.

5. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your humidifier.

- **Daily Cleaning:** Empty any remaining water from the tank daily. Rinse the tank with fresh water.
- **Weekly Cleaning:** To prevent mineral buildup and ensure hygienic operation, clean the water tank and internal components weekly.
 - Disconnect the power.
 - Remove the top cover and cotton stick filter.
 - Wipe the inside of the water tank with a soft cloth. For stubborn mineral deposits (calcium buildup), use a solution of white vinegar and water (1:1 ratio). Let it sit for 15-20 minutes, then scrub gently and rinse thoroughly.
 - Clean the mist outlet and transducer (the small disc inside the base) with a soft brush or cotton swab. Do not use harsh chemicals or abrasive materials.
 - Ensure all parts are dry before reassembling.
- **Filter Replacement:** The humidifier includes two replacement cotton stick filters. Replace the filter every 1-3 months, or more frequently if you notice reduced mist output or a change in water quality.

Always soak new filters thoroughly before use.

6. TROUBLESHOOTING

If you encounter any issues with your humidifier, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist or low mist output	Insufficient water in tank. Cotton stick filter is dry or clogged. Mineral buildup on transducer. Unit not properly connected to power.	Refill water tank. Ensure cotton stick is fully saturated; replace if necessary. Clean the transducer as per maintenance instructions. Check USB cable connection and power source.
Unusual odor from mist	Stagnant water or dirty tank. New unit odor (temporary).	Clean the water tank thoroughly. Use fresh water daily. The odor should dissipate after a few uses.
Unit not turning on	No power or loose connection. Water level too low (auto shut-off activated).	Check USB cable and power source. Try a different USB port or adapter. Refill water tank.
