## Revitive Essential Circulation Booster

# Revitive Essential Circulation Booster User Manual

Model: Essential Circulation Booster (5827-RLV-CA)

## INTRODUCTION

The Revitive Essential Circulation Booster is a drug-free medical device designed to provide relief from milder occasional symptoms associated with a sedentary or inactive lifestyle. It utilizes professional-strength OxyWave technology to stimulate muscles in the legs and feet, aiming to alleviate tired, aching legs and feet, and help maintain leg health.

## IMPORTANT SAFETY INFORMATION

Please read all safety warnings and instructions before using the Revitive Essential Circulation Booster. Failure to do so may result in injury or damage to the device.

- **Do not use if:**
  - You are fitted with an electronic implant, such as a pacemaker or AICD.
  - You are being treated for, or have the symptoms of, a Deep Vein Thrombosis (DVT).
  - You are pregnant.
- Always consult your doctor before using this device if you have any medical conditions or concerns.
- Do not rely solely on the information presented here; always read labels, warnings, and directions provided with the product packaging.

## PACKAGE CONTENTS

The Revitive Essential Circulation Booster package typically includes:

- Revitive Essential Circulation Booster unit
- Power adapter
- Instruction Manual

## SETUP

- 1. Unpack the Device:** Carefully remove the Revitive Essential Circulation Booster and all accessories from the packaging.
- 2. Position the Device:** Place the unit on a flat, stable surface in front of a comfortable chair where you can sit and relax.
- 3. Connect Power:** Insert the power adapter into the power port on the side of the Revitive unit, then plug the adapter into a wall outlet. Ensure the device is charged if necessary before first use.

## OPERATING INSTRUCTIONS

Follow these steps for effective use of your Revitive Essential Circulation Booster:

- 1. Sit Comfortably:** Sit down in a chair with your feet able to comfortably reach the device.
- 2. Place Feet:** Place your bare feet on the footpads of the Revitive unit. Ensure full contact for optimal stimulation.
- 3. Power On:** Press the power button on the device to turn it on.
- 4. Adjust Intensity:** Use the '+' and '-' buttons on the central control panel to gradually increase the intensity level. Start at a low level and increase until you feel a comfortable, strong muscle contraction in

your calves. The device offers 1-50 intensity levels.

5. **Relax and Enjoy:** Allow the device to work for the recommended session duration (typically 20-30 minutes). You can read, watch TV, or engage in other seated activities during this time.
6. **Post-Treatment:** After each session, allow adequate time for your muscles to recover, similar to after physical exercise.

Figure 5: Diagram illustrating how the device helps maintain leg vein health and relieves tired, aching legs and feet.

## MAINTENANCE

To ensure the longevity and proper functioning of your Revitive Essential Circulation Booster, follow these simple maintenance guidelines:

- **Cleaning:** After each use, wipe the footpads and the main unit with a clean, damp cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the power cord and the device for any signs of damage. If damage is found, discontinue use and contact customer support.

## TROUBLESHOOTING

If you encounter issues with your Revitive Essential Circulation Booster, consider the following:

- **No Power:**
  - Ensure the power adapter is securely plugged into both the device and a working wall outlet.
  - Check if the power outlet is functional by plugging in another appliance.
- **No Sensation/Weak Sensation:**

- Ensure your bare feet are making full contact with both footpads.
- Increase the intensity level gradually using the '+' button.
- Ensure your feet are clean and moisturized, as dry skin can reduce conductivity.

- **Device Stops During Use:**

- Check the power connection.
- The device may have an automatic shut-off feature after a set duration; simply restart if needed.

If problems persist, please contact customer support.
