

Homix SV832-GR

Homix SV832-GR Multi-Capsule Coffee Machine User Manual

Model: SV832-GR | Brand: Homix

1. INTRODUCTION

Thank you for choosing the Homix SV832-GR Multi-Capsule Coffee Machine. This appliance is designed to provide a convenient and versatile coffee brewing experience, supporting various capsule types and ground coffee. Please read this manual thoroughly before operating the machine to ensure safe and efficient use. Keep this manual for future reference.

2. SAFETY INSTRUCTIONS

- Read all instructions before use.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- This appliance is for household use only. Do not use outdoors.
- Ensure the voltage indicated on the appliance matches your local power supply before connecting.
- Unplug from the outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Keep the appliance and its cord out of reach of children.
- Avoid contact with moving parts.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always ensure the water tank is filled to the appropriate level before brewing.
- Use only cold, fresh water in the water tank.
- Exercise extreme caution when disposing of hot steam or hot water.

3. PRODUCT OVERVIEW

Familiarize yourself with the components of your Homix Multi-Capsule Coffee Machine.

Figure 3.1: Front view of the coffee machine, showing control buttons and coffee dispenser.

Figure 3.2: Side view of the coffee machine, highlighting the detachable water tank.

Figure 3.3: Rear view showing the water tank and the power cord connection.

Figure 3.4: Top view of the machine, showing the compartments for inserting capsule adapters.

Figure 3.5: Close-up of the different capsule adapters for various coffee capsule types and ground coffee.

Figure 3.6: Included coffee scoop and tamper accessory for ground coffee.

4. SETUP

1. **Unpacking:** Carefully remove the coffee machine and all accessories from the packaging. Ensure all components are present and undamaged.
2. **Placement:** Place the machine on a stable, flat, heat-resistant surface, away from water sources and heat. Ensure adequate ventilation around the unit.
3. **Initial Cleaning:** Before first use, wash the water tank, drip tray, and capsule adapters with warm, soapy water. Rinse thoroughly and dry.
4. **Fill Water Tank:** Fill the removable water tank with fresh, cold water up to the MAX line. Do not exceed the MAX line.
5. **First Use Cycle (Priming):**
 - Ensure the water tank is filled.
 - Place an empty cup on the drip tray.
 - Plug the machine into a suitable 220-240V, 60Hz power outlet (Type G 3-pin plug).

- Press the power button to turn on the machine. It will heat up, and indicator lights may flash.
- Once the machine is ready (indicator light solid), press the brew button to run a cycle of hot water through the system without any coffee. This cleans the internal components and primes the pump.
- Discard the water. Your machine is now ready for use.

5. OPERATING INSTRUCTIONS

The Homix SV832-GR offers fully automatic operation and programmable features for individual use.

5.1 Brewing with Capsules

1. Ensure the water tank is filled with fresh water.
2. Turn on the machine by pressing the power button. Wait for the machine to heat up (indicator light will become solid).
3. Select the appropriate capsule adapter for your capsule type (e.g., Nespresso, Dolce Gusto, etc.).
4. Insert the capsule into the adapter.
5. Place the loaded adapter into the machine's brewing chamber.
6. Place your coffee cup on the drip tray.
7. Press the desired brew button (e.g., small cup for espresso, large cup for lungo). The machine will automatically brew and stop.
8. After brewing, carefully remove the adapter and dispose of the used capsule.

5.2 Brewing with Ground Coffee

1. Ensure the water tank is filled with fresh water.
2. Turn on the machine and wait for it to heat up.
3. Use the ground coffee adapter. Fill it with your desired amount of ground coffee using the provided scoop.
4. Lightly tamp the coffee using the flat end of the scoop. Do not over-tamp.
5. Place the loaded ground coffee adapter into the machine's brewing chamber.
6. Place your coffee cup on the drip tray.
7. Press the desired brew button. The machine will brew and stop automatically.
8. After brewing, carefully remove the adapter and discard the used coffee grounds.

5.3 Programming Brew Volume

The machine allows you to customize the volume of your coffee for each button.

1. Ensure the machine is on and ready.
2. Insert a capsule or ground coffee adapter (without coffee if just setting volume).
3. Place a cup under the dispenser.
4. Press and hold the brew button you wish to program. The machine will start dispensing water.
5. Release the button when the desired volume is reached in your cup. The machine will beep to confirm the new setting is saved.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your coffee machine. This machine requires manual

cleaning.

6.1 Daily Cleaning

- **Drip Tray:** Empty and rinse the drip tray after each use or when the indicator shows it's full.
- **Water Tank:** Empty any remaining water and rinse the tank daily. Refill with fresh water before each use.
- **Capsule Adapters:** Remove and rinse the capsule adapters after each use to prevent coffee residue buildup.
- **Exterior:** Wipe the exterior of the machine with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.

6.2 Descaling

Over time, mineral deposits (limescale) can build up in the machine, affecting performance and coffee temperature. Descale your machine every 2-3 months, or more frequently if you have hard water.

1. Empty the water tank.
2. Fill the water tank with a descaling solution according to the manufacturer's instructions, or use a mixture of white vinegar and water (1:1 ratio).
3. Place a large container under the coffee dispenser.
4. Turn on the machine. Once heated, run several brewing cycles until the water tank is empty.
5. Rinse the water tank thoroughly and refill with fresh water.
6. Run several cycles with fresh water to rinse out any remaining descaling solution.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Machine does not turn on.	No power supply.	Check if the power cord is securely plugged into the outlet and the machine. Test the outlet with another appliance.
Coffee is not hot enough.	Machine needs descaling; preheating not complete.	Allow the machine to fully preheat until the indicator light is solid. Perform a descaling cycle (see Section 6.2).
Water is leaking from the machine.	Water tank not properly seated; internal seal issue.	Ensure the water tank is correctly and firmly placed. Check for cracks in the water tank. If leaking persists, contact customer support.
Coffee does not dispense or dispenses slowly.	Water tank empty; machine needs descaling; capsule/filter clogged.	Check water level in the tank. Perform a descaling cycle. Ensure capsule is correctly inserted and not damaged, or that ground coffee filter is not overfilled/clogged.
Coffee spills outside the cup.	Cup not positioned correctly; incorrect cup size.	Ensure the cup is centered directly under the dispenser. Use a cup appropriate for the selected brew volume.

8. SPECIFICATIONS

Feature	Detail
Brand	Homix

Feature	Detail
Model Number	SV832-GR
Color	Silver
Product Dimensions (D x W x H)	28 cm x 13 cm x 15 cm
Item Weight	3.97 Kilograms
Wattage	1100 Watts
Voltage/Frequency	220-240 Volts, 60 Hz
Power Plug Type	British Type G (3-pin)
Coffee Maker Type	Drip Coffee Machine, Single Serve
Operation Mode	Fully Automatic
Special Feature	Programmable
Filter Type	Reusable
Material	Metal
