INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, maintenance, and care of your Beldray BEL01096 Airlite Handheld Vacuum Cleaner. Please read this manual thoroughly before first use and retain it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed, including:

- Ensure the voltage indicated on the product corresponds with your mains supply.
- Do not immerse the appliance, charging base, or adapter in water or any other liquid.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not use the appliance if any part is damaged. Contact qualified service personnel for repair.
- Do not pick up flammable or combustible materials, hot ashes, or large, sharp objects.
- Always switch off and unplug the appliance before cleaning or maintenance.
- Use only manufacturer-recommended attachments.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.

PRODUCT OVERVIEW

Familiarize yourself with the components of your handheld vacuum cleaner.

Image: The Beldray BEL01096 Airlite Handheld Vacuum Cleaner in graphite color, resting vertically on its black countertop charging base. The transparent dust container and internal HEPA filter are visible.

- **Power Button:** To turn the vacuum on/off and adjust speed settings.
- **Dust Container:** Transparent container for collecting dust and debris.
- **HEPA Filter:** Located inside the dust container, designed to trap fine particles.
- **Charging Port:** Located on the vacuum for connection to the charging base.
- **Charging Base:** Provides power to recharge the vacuum and acts as a storage unit.
- **2-in-1 Crevice and Brush Tool:** Attachment for various cleaning tasks.

SETUP

Initial Charging

Before first use, fully charge the vacuum cleaner.

1. Place the handheld vacuum onto the countertop charging base.
2. Connect the power adapter to the charging base and plug it into a suitable mains socket.
3. The charging indicator light will illuminate.
4. Allow 4-5 hours for a full charge. The indicator light may change or turn off when fully charged (refer to specific product indicator behavior if detailed).

MAINTENANCE

Emptying the Dust Container

For optimal performance, empty the 100 ml dust container regularly, especially when it appears full.

1. Ensure the vacuum is switched off.
2. Hold the vacuum over a waste bin.
3. Locate the release button or latch for the dust container and press/slide it to detach the container from the main unit.
4. Carefully empty the contents into the bin.
5. Reattach the dust container securely until it clicks into place.

Cleaning the HEPA Filter

The HEPA filter should be cleaned approximately every two weeks, depending on usage, to maintain suction power.

1. Remove the dust container as described above.
2. Carefully remove the HEPA filter from inside the dust container.
3. Gently tap out any excess dust and debris. Use the brush tool provided to help dislodge stubborn particles.
4. Rinse the HEPA filter under running tap water until clean. Do not use detergents.
5. Allow the filter to air dry completely for at least 24 hours before reinserting it. Do not use the vacuum with a wet filter.
6. Once dry, reinsert the HEPA filter into the dust container and reattach the container to the vacuum.

CLEANING YOUR FILTER:

- Your filter should be cleaned approximately every two weeks, depending on usage.
- Gently tap out the HEPA filter to remove excess dust and debris, use the brush provided to help with this.
- Run under tap water until clean (1 minute) Leave until completely dry.
- Reinsert into your vacuum.
