## Amazfit A2017

# Amazfit Bip U Smart Watch User Manual

Model: A2017

## INTRODUCTION

---

The Amazfit Bip U Smart Watch is designed to be a comprehensive fitness and health companion. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your device, ensuring you get the most out of its features.

### WHAT'S IN THE BOX

---

- Amazfit Bip U Smart Watch
- Magnetic Charging Cable
- User Manual

### SETUP

---

#### 1. Charging the Device

Before first use, fully charge your Amazfit Bip U. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port.

Image: Rear view of the Amazfit Bip U, showing the optical heart rate sensors and magnetic charging contacts.

## 2. Installing the Zepp App

The Amazfit Bip U requires the Zepp app for full functionality. Download the Zepp app from your smartphone's app store (Google Play Store for Android or Apple App Store for iOS). Alternatively, scan the QR code displayed on the watch screen during initial setup to download the app.

## 3. Pairing the Device

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Zepp app and create an account or log in.
3. Follow the in-app instructions to add a new device. Select "Watch" and then "Amazfit Bip U".
4. A QR code will appear on the watch screen. Use the Zepp app to scan this QR code to complete the pairing process.
5. Once paired, the watch will synchronize data and settings with your phone.

## OPERATING THE DEVICE

### Navigation

- **Touchscreen:** Swipe up, down, left, or right to navigate through menus and screens. Tap to select an option.
- **Side Button:** Press the side button to return to the watch face or to access the app list.

### Key Features

## Health Monitoring

The Amazfit Bip U offers comprehensive health tracking features:

- **Heart Rate Monitoring:** Provides 24-hour heart rate tracking.
- **Blood Oxygen (SpO2) Measurement:** Manually measure your blood oxygen levels.
- **Sleep Quality Monitoring:** Tracks sleep stages and provides insights into sleep patterns.
- **Stress Level Monitoring:** Monitors stress levels and offers breathing exercises.
- **Female Period Tracking:** Records and predicts menstrual cycles.

Image: The Amazfit Bip U display showing a blood oxygen saturation (SpO2) reading of 98%.

## Smart Notifications

Receive intelligent reminders for incoming calls, text messages, app notifications, and calendar events directly on your watch. It also supports alarm clock, weather forecast, and smartphone music/camera control.

## Battery Life

The Amazfit Bip U is designed for extended use, offering up to 9 days of battery life on a single charge under typical usage conditions.

## MAINTENANCE

- **Cleaning:** Regularly clean the watch and strap with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Drying:** After exposure to water, ensure the watch is completely dry before charging or prolonged use.
- **Storage:** Store the watch in a cool, dry place when not in use.
- **Charging:** Use only the provided magnetic charging cable. Avoid overcharging the device.

## TROUBLESHOOTING

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 10 minutes.
- **Unable to pair with phone:**
  - Ensure Bluetooth is enabled on your phone.

- Make sure the watch is within Bluetooth range of your phone.
  - Restart both the watch and your phone.
  - Clear the Bluetooth cache on your phone (Android) or forget the device and re-pair (iOS).
  - Ensure the Zepp app is updated to the latest version.
- **Inaccurate heart rate/SpO2 readings:** Ensure the watch is worn snugly on your wrist, one finger-width above the wrist bone. Clean the sensors on the back of the watch.
- **Notifications not appearing:**
    - Check notification settings within the Zepp app.
    - Ensure app notifications are enabled in your phone's system settings.
    - Keep the Zepp app running in the background.
- **Short battery life:**
    - Reduce screen brightness.
    - Decrease the frequency of heart rate monitoring.
    - Turn off unnecessary notifications.
    - Disable "Always-on Display" if enabled.
