

Feit Electric FL1700

Feit Electric FL1700 LED Tactical Flashlight User Manual

Model: FL1700

1. INTRODUCTION

This manual provides instructions for the safe and effective use of your Feit Electric FL1700 LED Tactical Flashlight. Please read this manual thoroughly before operation and retain it for future reference.

The Feit Electric FL1700 is a high-performance LED tactical flashlight constructed from durable aluminum alloy. It features adjustable brightness levels (600 to 1700 lumens), a zoomable beam, and a tactical strike bezel, making it suitable for various applications including camping, hiking, automotive work, and emergency situations.

2. SAFETY INFORMATION

- **Eye Safety:** Do not stare directly into the LED light or shine it into the eyes of people or animals. The high intensity light can cause temporary vision impairment or permanent eye damage.
- **Battery Safety:** Use only the specified battery type (4 C-cell batteries). Do not mix old and new batteries, or different types of batteries. Ensure correct polarity (+ and -) when inserting. Remove batteries if the flashlight will not be used for an extended period to prevent leakage. Dispose of used batteries responsibly according to local regulations.
- **Tactical Bezel:** The flashlight features a tactical strike bezel designed for emergency situations, such as breaking glass. Exercise caution when handling and using this feature.
- **Impact and Water Resistance:** The flashlight is designed to be impact resistant up to 1 meter and weather resistant. Avoid submerging the flashlight in water.

3. PACKAGE CONTENTS

Your Feit Electric FL1700 LED Tactical Flashlight package includes:

- 1 Feit Electric FL1700 LED Tactical Flashlight

Note: Four (4) C-cell batteries are required for operation and are **not included**.

4. SETUP - BATTERY INSTALLATION

To install the batteries:

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert four (4) C-cell batteries into the battery compartment, ensuring the correct polarity (+ and -) as indicated inside the flashlight body.
3. Screw the tail cap back on clockwise until it is securely tightened.

5. OPERATING INSTRUCTIONS

Power On/Off

Press the power button located on the tail cap to turn the flashlight on or off.

Brightness Adjustment

With the flashlight on, lightly press the power button again to cycle between the two brightness modes: High (1700 lumens) and Low (600 lumens).

Zoom Function

To adjust the beam focus, slide the head of the flashlight forward or backward. Sliding the head forward narrows the beam for a concentrated spot, illuminating objects up to 1440 feet away. Sliding it backward widens the beam for broader area coverage.

Image: Diagram illustrating the sliding head mechanism for adjusting the flashlight's beam from wide to narrow zoom.

6. MAINTENANCE

- **Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents. Keep the lens clean for optimal light output.
- **Battery Care:** Replace all four C-cell batteries simultaneously when they are depleted. Do not leave depleted batteries in the flashlight for extended periods to prevent corrosion. If the flashlight is not used regularly, remove the batteries for storage.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

Problem	Solution
Flashlight does not turn on.	Check battery installation for correct polarity. Ensure batteries are fresh and fully charged. Clean battery contacts if corroded.

Problem	Solution
Light is dim or flickers.	Replace all four C-cell batteries with new ones. Ensure battery contacts are clean and free of debris.
Zoom function is stiff.	Gently clean the sliding mechanism. Avoid forcing the zoom.

8. SPECIFICATIONS

Light Source	LED
Brightness	1700 Lumens (High), 600 Lumens (Low)
Power Source	4 x C-cell Batteries (not included)
Material	Aircraft-grade Aluminum Alloy
Dimensions	1.7" D x 1.7" W x 10.2" H
Weight	0.7 lbs (11.2 oz)
Water Resistance	Weather Resistant
Impact Resistance	1 Meter Drop
Special Features	Zoomable, Tactical Strike Bezel
Model Number	FL1700
UPC	017801723861
