Feit Electric FL1000

Feit Electric LED Tactical Flashlight FL1000 Instruction Manual

Introduction

Thank you for choosing the Feit Electric LED Tactical Flashlight FL1000. This manual provides essential information for the safe and efficient operation of your new flashlight. Designed for durability and high performance, this flashlight is suitable for various applications including camping, hiking, walking, and emergency situations.

Key features of your FL1000 flashlight include:

- **Ultra Bright Illumination:** Delivers up to 1000 lumens for powerful light output.
- **Adjustable Focus:** Zoomable head allows for wide area coverage or a focused beam up to 1,000 feet.
- **Durable Construction:** Made from hard anodized aircraft-grade aluminum alloy, resistant to impact and corrosion.
- **Multiple Brightness Levels:** Two distinct lumen settings (300 and 1000 lumens) for versatile use.
- **Water Resistant:** Built to withstand rain, snow, and temporary submersion.
- **Tactical Strike Bezel:** Designed to break glass in emergencies and allow light to escape when placed face down.

Setup and Battery Installation

The Feit Electric FL1000 Tactical Flashlight requires three (3) C-Cell alkaline batteries (not included) for operation.

Follow these steps for proper battery installation:

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert three C-Cell alkaline batteries into the battery compartment, ensuring the correct polarity (+ and -) as indicated inside the flashlight.
3. Screw the tail cap back on clockwise until it is securely tightened.

Image: Rear packaging of the Feit Electric FL1000 Flashlight, detailing the requirement for three C-Cell batteries and basic instructions.

Important: For optimal performance and to prevent damage, always use fresh, high-quality alkaline batteries. Remove batteries if the flashlight will not be used for an extended period to prevent leakage and corrosion.

Operating Instructions

Power On/Off and Brightness Adjustment

To operate your Feit Electric FL1000 Tactical Flashlight:

- Press the power button located on the body of the flashlight to turn it on.
- Press the power button again to cycle through the two brightness modes: 1000 lumens (High) and 300 lumens (Low).
- Press the power button a third time to turn the flashlight off.

Zoom Function

The FL1000 features an adjustable focus head, allowing you to switch between a wide floodlight and a narrow spotlight beam:

- To widen the beam for broad area illumination, slide the head of the flashlight forward.
- To narrow the beam for a focused spotlight that can reach up to 1,000 feet, slide the head of the flashlight backward.

Image: Diagram illustrating the flashlight's zoom function, showing how sliding the head adjusts the beam from wide to narrow.

Care and Maintenance

- **Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Care:** Always remove batteries from the flashlight if it will not be used for an extended period to prevent potential battery leakage and damage to the device.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
Flashlight does not turn on.	Batteries are inserted incorrectly or are depleted.	Check battery polarity and ensure they are fresh. Replace if necessary.
Light is dim or flickers.	Batteries are low or nearly depleted.	Replace all three C-Cell batteries with new ones.
Beam does not adjust smoothly.	Dirt or debris in the zoom mechanism.	Gently clean the exterior of the flashlight head. Avoid forcing the mechanism.

Product Specifications

Image: The Feit Electric FL1000 Flashlight with key dimensions indicated: 8.1 inches in length and 1.6 inches in width.

Feature	Detail
Model Number	FL1000
Light Output (Max)	1000 Lumens
Light Output (Low)	300 Lumens
Beam Distance	1161 feet
Power Source	3 x C-Cell Alkaline Batteries (not included)

Feature	Detail
Runtime (High)	11 hours
Runtime (Low)	49 hours
Material	Hard Anodized Aircraft-Grade Aluminum Alloy
Dimensions (L x W x H)	8.2" x 1.6" x 1.6" (20.8cm x 4.1cm x 4.1cm)
Weight	3.2 ounces (approx. 90.7 grams)
Water Resistance Level	Water Resistant
Drop Resistance	3 Feet

Safety Information

Please read and adhere to the following safety guidelines to ensure safe operation and prevent injury:

- **WARNING:** This flashlight emits an extremely bright light.**NEVER point the flashlight directly into your eyes or the eyes of others.** This can cause temporary vision impairment or permanent eye damage.
- Do not use this flashlight in moving vehicles or aircraft.
- Keep out of reach of children.
- The tactical strike bezel is designed for emergency use, such as breaking glass. Use with caution.
- Dispose of used batteries properly according to local recycling and waste regulations.
