Wantek 681

Wantek Mono 2.5mm Telephone Headset Model 681 User Manual

Enhanced Communication for Office and Home Environments

INTRODUCTION

Thank you for choosing the Wantek Mono 2.5mm Telephone Headset Model 681. This headset is designed to provide clear audio communication and comfort for extended use in office and home environments. It features a noise-canceling microphone and convenient in-line controls, making it an ideal solution for landline phone systems.

PRODUCT OVERVIEW

The Wantek Model 681 is a single-ear headset equipped with a 2.5mm jack for compatibility with various landline phones. Its lightweight design and soft ear cushion ensure comfort during long calls. The adjustable microphone boom and noise-canceling technology enhance voice clarity, while the in-line controls offer easy management of calls.

PACKAGE CONTENTS

- Wantek Mono 2.5mm Telephone Headset Model 681
- User Manual

SETUP INSTRUCTIONS

1. Connecting the Headset

1. Locate the 2.5mm headset jack on your compatible landline or office phone.
2. Insert the 2.5mm connector of the headset firmly into the phone's headset jack.

Image 2: Diagram illustrating the 2.5mm jack connection and a compatibility chart for various phone brands including Panasonic, AT&T, Grandstream, Gigaset, Vtech, and Polycom. This headset is not designed for cell phones or computers.

2. Adjusting for Comfort

- **Headband Adjustment:** Gently extend or retract the headband to fit comfortably over your head. The headband is designed to be flexible.
- **Ear Cushion Positioning:** Place the soft ear cushion over one ear. The single-ear design allows you to remain aware of your surroundings.
- **Microphone Boom Adjustment:** The microphone boom can rotate 330 degrees, allowing you to wear the headset on either your left or right ear. Position the microphone approximately 1-2 inches from your mouth for optimal voice pickup.

OPERATING INSTRUCTIONS

1. Making and Receiving Calls

- Once connected, your headset is ready for use.
- Use your phone's dial pad to make calls as usual.
- Answer incoming calls directly from your phone.

2. Using In-Line Controls

The headset features an in-line control unit for easy access to essential functions:

- **Volume Control:** A large knob allows you to adjust the listening volume. Rotate the knob to increase or decrease the audio level.
- **Microphone Mute Switch:** A slide switch labeled 'ON' and 'OFF' controls the microphone. Slide to 'OFF' to mute your microphone during a call, and slide to 'ON' to unmute.

3. Noise-Canceling Microphone

The integrated noise-canceling microphone is designed to filter out background noise, ensuring your voice is heard clearly by the person on the other end of the call. This feature is particularly beneficial in busy office environments or homes with ambient sounds.

MAINTENANCE

1. Cleaning

- Wipe the headset with a soft, dry cloth.
- For stubborn dirt, use a slightly damp cloth with mild soap, then wipe dry immediately.
- Do not use harsh chemicals or abrasive cleaners.

2. Storage

- Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid tangling the cable to prevent damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from headset	Headset not fully plugged in; phone settings; volume too low.	Ensure 2.5mm jack is fully inserted. Check phone's audio settings. Increase volume using in-line control.
Microphone not working	Microphone muted; microphone boom not positioned correctly.	Slide the in-line mute switch to 'ON'. Adjust microphone boom closer to your mouth.

Problem	Possible Cause	Solution
Poor audio quality	Loose connection; phone compatibility issue.	Ensure connection is secure. Verify phone model is listed as compatible.
