

## aoni A20

# aoni A20 Full HD Webcam User Manual

Model: A20

## INTRODUCTION

The aoni A20 Full HD Webcam is designed to provide high-quality video and audio for various digital communication needs, including video conferencing, live streaming, and virtual meetings. This manual provides essential information for setting up, operating, and maintaining your A20 webcam.

## KEY FEATURES

- **Crystal-Clear Video:** Experience sharp 1080p Full HD at 30 frames per second with an advanced 1/2.7" CMOS sensor.
- **Effortless Auto Focus:** Maintains clear and sharp video focus, even with movement.
- **Versatile Compatibility:** Plug-and-play USB 2.0 connectivity with Windows, macOS, Android, Chrome, and Linux systems.
- **Superior Audio Quality:** Built-in omnidirectional microphone captures clear audio and reduces background noise.
- **Easy Setup & Mounting:** Securely attach using the integrated clip or tripod options, with a 6.56-foot USB cable for flexible placement.

## PACKAGE CONTENTS

Please check the package for the following items:

- aoni A20 Full HD Webcam with integrated USB cable
- User Manual

## SETUP INSTRUCTIONS

1. **Unpack the Webcam:** Carefully remove the aoni A20 webcam from its packaging.

## 2. Mount the Webcam:

- **On a Monitor:** Open the flexible clip base and place it on top of your monitor or laptop screen. Adjust the angle to ensure the webcam is stable and facing you.
- **On a Tripod:** The webcam features a standard tripod thread on its base. Attach it to a compatible tripod (not included) for alternative placement.

4. **Driver Installation:** The aoni A20 is a plug-and-play device. Your operating system (Windows, macOS, Android, Linux, Chrome OS) should automatically detect and install the necessary drivers. This process may take a few moments.
5. **Verify Installation:**
  - **Windows:** Go to Device Manager and check under "Cameras" or "Imaging devices" for "aoni A20 Webcam".
  - **macOS:** Open "System Preferences" > "Sound" > "Input" and "System Preferences" > "Security & Privacy" > "Camera" to ensure the webcam is recognized and permissions are granted.

## OPERATING INSTRUCTIONS

Once the webcam is successfully installed, you can use it with various video communication and recording applications.

1. **Select the Webcam:** In your preferred video application (e.g., Zoom, Skype, Microsoft Teams, Google Meet, OBS Studio), navigate to the video and audio settings. Select "aoni A20 Webcam" as your video input device and "aoni A20 Microphone" (or similar) as your audio input device.
2. **Adjust Position and Angle:** Adjust the webcam's position and tilt on its mount to achieve the desired framing. The auto-focus feature will automatically adjust for clarity.

3. **Lighting Conditions:** For optimal video quality, ensure adequate lighting. The A20 features low-light correction, but direct, harsh backlighting should be avoided.
4. **Microphone Usage:** The built-in omnidirectional microphone is effective within a range of 9.8 to 16.4 feet. Speak clearly and avoid placing the webcam too far from you for best audio capture.

## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your aoni A20 webcam.

- **Cleaning the Lens:** Gently wipe the webcam lens with a soft, lint-free cloth. For stubborn smudges, use a small amount of lens cleaning solution applied to the cloth, not directly to the lens.
- **Cleaning the Body:** Use a soft, dry cloth to clean the body of the webcam. Avoid abrasive cleaners or solvents.
- **Storage:** When not in use, store the webcam in a clean, dry place away from extreme temperatures and direct sunlight.
- **Cable Care:** Avoid bending or twisting the USB cable excessively to prevent internal damage.

## TROUBLESHOOTING

Problem	Possible Solution
<b>Webcam not detected by computer.</b>	<ul style="list-style-type: none"><li>• Ensure the USB cable is securely plugged into both the webcam and the computer.</li><li>• Try a different USB port on your computer.</li><li>• Restart your computer.</li><li>• Check Device Manager (Windows) or System Information (macOS) to see if the webcam is listed.</li></ul>
