## T'nB MWPOWER2

# T'nB Rechargeable Wireless Mouse User Manual

Brand: **T'nB** | Model: **MWPOWER2**

### Product Overview

The T'nB MWPOWER2 is a rechargeable wireless mouse designed for comfortable and efficient use with your computer. It features a silent click mechanism, an automatic standby system, and a convenient ON/OFF button to conserve battery life. The mouse connects automatically via a USB dongle, offering a plug-and-play experience. Its compact and modern design, along with a soft-touch coating, ensures a pleasant grip.

## Setup and First Use

1. **Unpack the Contents:** Carefully remove the wireless mouse, USB dongle, and USB to Micro USB charging cable from the packaging.
2. **Connect the USB Dongle:** Locate an available USB 2.0 port on your computer (PC or MAC). Insert the small USB dongle into the port. The mouse is Plug&Play and should connect automatically.
3. **Initial Charge:** Before first use, or if the mouse is not responding, it is recommended to fully charge the mouse.
   - Connect the Micro USB end of the provided charging cable to the charging port on the front of the mouse.
   - Connect the standard USB end of the cable to a USB power source (e.g., computer USB port, USB wall adapter).
   - The charging time is approximately 1-2 hours. The mouse can be used continuously even while charging.

4. **Power On:** Locate the ON/OFF switch on the bottom of the mouse and slide it to the "ON" position.

*Image 3: The USB to Micro USB charging cable provided with the mouse. This cable is used for recharging the internal battery.*

## Operating Instructions

Once connected and powered on, the T'nB MWPOWER2 mouse is ready for use. Its optical sensor provides precise tracking, and the silent click feature ensures a quiet working environment.

- **Basic Navigation:** Move the mouse on a flat surface to control the cursor on your screen.
- **Silent Clicks:** The left and right mouse buttons are designed for silent operation, reducing noise during use.
- **Scroll Wheel:** Use the scroll wheel located between the left and right buttons to scroll through documents and web pages. The scroll wheel also functions as a middle click button.
- **Automatic Standby:** To conserve battery, the mouse features an automatic standby system that activates after a period of inactivity. Simply move the mouse or click a button to wake it up.

- **Power Management:** For extended periods of non-use, slide the ON/OFF button on the bottom of the mouse to the "OFF" position to completely power down the device and maximize battery life.

*Image 4: Side view of the mouse, showing its ergonomic contour and the Micro USB charging port at the front.*

## Battery and Charging

The T'nB MWPOWER2 mouse is equipped with a built-in rechargeable battery, eliminating the need for disposable batteries.

- **Charging Indicator:** (Information not provided in source, assume standard behavior or omit if no indicator)
- **Charging Time:** A full charge typically takes 1 to 2 hours.
- **Usage Time:** Once fully charged, the mouse can operate for approximately 40 to 50 hours of continuous use.
- **Charging During Use:** The mouse can be used normally while it is connected to a power source and charging.

## Maintenance and Care

To ensure the longevity and optimal performance of your T'nB MWPOWER2 wireless mouse, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals, solvents, or abrasive cleaners.
- **Storage:** When not in use for extended periods, store the mouse in a cool, dry place. It is advisable to turn off the mouse using the ON/OFF switch to preserve battery life.
- **Avoid Extreme Conditions:** Do not expose the mouse to extreme temperatures, direct sunlight, or high humidity.
- **Handle with Care:** Avoid dropping the mouse or subjecting it to strong impacts, as this can damage internal components.

## Troubleshooting

If you encounter issues with your T'nB MWPOWER2 wireless mouse, please refer to the following common troubleshooting steps:

- **Mouse Not Responding:**

- Ensure the mouse is turned "ON" using the switch on the bottom.
- Verify that the USB dongle is securely plugged into a working USB port on your computer. Try a different USB port.
- Recharge the mouse. The battery might be depleted.
- Restart your computer.

- **Intermittent Connection:**
  - Ensure there are no large metallic objects or other wireless devices causing interference between the mouse and the USB dongle.
  - Move the mouse closer to the USB dongle.
- **Charging Issues:**
  - Ensure the charging cable is properly connected to both the mouse and the power source.
  - Try a different USB port or power adapter.
  - Verify the charging cable is not damaged.

If the problem persists after trying these steps, please contact T'nB customer support for further assistance.

## Specifications

| Feature | Detail |
