Controls and Indicators

The device typically includes a power button, volume controls, and a button to manage the flame lamp effect. Specific button functions are detailed in the 'Operating Instructions' section.

SETUP

Initial Charging

1. Before first use, fully charge the iGear Bedazzle speaker.
2. Connect the provided charging cable to the charging port on the speaker and to a standard USB power adapter (not included).
3. The charging indicator light will illuminate during charging and turn off or change color once fully charged.
4. A full charge typically takes approximately 3-4 hours.

OPERATING INSTRUCTIONS

Power On/Off

- To power on, press and hold the power button for a few seconds until you hear an audible prompt or see the indicator light.
- To power off, press and hold the power button again until the device shuts down.

Bluetooth Pairing

1. Ensure the speaker is powered on and in Bluetooth pairing mode (indicated by a flashing LED).
2. On your smartphone, tablet, or other Bluetooth-enabled device, navigate to the Bluetooth settings.
3. Search for available devices and select "iGear Bedazzle" from the list.
4. Once paired, the speaker will emit a confirmation sound, and the LED indicator will stop flashing.
5. The speaker utilizes Bluetooth 5.0 technology for a stable connection up to 30 feet (9 meters).

A 360° MUSICAL BONANZA

360° LED party speaker with crystal clear sound. With the latest Bluetooth 5.0 technology, you can quickly connect to your smartphone, tablet, or other Bluetooth devices up to 30ft away.

BLUETOOTH 5.0

Music Playback

- After successful Bluetooth pairing, you can play audio from your connected device.
- Use the volume controls on the speaker or your connected device to adjust the sound level.
- The speaker delivers 5 watts of crystal clear 360-degree sound.

Flame Lamp Operation

- Press the dedicated flame lamp button to activate the realistic dancing flame effect.
- Press the button again to turn off the flame effect.
- The flame lamp can operate independently of the Bluetooth speaker function.

Battery Life and Charging

The iGear Bedazzle is equipped with an 1800 mAh rechargeable battery.

- Enjoy up to 6 hours of continuous music playback on a full charge.
- The flame lamp can remain lit for up to 8 hours on a full charge.
- Recharge the device when the battery is low using the provided charging cable.

6 HOURS OF PLAYTIME + 8 HOURS OF FLAME TIME

RECHARGEABLE BATTERY

MAINTENANCE

To ensure the longevity and optimal performance of your iGear Bedazzle speaker, follow these maintenance guidelines:

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Water Resistance:** The speaker is dust-tight and water-resistant. Avoid submerging it in water or exposing it to heavy rain. Ensure the charging port cover is securely closed when not charging to maintain water resistance.

WATER RESISTANT

Image: The iGear Bedazzle speaker shown with water splashes, highlighting its water-resistant feature.

- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Battery Care:** To preserve battery life, charge the device regularly, even if not used frequently. Avoid fully discharging the battery for prolonged periods.

TROUBLESHOOTING

If you encounter issues with your iGear Bedazzle speaker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not power on	Low battery; Power button not pressed correctly	Charge the device fully. Press and hold the power button for a few seconds.
Cannot pair via Bluetooth	Speaker not in pairing mode; Device too far; Bluetooth off on source device	Ensure speaker is in pairing mode. Move devices closer. Enable Bluetooth on your source device. Forget and re-pair the device.

Problem	Possible Cause	Solution
No sound during playback	Volume too low; Device not connected; Incorrect audio source	Increase volume on both speaker and source device. Ensure Bluetooth is connected. Check audio output settings on your source device.
Flame lamp not working	Low battery; Flame lamp function not activated	Charge the device. Press the dedicated flame lamp button to activate.
