## 2. SETUP GUIDE

Follow these steps to set up your Nutale Key Finder:

- Power On:** Long press the device's button for 5 seconds until you hear a sound, indicating it's powered on.
- Download App:** Download and open the "Findthing" App from your device's app store. This version is compatible with both iOS and Android devices.
- Add Device:** Tap the "+" icon within the Findthing App to add a new device.
- Select Category:** Choose a category for your item (e.g., keys, wallet, remote).
- Finish Setup:** Tap "Done" to complete the pairing process. You can then tap "Call" in the app to test the device's ring function.

### 3. OPERATING INSTRUCTIONS

#### One-Touch Find

To quickly locate a misplaced item, open the Findthing App on your smartphone and click the "CALL" button. Your Nutale Key Finder will emit an 80dB sound, guiding you to its location.

## Attaching the Key Finder

The Nutale Key Finder is designed to be attached to various items:

- **Keys:** Use the integrated loop to attach it to your keychain.
- **Wallet:** Its ultra-slim design allows it to fit easily into wallet compartments.
- **Remote Controls:** Attach it to your TV remote or other frequently misplaced remotes.
- **Bags/Backpacks:** Secure it to zippers or internal loops of bags.

## 4. MAINTENANCE

### Battery Replacement

The Nutale Key Finder uses CR2032 coin cell batteries. When the battery is low, the device's performance may be affected. To replace the battery:

1. Carefully open the device casing.

2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery with the positive (+) side facing up.
4. Close the device casing securely.

*Note: 4 CR2032 batteries are required for operation. Batteries are not included with the product.*

## 5. TROUBLESHOOTING

- **Device not connecting to App:** Ensure Bluetooth is enabled on your smartphone and the Nutale Key Finder is powered on and within range. Try restarting both the device and the app.
- **Device not beeping:** Check the battery level in the app. If the battery is low, replace it. Ensure the volume on your smartphone is not muted.
- **Short range:** Bluetooth range can be affected by obstacles and interference. Ensure there are no major obstructions between your phone and the key finder.
