Kuulaa 26800mAh Portable Power Bank (5V/2A Purple)

Kuulaa 26800mAh Portable Power Bank User Manual

Model: 5V/2A Purple

Brand: Kuulaa

1. INTRODUCTION

Thank you for choosing the Kuulaa 26800mAh Portable Power Bank. This high-capacity power bank is designed to provide reliable and efficient charging for your mobile devices on the go. With its dual USB output ports and intelligent charging technology, it ensures your devices stay powered throughout the day. This manual provides essential information for the safe and optimal use of your power bank.

Figure 1: Kuulaa 26800mAh Portable Power Bank, showcasing its compact design and purple color.

2. PRODUCT OVERVIEW

The Kuulaa 26800mAh Portable Power Bank features multiple ports for versatile charging and recharging.

2.1 Ports and Indicators

Figure 2: Detailed view of the power bank's input and output ports, including Micro USB, Type-C, and two USB-A ports, along with LED

indicators.

- **USB 1 Output (A1):** 5V/2.1A output for charging devices.
- **USB 2 Output (A2):** 5V/2.1A output for charging devices.
- **Micro USB Input:** 5V/2.0A input for recharging the power bank.
- **Type-C Input:** 5V/2.0A input for recharging the power bank. Note: This model does not support Type-C output.
- **LED Indicators:** Four LED lights indicate the remaining battery level:
 - • 0-25%
 - •• 25-50%
 - ••• 50-75%
 - •••• 75-100%

Remaining Power Real Time Monitoring

4 indicator lights design, remaining power read clearly

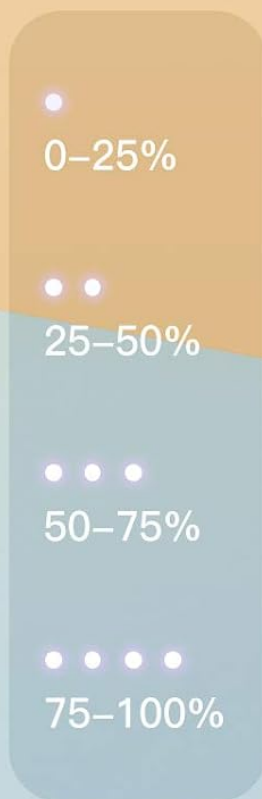

Figure 3: The four LED indicator lights on the power bank, providing real-time monitoring of the remaining power.

3. SETUP

3.1 Initial Charging of the Power Bank

Before first use, fully charge your Kuulaa Portable Power Bank.

1. Connect the provided Micro USB charging cable (or a compatible USB-C cable) to the corresponding input port on

the power bank.

2. Connect the other end of the cable to a USB wall charger (not included) or a computer's USB port.
3. The LED indicators will light up progressively as the power bank charges. All four LEDs will be solid when fully charged. A full charge typically takes approximately 7 hours with a 2.1A charger.

4. OPERATING INSTRUCTIONS

4.1 Charging Your Devices

The power bank can charge two devices simultaneously using its dual USB output ports.

1. Connect your device's charging cable to one of the USB output ports (A1 or A2) on the power bank.
2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging your device. The LED indicators will show the remaining power.

2.1A Dual Output

Charge 2 devices with your dear simultaneously

Figure 4: The power bank simultaneously charging two smartphones, highlighting its dual output capability.

4.2 Power Capacity and Compatibility

The 26800mAh capacity provides multiple charges for various devices. For example, it can provide over 5 charges for an iPhone 13, nearly 5 full charges for an iPhone X, and more than 4 charges for a Samsung Galaxy S10. The intelligent chip ensures optimized charging for a wide range of devices, including smartphones, iWatch, AirPods, and Bluetooth speakers.

Power for All Days

5. MAINTENANCE

- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid dropping or subjecting the power bank to strong impacts.
- Do not expose the power bank to water or excessive moisture.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- For optimal battery life, fully charge the power bank at least once every three months if not in regular use.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging.	Charging cable is faulty or not properly connected. Wall adapter is not working or insufficient.	Try a different charging cable and/or wall adapter. Ensure connections are secure.
Device not charging from power bank.	Device cable is faulty or not properly connected. Power bank battery is depleted.	Ensure the device's charging cable is working and securely connected. Recharge the power bank.
Slow charging.	Using a low-power wall adapter for recharging. Device's charging input limit.	Use a 2.1A or higher output wall adapter for faster power bank recharging. Ensure your device supports faster charging.
LED indicators not working.	Power bank is completely discharged or a malfunction.	Attempt to charge the power bank for an extended period. If issues persist, contact customer support.

7. SPECIFICATIONS
