## **4. USAGE INSTRUCTIONS**

---

Follow these steps for optimal results with the Novex Brazilian Keratin Hair Treatment Recharge Bundle:

**1. Step 1: Shampoo Application**

Apply the shampoo to wet hair. Lather thoroughly and then rinse. Repeat if necessary to ensure hair is clean and prepared for treatment.

**2. Step 2: Hair Mask Application**

After shampooing, apply the hair mask to clean, damp hair. Distribute evenly from roots to ends. Leave the mask on for a few minutes (refer to product packaging for specific duration, typically 10-15 minutes for deep conditioning). Rinse thoroughly.

**3. Step 3: Leave-In Conditioner Application**

Apply the leave-in conditioner to damp hair. Do not rinse. Style your hair as desired. This step helps to seal the hair cuticle, control frizz, and provide ongoing protection.

## 5. CARE AND MAINTENANCE

To maintain the effectiveness of the Novex Brazilian Keratin Hair Treatment and ensure the longevity of its benefits, store all products in a cool, dry place away from direct sunlight. Ensure caps are tightly closed after each use to prevent contamination and maintain product integrity. Consistent use as directed will help maintain smooth, frizz-free, and healthy-looking hair.

## 6. TROUBLESHOOTING

If you are not achieving the desired results with the Novex Brazilian Keratin Hair Treatment Recharge Bundle, consider the following:

- **Insufficient Smoothing/Frizz Control:** Ensure you are applying the products evenly and thoroughly, especially the hair mask and leave-in conditioner. For very dense or frizzy hair, ensure adequate product saturation.
- **Hair Feeling Heavy or Greasy:** This may indicate too much product is being used, particularly the leave-in conditioner. Try reducing the amount applied. Ensure thorough rinsing of the shampoo and hair mask.

- **Lack of Shine:** Ensure hair is completely rinsed of the mask. The leave-in conditioner should provide shine; if not, ensure even distribution.
- **Allergic Reaction/Irritation:** Discontinue use immediately if you experience any irritation, redness, or discomfort. Consult a healthcare professional if symptoms persist. Always perform a patch test before first use if you have sensitive skin or known allergies.
