maylofi E8910

maylofi Active Stylus Pen User Manual

Model: E8910

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your maylofi Active Stylus Pen, model E8910. This digital pen is designed for use with most capacitive touch screen devices, offering precision and responsiveness for various tasks such as drawing, writing, and navigation.

SAFETY INFORMATION

- Do not expose the stylus to extreme temperatures or direct sunlight.
- Avoid dropping the stylus or subjecting it to strong impacts.
- Keep out of reach of small children.
- Use only the provided Micro USB cable for charging.
- Do not attempt to disassemble or modify the stylus.

PACKAGE CONTENTS

Upon unboxing, please verify that all items listed below are present:

- 1 x maylofi Active Stylus Pen
- 1 x Micro USB Charging Cable

PRODUCT OVERVIEW

The maylofi Active Stylus Pen features a sleek design with a 1.5mm fine tip for precise interaction with your touch screen. It includes an integrated power button and an indicating light for status updates.

No Bluetooth Connection

SETUP

### Charging the Stylus

Before first use, fully charge the stylus. Connect the Micro USB cable to the charging port on the stylus and the other end to a USB power source (e.g., computer, wall adapter). The indicating light will show the charging status.

- **Red Light:** Charging in progress.
- **Green Light:** Fully charged.
- Charging time is approximately 60-80 minutes for a full charge.

Long Battery Life

Working Charging Fully charged

Powering On/Off

To turn on the stylus, press the power button located on the side of the pen. The indicating light will illuminate blue. To turn off, press the power button again. The stylus will automatically turn off after 30 minutes of inactivity to conserve battery.

OPERATING INSTRUCTIONS

Compatibility

The maylofi Active Stylus Pen is compatible with most capacitive touch screen devices, including iOS devices such as iPad Pro, iPad Mini, iPad Air, iPhone 11/Pro/Pro Max, iPhone X, iPhone 8/8 Plus, iPhone 7/7 Plus, iPhone 6s/6s Plus, iPhone 5/5s/5 SE, and iPhone 4/4s. It also works with many Android smartphones and tablets. *Note: This stylus is NOT compatible with Microsoft Windows system devices.*

Usage

No Bluetooth connection or app is required. Simply turn on the stylus and begin using it directly on your touch screen device. The 1.5mm tip provides accuracy and precision for various applications:

- **Drawing:** Create detailed artwork with smooth lines.
- **Writing:** Take notes, sign documents, or jot down ideas.
- **Browsing:** Navigate web pages and applications with ease.
- **Gaming:** Enhance your mobile gaming experience with precise control.

Explore new innovation possibilities

Image: Collage showing the stylus in use for different activities: drawing, browsing, playing games, and taking notes on various touch screen devices.

MAINTENANCE

To ensure the longevity and optimal performance of your stylus, follow these maintenance guidelines:

- **Cleaning:** Wipe the stylus body with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the stylus in a cool, dry place when not in use. Avoid placing heavy objects on it.
- **Tip Care:** The 1.5mm tip is durable but can be damaged by excessive force or rough surfaces. Avoid pressing too hard or dragging it across non-screen surfaces.

TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Stylus not turning on.	Low battery.	Charge the stylus for 60-80 minutes using the provided Micro USB cable.
Stylus not responding on screen.	Stylus is off; Device incompatibility.	Ensure the stylus is powered on (blue light). Verify your device is a capacitive touch screen and not a Microsoft Windows system device.
Inaccurate or lagging response.	Screen protector interference; Low battery.	Ensure screen protector is thin and properly applied. Charge the stylus.
Stylus turns off automatically.	Intelligent energy-saving feature.	This is normal behavior; the stylus turns off after 30 minutes of inactivity. Press the power button to turn it back on.
