4. Setup Instructions

Follow these steps to set up your charging station:

1. **Connect the Power Adapter:** Insert the USB-C end of the provided cable into the charging station's input port. Connect the other end of the cable to the QC3.0 Fast Adapter.
2. **Plug into Power:** Plug the QC3.0 Fast Adapter into a standard wall outlet. The charging station's indicator light may illuminate briefly, indicating it is powered on.
3. **Place Your Devices:**
    - **iPhone:** Place your iPhone vertically or horizontally on the main charging pad. Ensure it is centered for optimal charging.
    - **Apple Watch:** Place your Apple Watch on the dedicated watch charging module. The watch should snap into place magnetically and begin charging.
    - **AirPods:** Place your AirPods case on the flat charging area at the base of the stand.

4. **Verify Charging:** Confirm that your devices display the charging indicator on their screens. The charging station may also have an LED indicator to show active charging.

5. Operating Instructions

The HATALKIN 3 in 1 Wireless Charging Station operates automatically once devices are correctly placed and power is supplied.

Charging Process:

- The station utilizes WPC-1.2.4 wireless charging regulation and an intelligent 4-coil design to match the power requirements of each device.
- Charging begins automatically when a compatible device is placed on its respective charging area.
- The phone charging pad supports both portrait and landscape orientations, allowing for video calls or media viewing while charging.

6. Safety Information

The HATALKIN 3 in 1 Wireless Charging Station is designed with multiple safety features to protect your devices and ensure safe operation. It is certified by CE, FCC, and ROHS.

Built-in Protections:

- **Over-current Protection:** Prevents damage from excessive current.
- **Over-voltage Protection:** Safeguards against voltage surges.
- **Over-temperature Protection:** Monitors and regulates internal temperature to prevent overheating.
- **Short Circuit Protection:** Automatically cuts off power in case of a short circuit.
- **Foreign Substance Examination:** Detects foreign metallic objects on the charging surface to prevent damage and overheating.
- **Valid Identification of Metallism Disturbance Protection:** Ensures proper charging by identifying and mitigating interference from metallic objects.

Important Safety Notes:

- Do not place any metal objects, credit cards, or other foreign materials between the device and the charging pad, as this can interfere with charging and cause overheating.
- Avoid exposing the charging station to water, moisture, or extreme temperatures.
- Do not disassemble or attempt to repair the device yourself. Contact customer support if issues arise.
- While the product has over-temperature protection, it is normal for devices to become slightly warm during wireless charging. If devices become excessively hot, discontinue use and consult the troubleshooting section.

7. Maintenance

To ensure the longevity and optimal performance of your HATALKIN 3 in 1 Wireless Charging Station, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry, lint-free cloth to wipe the surface of the charging station. Do not use abrasive cleaners, solvents, or chemical sprays.
- **Storage:** When not in use for extended periods, store the charging station in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the device with care. Avoid dropping it or subjecting it to strong impacts.

8. Troubleshooting

If you encounter issues with your charging station, please refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Device not charging or charging slowly.	◦ Ensure the charging station is properly connected to the QC3.0 adapter and a working power outlet. ◦ Verify your device is wirelessly charging compatible (refer to Section 3). ◦ Check if the device is correctly aligned on the charging pad. Remove and re-place the device. ◦ Remove any thick phone cases (over 5mm) or cases containing metal, magnets, or pop sockets, as these can interfere with wireless charging. ◦ Ensure no foreign objects (coins, keys, credit cards) are between the device and the charging pad. ◦ Restart your device.
Device or charger feels hot during charging.	◦ Some warmth is normal during wireless charging. ◦ Ensure proper ventilation around the charging station. ◦ Check for foreign objects or misaligned devices. ◦ If overheating is excessive, discontinue use and contact customer support.
LED indicator is not working.	◦ Ensure the power adapter is securely connected and receiving power. ◦ Try a different power outlet.

If the problem persists after trying these solutions, please contact HATALKIN customer support for further assistance.
