

ArtSound ASW550

ArtSound ASW550 Outdoor Speaker User Manual

Model: ASW550 | Brand: ArtSound

INTRODUCTION

Thank you for choosing ArtSound ASW550 Waterproof Design Surface-Mount Speakers. These speakers are engineered to deliver high-quality audio in outdoor environments, making them ideal for patios, gardens, and other exterior spaces. Designed for durability and excellent sound reproduction, the ASW550 speakers feature a robust construction and a rotatable bracket for flexible installation. Please read this manual carefully before installation and use to ensure optimal performance and longevity of your speakers.

SAFETY INFORMATION

Always observe the following safety precautions to prevent damage to the speakers or injury to yourself.

- Ensure all connections are secure and correct before powering on your audio system.
- Do not expose speakers to extreme temperatures or direct sunlight for prolonged periods.
- Avoid placing speakers near heat sources or in areas with poor ventilation.
- Use only recommended wattage amplifiers (40-180W) to prevent speaker damage.
- While the speakers are IP67 waterproof, avoid submerging them in water.
- Keep out of reach of children.
- For cleaning, use a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.

PACKAGE CONTENTS

Verify that all items are present in your package:

- 2 x ArtSound ASW550 Outdoor Speakers
- 2 x Rotatable Mounting Brackets
- Mounting Hardware (screws, washers, etc.)
- User Manual (this document)

SETUP AND INSTALLATION

The ArtSound ASW550 speakers are designed for easy surface mounting. Follow these steps for proper installation.

1. Choosing a Location

Select a suitable location for your speakers. Consider sound dispersion, proximity to power sources (for amplifier), and protection

from extreme weather conditions, even though the speakers are waterproof. Ensure the mounting surface is sturdy enough to support the weight of the speakers (2.23 kg each).

Image: An ArtSound ASW550 speaker installed on an exterior wall, demonstrating a typical outdoor placement. The speaker is black and blends with the brick wall, with flowering wisteria in the foreground.

2. Mounting the Brackets

The speakers come with rotatable mounting brackets for versatile positioning. Use the provided hardware to securely attach the brackets to your chosen surface. Mark the drill holes accurately before drilling.

Image: A pair of ArtSound ASW550 speakers, black in color, displayed with their included rotatable mounting brackets. This image illustrates how the speakers attach to the brackets for installation.

Image: A technical drawing of a single ArtSound ASW550 speaker, indicating its approximate dimensions: 288mm in height and 150mm in width. This helps in planning installation space.

3. Connecting the Speakers

The ASW550 are passive speakers and require an external amplifier. Connect the speaker wires from your amplifier to the binding posts on the back of each speaker. Ensure correct polarity (positive to positive, negative to negative) for optimal sound performance. The speakers have an impedance of 8 Ohms and can handle up to 180 Watts.

Image: The back of the ArtSound ASW550 speaker, clearly showing the red and black binding posts for speaker wire connection. A label with "artsound ASW550 8Ω impedance 40-180W recommended power" is visible.

Image: The back of the ArtSound ASW550 speaker with the protective cover over the speaker terminals, secured by a single screw. This cover helps maintain the speaker's waterproof rating.

After connecting the wires, ensure the terminal cover is securely fastened to maintain the speaker's IP67 waterproof rating.

OPERATING INSTRUCTIONS

Once installed and connected to a suitable amplifier, operating your ArtSound ASW550 speakers is straightforward.

- **Power On:** Turn on your amplifier and audio source.
- **Volume Control:** Adjust the volume using your amplifier's controls. Start with a low volume and gradually increase it to a comfortable listening level.
- **Sound Adjustment:** Use your amplifier's tone controls (bass, treble) or equalizer settings to fine-tune the sound to your preference.
- **Placement Adjustment:** The rotatable brackets allow you to adjust the speaker angle for optimal sound direction. Experiment with different angles to achieve the best audio experience in your listening area.

These speakers are designed for balanced and accurate sound reproduction across various music genres and outdoor settings.

MAINTENANCE AND CARE

To ensure the longevity and continued performance of your ArtSound ASW550 speakers, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the speaker enclosures with a soft, damp cloth to remove dust and dirt. For stubborn grime, a mild soap solution can be used, followed by wiping with a clean, damp cloth and then drying thoroughly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or strong detergents, as these can damage the speaker's finish and components.
- **Inspect Connections:** Periodically check all wiring connections to ensure they remain secure and free from corrosion, especially in outdoor environments.
- **Winter Storage (Optional):** While designed for outdoor use, if you live in an area with extremely harsh winters, consider bringing the speakers indoors or covering them to extend their lifespan.

TROUBLESHOOTING

If you encounter issues with your ArtSound ASW550 speakers, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Sound	Amplifier not powered on. Incorrect wiring. Audio source issue. Volume too low.	Ensure amplifier is on and selected input is correct. Check speaker wire connections for correct polarity and secure fit. Verify audio source is playing and connected properly. Increase volume on amplifier.
Distorted Sound	Volume too high. Amplifier clipping. Damaged speaker wire.	Reduce volume. Ensure amplifier power matches speaker requirements (40-180W). Inspect speaker wires for fraying or damage; replace if necessary.
One Speaker Not Working	Loose connection. Faulty speaker wire. Amplifier channel issue.	Check connections at both speaker and amplifier ends. Swap speaker wires between channels to isolate the problem. Test with another speaker if available to check amplifier channel.

If the problem persists after trying these solutions, please contact ArtSound customer support or your local dealer for assistance.

SPECIFICATIONS

Feature	Detail
Brand	ArtSound
Model Name	ASW550
Part Number	ASW550
Speaker Type	Outdoor, Surface-Mount
Speaker Amplification Type	Passive
Surround Sound Configuration	2.0 (Stereo Pair)
Audio Output Mode	Mono (per speaker)
Maximum Speaker Output Power	180 Watts
Recommended Amplifier Power	40-180 Watts
Impedance	8 Ohm
Is Waterproof	Yes (IP67 rated)
Dust and Moisture Resistant	Yes
Color	Black
Included Components	Rotatable Mounting Bracket
Item Weight	2.23 Kilograms (per speaker)
Product Dimensions (L x W x H)	13.6 x 18.1 x 28.8 cm
Power Source	Corded Electric (via amplifier)
Batteries Included	No
Batteries Required	No
Recommended Product Use	Outdoor
Compatible Devices	Amplifiers, Receivers (for audio playback from smartphone, tablet, laptop, TV, home theater)
First Available Date	April 4, 2022
ASIN	B08K8SPTT2

WARRANTY AND SUPPORT

ArtSound products are manufactured to high quality standards. For information regarding warranty coverage, please refer to the warranty card included with your product or visit the official ArtSound website. For technical support, troubleshooting assistance

beyond this manual, or spare parts, please contact ArtSound customer service or your authorized dealer.
You can find more information and contact details on the [ArtSound Brand Store on Amazon](#).
