## SONGMICS GSA205G02

# SONGMICS Retractable Side Awning Instruction Manual

Model: GSA205G02 (200 x 350 cm, Anthracite)

## 1. INTRODUCTION

Thank you for choosing the SONGMICS Retractable Side Awning. This product is designed to provide privacy and sun protection for your balcony, patio, or garden. Please read this manual carefully before installation and use to ensure safe and correct operation. Keep this manual for future reference.

Image 1.1: The SONGMICS side awning provides privacy and sun protection for outdoor gatherings.

## 2. SAFETY INSTRUCTIONS

- This product is intended for use during sunny or lightly windy days only.
- Immediately retract the awning in strong winds or storms to prevent damage to the product or surrounding property.
- Ensure all mounting hardware is securely fastened before use. Regularly check the stability of the installation.
- Keep children and pets away from the awning during operation to avoid accidents.
- Do not hang heavy objects on the awning or use it as a climbing structure.
- Avoid exposing the fabric to open flames or extreme heat sources.

## 3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Awning Cassette with Fabric
- Receiving Post
- Floor Flange
- Wall Brackets
- Mounting Screws and Anchors
- Handle with Child Lock
- Floor Cover Cap
- Instruction Manual

## 4. SETUP AND INSTALLATION

The SONGMICS side awning offers two primary installation methods for the receiving post: using a floor flange or direct mounting to the floor.

### 4.1. Mounting the Awning Cassette

1. Choose a suitable, stable wall or post for mounting the awning cassette. Ensure the surface can support the weight and tension of the awning.

2. Mark the drilling points for the wall brackets according to the desired height and position.
3. Drill holes and insert appropriate wall anchors.
4. Securely attach the awning cassette to the wall using the provided screws.

## **4.2. Installing the Receiving Post**

### **Option 1: Floor Flange Installation**

1. Determine the desired extension length of the awning (up to 350 cm) and mark the position for the floor flange.
2. Screw the floor flange to your floor.
3. Slide the receiving post into the floor flange. This allows for easy removal of the post when not in use, and the flange can be covered with the provided cap.

### **Option 2: Direct Floor Mounting**

1. For a more permanent installation, the receiving post can be directly bolted to the floor.
2. Mark the drilling points for the receiving post base.
3. Drill holes and secure the receiving post directly to the floor using appropriate screws and anchors.

## 5. OPERATING INSTRUCTIONS

The side awning is designed for easy manual operation.

1. **To Extend the Awning:** Grasp the handle on the leading edge of the awning. Pull the awning horizontally outwards until it reaches the receiving post.
2. **To Secure the Awning:** Once extended, hook the handle onto the designated slot on the receiving post.
3. **Child Lock:** The handle features a child lock mechanism for added safety. To engage, push the lock button on

the handle. To disengage, pull the lock button up.

4. **To Retract the Awning:** Disengage the child lock (if engaged) and unhook the handle from the receiving post. Slowly guide the awning back into its cassette. The internal spring mechanism will retract the fabric smoothly. Do not release the handle abruptly.

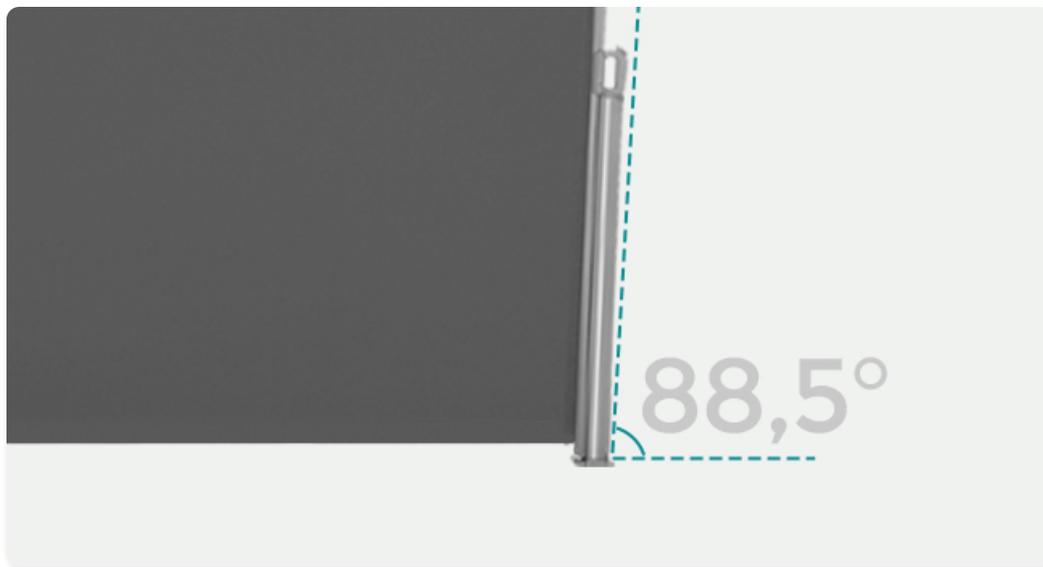

Image 5.2: The awning extends at an optimal angle for stability and coverage.

## 6. MAINTENANCE

---

Proper maintenance will extend the lifespan of your SONGMICS side awning.

- **Fabric Cleaning:** The awning fabric is made of 220 g/m<sup>2</sup> polyester with PVC coating. Clean the fabric with a soft brush or cloth and mild soapy water. Rinse thoroughly with clean water and allow it to air dry completely before retracting. Do not use harsh chemicals or abrasive cleaners.
- **Frame Maintenance:** The steel cassette and posts feature a rust- and corrosion-resistant powder coating. Wipe down metal parts with a damp cloth periodically to remove dirt and debris. Inspect for any signs of rust or damage and address them promptly.
- **Winter Storage:** During winter months or prolonged periods of non-use, it is recommended to retract the awning and, if possible, cover the cassette to protect it from harsh weather conditions.
- **Check Fastenings:** Periodically check all screws and bolts to ensure they remain tight and secure.

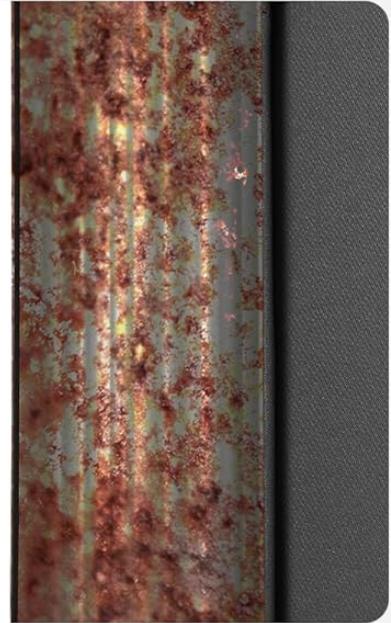

Image 6.1: The awning features a rust-resistant, powder-coated surface for durability.

Image 6.2: The premium 220 g/m<sup>2</sup> fabric ensures durability and opacity.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Awning does not retract smoothly.	Fabric caught or obstructed; spring mechanism issue.	Check for obstructions. Ensure the fabric is clean and dry. If the issue persists, contact customer support.

Problem	Possible Cause	Solution
Awning sags or is not taut.	Improper installation of receiving post; loose fabric tension.	Ensure the receiving post is securely mounted and the awning is fully extended and locked.
Awning cassette is loose on the wall.	Loose mounting screws.	Tighten all mounting screws. If holes are stripped, relocate or use larger anchors.
Child lock not engaging/disengaging.	Mechanism obstructed or damaged.	Check for debris around the lock. Ensure proper alignment. Do not force the mechanism.

## 8. SPECIFICATIONS

- **Model:** GSA205G02
- **Dimensions (Extended):** 200 cm (Height) x 350 cm (Length)
- **Cassette Dimensions:** 8.7 cm (Depth) x 200 cm (Height)
- **Weight:** 10 kg
- **Color:** Anthracite
- **Fabric Material:** 220 g/m<sup>2</sup> Polyester with PVC coating
- **Frame Material:** Powder-coated Steel
- **Operation:** Manual
- **Assembly Required:** Yes
