2. Safety Instructions

- Always use the adjustable lever on chairs carefully to avoid tipping.
- Keep chairs on stable, even surfaces to prevent accidents.
- Inspect all components regularly for any damage or wear, especially after exposure to harsh weather conditions.
- Do not leave children unattended near the chairs or table.
- Ensure the umbrella is securely placed in the table's umbrella hole and closed during strong winds or severe weather.
- Do not exceed the maximum weight capacity of 225 lbs per chair.

3. Package Contents

Verify that all components are present before beginning assembly.

5.2. Patio Umbrella

To open the umbrella, rotate the built-in crank handle clockwise until the canopy is fully extended. To close, rotate the crank counter-clockwise. The umbrella also features an auto-tilt function for multi-angle adjustment throughout the day. This is typically engaged by continuing to crank the handle after the umbrella is fully open, or by a separate button/lever on the pole.

6. Maintenance

6.1. Cleaning

Wipe all surfaces with a dry cloth. For deeper cleaning, use a mild soap and water solution with a soft cloth. Rinse thoroughly and allow to air dry completely. Avoid harsh chemicals or abrasive cleaners that may damage the finish or fabric.

6.2. Storage

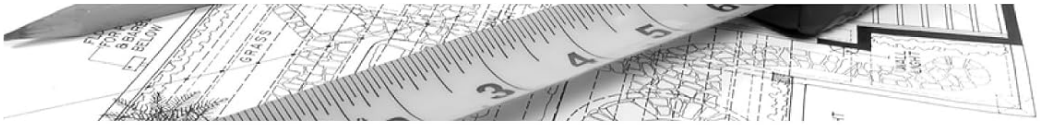

During off-seasons or periods of non-use, it is recommended to store the chairs and umbrella indoors or cover them with protective outdoor furniture covers to prolong their lifespan. The chairs can be folded for compact storage.

7. Troubleshooting

- **Chairs not locking in position:** Ensure the chair is fully unfolded and the backrest mechanism is properly engaged in one of the 7 notches.
- **Umbrella not opening/closing smoothly:** Check for any obstructions in the crank mechanism or along the pole. Apply a silicone-based lubricant if necessary.
- **Wobbling table/chairs:** Verify that all assembly bolts (for the table) are securely tightened. Ensure the furniture is on a flat, even surface.
