

NPET AF020

NPET Automatic Pet Feeder Instruction Manual

MODEL: AF020

1. Introduction

Thank you for choosing the NPET Automatic Pet Feeder. This 6-liter capacity feeder is designed to provide convenient and consistent meal delivery for your cats and dogs, ensuring they receive their dry food on schedule. With programmable meal times and portion control, it simplifies pet care and promotes healthy eating habits.

This manual provides detailed instructions for setting up, operating, and maintaining your new pet feeder. Please read it thoroughly before first use to ensure proper function and longevity of the device.

2. Product Overview & Components

Familiarize yourself with the main parts of your NPET Automatic Pet Feeder:

- Food Hopper (6L capacity)
- Control Panel with LCD Display
- Food Dispenser Outlet
- Removable Food Bowl
- Power Adapter Port
- Battery Compartment (for 3 D-size batteries, not included)
- Desiccant Bag Holder (inside lid)

3. Setup

3.1 Power Supply

The feeder supports dual power supply for reliability:

- **AC Adapter:** Plug the included power adapter into the feeder's power port and then into a standard wall outlet.
- **Battery Backup:** For power outages or portability, install 3 D-size batteries (not included) into the battery compartment at the bottom of the unit. The feeder will automatically switch to battery power if AC power is lost.

3.2 Filling the Food Hopper

Open the press-lock lid on top of the feeder. Pour dry pet food into the hopper. Ensure food pellet size is between 0.2-0.6 inches (5-15mm) to prevent jamming. Close the lid securely to maintain food freshness.

4. Operating Instructions

The feeder features a straightforward control panel for easy programming.

Straightforward Control Panel

Very easy to set up, designed for parents

Image: Detailed diagram of the control panel, showing buttons for time setting, meal setting, and fault indicator.

4.1 Setting Current Time

1. Press the 'Time Setting' button (usually indicated by a clock icon).
2. Use the '+' and '-' buttons to adjust the hour and minute.
3. Press 'OK' to confirm.

4.2 Programming Meal Times & Portions

You can program up to 4 meals per day, with up to 9 portions per meal.

1. Press the 'Meal Setting' button (usually indicated by a food bowl icon).

2. Select the meal number (1-4) you wish to program.
3. Set the desired feeding time using '+' and '-' buttons, then 'OK'.
4. Set the desired portion size (1-9) using '+' and '-' buttons, then 'OK'. Each portion is approximately 10g.
5. Repeat for other meals as needed.

4.3 Voice Recording

Record a personalized message (up to 10 seconds) to call your pet to meals:

1. Press and hold the 'Record' button (often indicated by a microphone icon).
2. Speak your message clearly into the microphone.
3. Release the button when finished. The recording will play automatically at each scheduled meal time.

4.4 Manual Feeding

To dispense food instantly, press and hold the 'Manual Feed' button (often indicated by a paw print or food drop icon). Food will dispense as long as the button is held down.

5. Maintenance

5.1 Cleaning

Regular cleaning ensures hygiene and proper operation:

- **Food Bowl:** The food bowl is removable for easy cleaning. Wash with mild soap and water, then rinse thoroughly and dry completely before reattaching.
- **Food Hopper & Dispenser:** Wipe the inside of the food hopper and the dispenser mechanism with a damp cloth. Ensure all parts are dry before refilling with food. Do not immerse the main unit in water.
- **Exterior:** Wipe the exterior with a soft, dry cloth.

5.2 Desiccant Bag

The desiccant bag helps keep the dry food fresh. Replace it periodically (e.g., every 1-2 months) to maintain effectiveness. The desiccant bag holder is located inside the lid.

6. Troubleshooting

• Feeder Not Dispensing Food:

- Check if the food hopper is empty.
- Ensure food pellet size is within the recommended range (0.2-0.6 inches). Larger pellets may cause jamming.
- Verify that the dispenser mechanism is not blocked by debris or stuck food.
- Check power supply (AC adapter connected, batteries installed and charged).

• Incorrect Meal Times/Portions:

- Re-program the meal times and portion sizes following the instructions in Section 4.2.
- Ensure the current time is set correctly (Section 4.1).

• No Voice Recording Playback:

- Ensure the recording was successfully saved (refer to Section 4.3).
- Check if the speaker is obstructed.

• Fault Indicator Light On:

- Consult the control panel diagram (Section 4) to identify the specific fault indicated. This usually points to a food blockage or mechanical issue.

If issues persist, please contact NPET customer support.

7. Specifications

Feature	Detail
---------	--------

Model Name	AF020
Capacity	6 Liters
Dimensions (LxWxH)	33.98 x 19.02 x 4.02 inches
