## Amazon Echo Show 5 (2nd Gen, 2021 release)

# Amazon Echo Show 5 (2nd Gen, 2021 Release) User Manual

Model: Echo Show 5 (2nd Gen, 2021 release) | Brand: Amazon

## INTRODUCTION

The Amazon Echo Show 5 (2nd Gen, 2021 release) is a smart display designed to simplify your daily routines and enhance your connected home experience. This certified refurbished device has been tested and certified to function like new, offering all the features of a new unit.

With Alexa built-in, you can manage your day, stay entertained, and connect with others using just your voice. The compact 5.5-inch screen provides visual feedback for alarms, timers, news, video calls, and more.

# All-new echo show 5

Add Alexa to your nightstand

Image: The Echo Show 5 on a nightstand, illustrating its use as a smart display for time and daily information.

## SETUP

Setting up your Echo Show 5 is a straightforward process. The device is designed for simple setup, allowing you to connect to your Wi-Fi network with ease.

### What's in the Box:

- Echo Show 5 device
- Glacier White power adapter (15W) with cable (4.9 ft.)
- Quick start guide

### Initial Setup Steps:

1. **Plug In:** Connect the power adapter to your Echo Show 5 and plug it into a wall outlet.
2. **Follow On-Screen Instructions:** The device will power on and guide you through the initial setup process on its

touch screen.

3. **Connect to Wi-Fi:** Select your Wi-Fi network from the list and enter the password. The Echo Show 5 supports dual-band 802.11a/b/g/n/ac Wi-Fi networks.
4. **Sign In to Amazon Account:** Log in with your Amazon account credentials.
5. **Personalize Settings:** Customize settings such as time zone, device name, and privacy preferences.
6. **Download Alexa App:** For full functionality and advanced controls, download the Alexa app on your Fire OS, Android, or iOS device. The app is also accessible via a web browser.

Amazon's Wi-Fi simple setup technology helps streamline the connection process, making it easier to get your device up and running quickly.

## OPERATING YOUR ECHO SHOW 5

The Echo Show 5 offers a wide range of functionalities, primarily controlled by voice commands to Alexa and through its interactive touch screen.

### Daily Assistance:

- **Alarms & Timers:** Set alarms and timers with voice commands.
- **Calendar & News:** Check your calendar, get news updates, and view weather forecasts.
- **Routines:** Create routines to automate actions, such as gradually turning on compatible lights in the morning.

### Smart Home Control:

Manage compatible smart home devices using the interactive display, your voice, or motion detection.

- **Built-in Camera:** Use the 2 MP camera to look in on your home when you're away.
- **Device Control:** Control lights, cameras, and other smart devices.

## Control compatible smart home devices with your motion

*Image: A man carrying a laundry basket, with an Echo Show 5 in the foreground, demonstrating how the device can be used to control smart home devices, possibly through motion detection.*

### Communication:

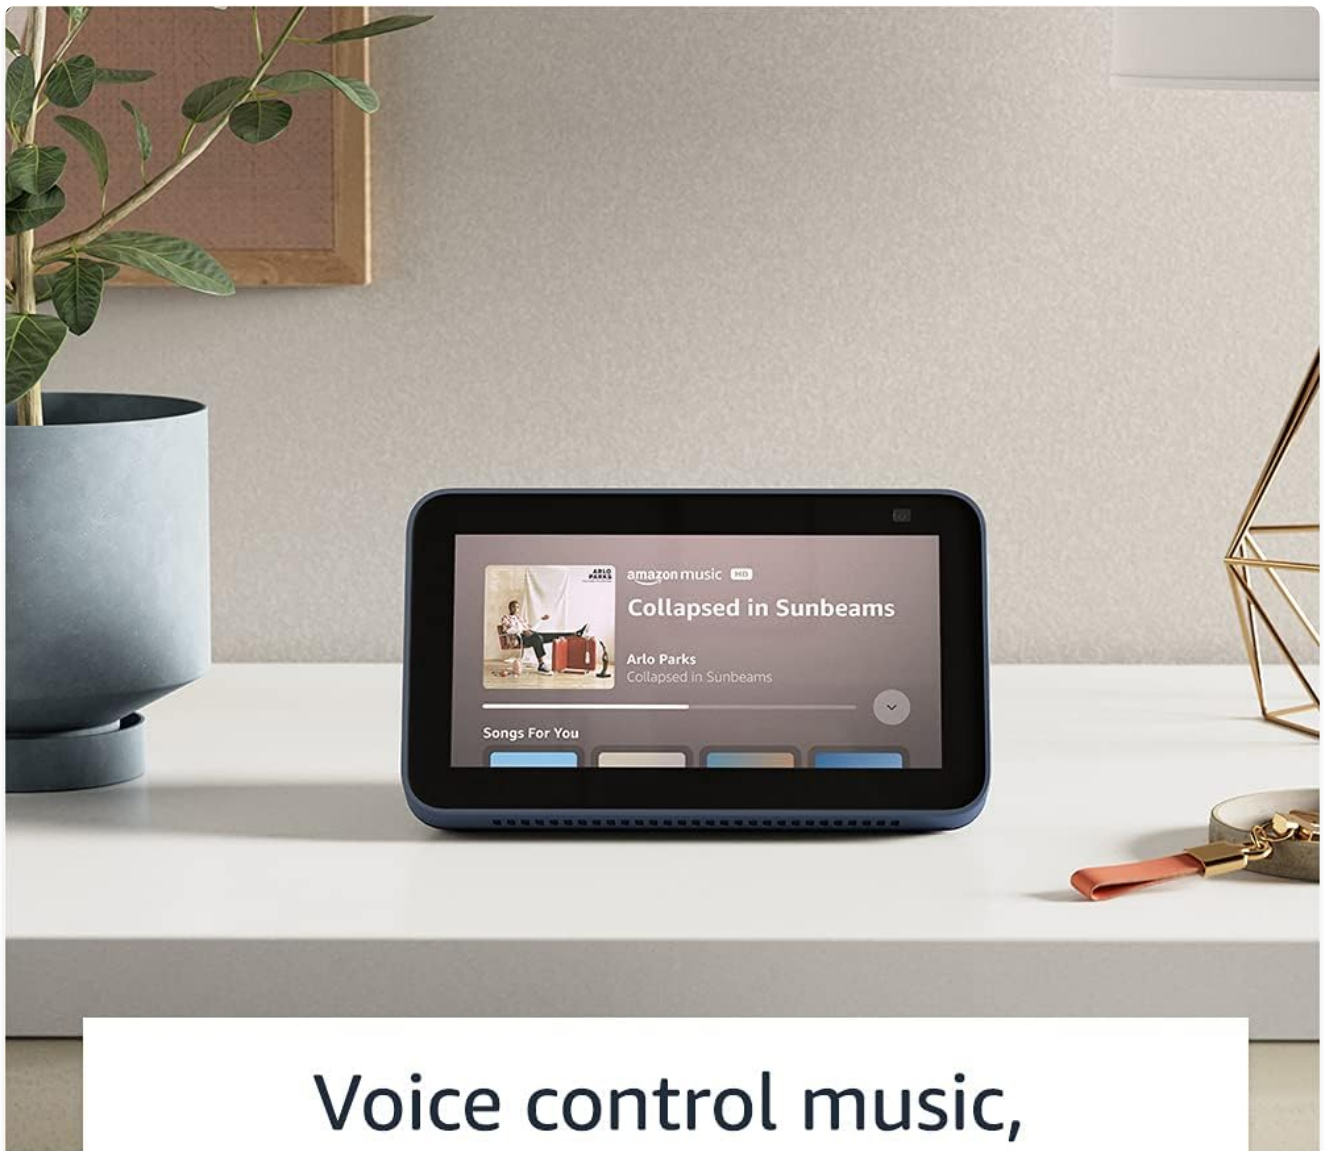

- **Video Calling:** Make video calls to friends and family who have the Alexa app or an Echo device with a screen using the 2 MP camera.
- **Announcements:** Send announcements to other compatible devices in your home.

*Image: The Echo Show 5 displaying an active video call, highlighting its communication capabilities.*

### Entertainment:

- **Streaming:** Play TV shows and movies from services like Prime Video and Netflix on the 5.5-inch screen.
- **Music & Audio:** Stream music from Amazon Music, Apple Music, Spotify, and others.

## Voice control music, news, and more

*Image: The Echo Show 5 displaying a music playback screen, demonstrating its entertainment features.*

### Personalization:

- **Digital Photo Frame:** Use Amazon Photos to turn your home screen into a digital photo frame.

Stand sold separately

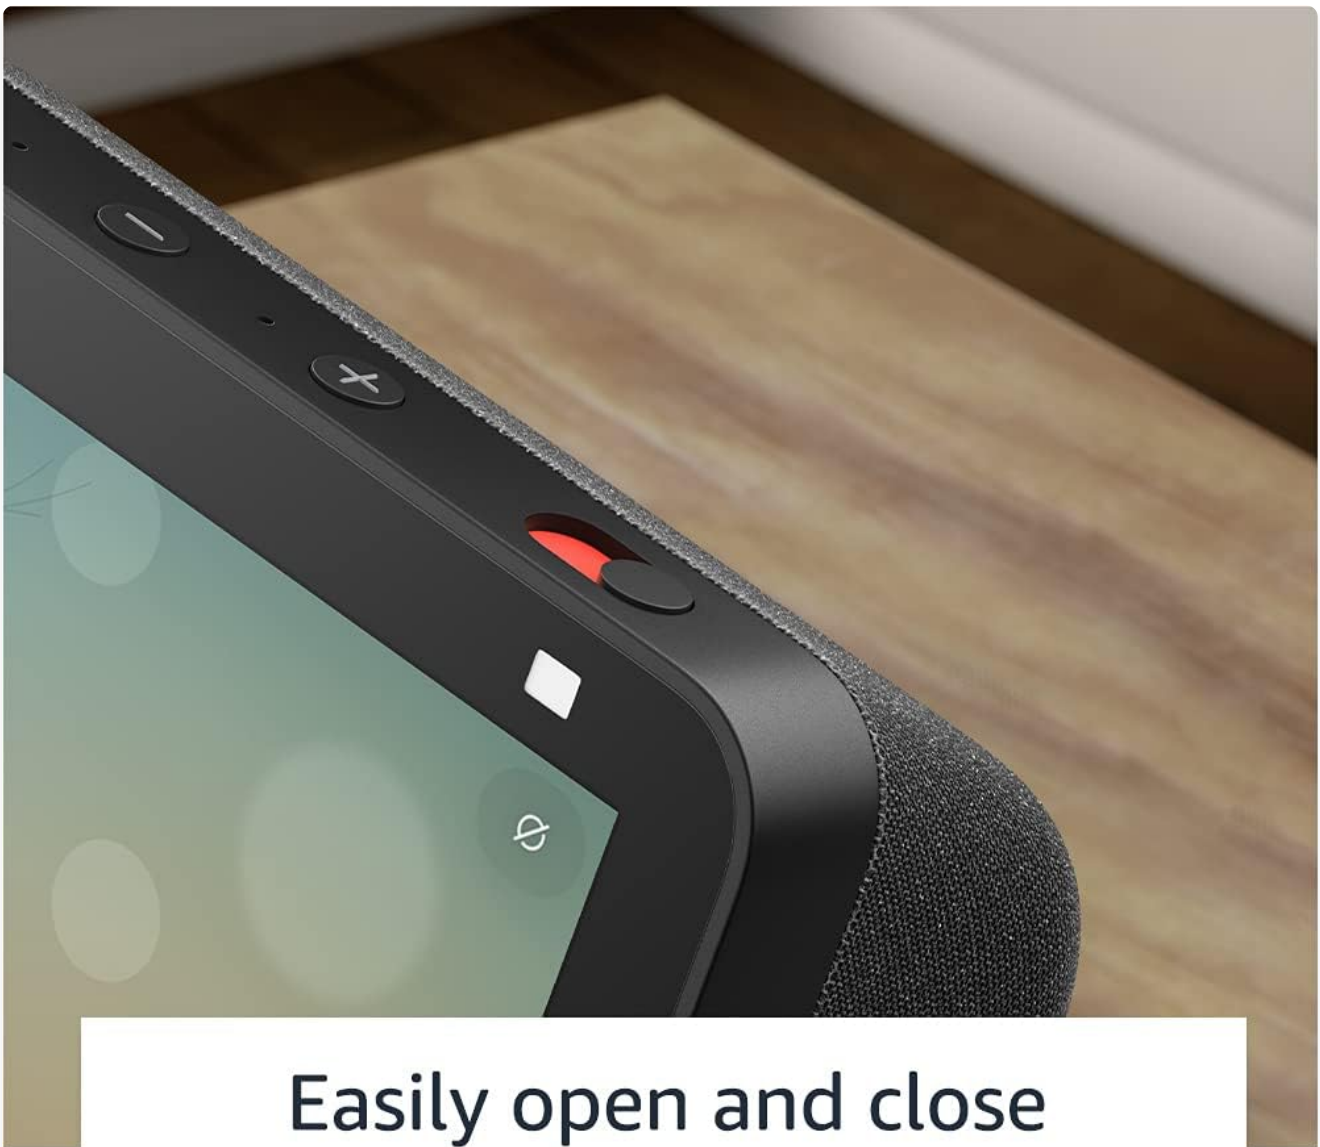

## Put photos on (smart) display

*Image: The Echo Show 5 displaying a personal photo, illustrating its use as a digital photo frame.*

### Privacy Features:

The Echo Show 5 is designed with multiple layers of privacy controls:

- **Mic/Camera Off Button:** A physical button to electronically disconnect the microphones and camera.
- **Built-in Camera Shutter:** A physical shutter to cover the camera lens.
- **Voice Recording Controls:** Ability to view and delete your voice recordings.
- **Wake Word Technology:** The device only begins listening after detecting your chosen wake word.
- **Streaming Indicators:** Visual indicators show when audio or video is being streamed to the cloud.

## Easily open and close the camera shutter

*Image: A close-up view of the Echo Show 5's top, highlighting the physical camera shutter button for privacy control.*

### Accessibility Features:

The Echo Show 5 includes various accessibility features to personalize Alexa to your abilities. These can be accessed via **Settings → Accessibility** on your device.

- **Tap to Alexa:** Interact with Alexa via touch through on-screen tiles or a keyboard.
- **Adaptive Listening:** Provides more time to finish speaking before Alexa responds.
- **Preferred Speaking Rate:** Control how fast or slow Alexa speaks.
- **Captioning:** Alexa Captioning, Call Captioning, and Closed Captioning provide text for supported content.
- **Show and Tell:** Helps identify products for users who are blind or visually impaired.
- **VoiceView Screen Reader:** Enables access for blind or visually impaired users.
- **Screen Magnifier:** Zoom in/out and pan around the screen.
- **Notify When Nearby:** Plays notification sounds when detected near the device.
- **Kindle Read Aloud:** Alexa can read your Kindle books aloud.
- **Real Time Text:** Type live text during a video call.
- Additional settings for Color Inversion, Color Correction, Request Sound, and more.

## MAINTENANCE

The Certified Refurbished Echo Show 5 has undergone rigorous testing and certification to ensure it looks and works like new. Regular maintenance is minimal.

- **Cleaning:** Gently wipe the screen and device exterior with a soft, lint-free cloth. Avoid abrasive cleaners or sprays.
- **Software Updates:** Ensure your device is connected to Wi-Fi to receive automatic software security updates, which are guaranteed for at least four years after the device is last available for purchase as a new unit.

## TROUBLESHOOTING

If you encounter issues with your Echo Show 5, consider the following general troubleshooting steps:

- **Power Cycle:** Unplug the device from the power outlet, wait for 30 seconds, and then plug it back in.
- **Check Wi-Fi Connection:** Ensure your Wi-Fi network is active and the device is connected. You can check network status in the device settings.
- **Verify Internet Connectivity:** Confirm your internet service is working by testing other devices on the same network.
- **Check Microphone/Camera:** Ensure the mic/camera off button is not activated and the camera shutter is open if you are trying to use these features.
- **Alexa App:** Use the Alexa app on your smartphone or tablet to manage device settings, check for updates, and access further support resources.
- **Voice Commands:** Speak clearly and ensure you are within range of the device's microphones.

For more detailed troubleshooting or specific issues, refer to the help section within the Alexa app or visit the official Amazon support website.

## SPECIFICATIONS

Feature	Detail
Size	5.8" x 3.4" x 2.9" (148mm x 86mm x 73mm)
Weight	14.5 oz (410 grams)
Display	5.5" touch screen
Camera	2 MP camera with built-in shutter
WiFi Connectivity	Dual-band wifi (802.11a/b/g/n/ac). Does not support ad-hoc networks.
Bluetooth Connectivity	A2DP support for audio streaming; AVRCP for voice control of connected mobile devices. PIN-code speakers not supported.

Feature	Detail
Audio	Full range 1.65" built-in speaker
Processor	MediaTek MT 8163
Generation	Echo Show 5 (2nd Gen) - 2021 release
Language	Alexa speaks English and Spanish

## WARRANTY AND SUPPORT

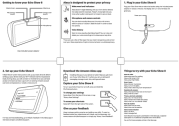

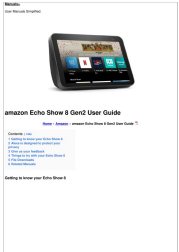

Your Certified Refurbished Echo Show 5 comes with the same limited warranty as a new device. For specific details regarding your warranty, please refer to the documentation included with your device or visit the official Amazon website for Certified Refurbished Amazon devices.

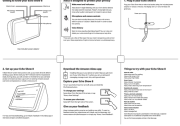

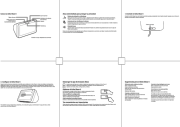

For customer support, troubleshooting, and to manage your device settings, utilize the Alexa app on your compatible smartphone or tablet. You can also find extensive support resources and FAQs on the Amazon support website.

**Software Security Updates:** This device receives guaranteed software security updates until at least four years after the device is last available for purchase as a new unit on Amazon's websites.

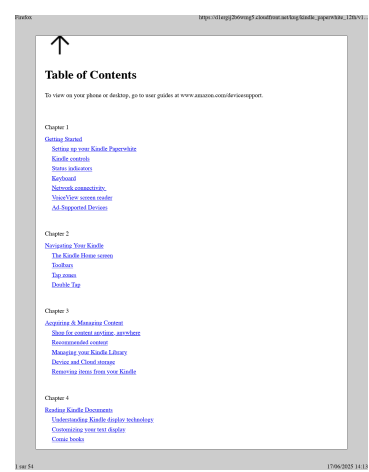

© 2025 Amazon. All rights reserved. Echo Show 5 is a trademark of Amazon.com, Inc. or its affiliates.

FAQ - Matter Standard Protocol Support

1. What is the purpose of MixPad D1 supporting Matter?

With MixPad D1 supporting the Matter protocol, users can simultaneously use the ORVIBO Home app and other third-party platforms or apps (such as Apple Home, SmartThings, Google Assistant, Amazon Alexa, TuYa Smart, etc.) that support Matter to add and control devices, enabling cross-ecosystem inter connectivity.

2. Can MixPad D1 be updated via OTA to support Matter?

Yes, it supports OTA updates to enable Matter support.

3. When using the ORVIBO Home app or other Matter-supported apps to add the MixPad D1 dimmer switch, are there any differences in app functionality?

- 1) The ORVIBO Home app offers more comprehensive functionality, including features such as scheduling, countdown timers, mode control, and device management.
- 2) Other Matter-supported apps can only control the lights connected to the MixPad D1 dimmer switch.

4. How to add MixPad D1 to Apple Home, Google Home, and Amazon Alexa?

- 1) Make sure that your router supports and has IPv6 network enabled.
- 2) Add a HomePod, Google Assistant, or Alexa that supports the Matter protocol to your account.

ORVIBO MixPad D1 FAQ: Matter Protocol Support and Smart Home Integration

Frequently Asked Questions (FAQ) about the ORVIBO MixPad D1 dimmer switch, covering its integration with the Matter standard protocol, compatibility with smart home platforms like Apple Home, Google Home, and Amazon Alexa, and troubleshooting steps.

lang:en score:20 filesize: 226.36 K page\_count: 5 document date: 2023-06-02

Matter Related FAQ

What is Matter?

Matter is a new communication protocol that enables different smart devices to work together seamlessly, regardless of their brands or manufacturers. Think of it like a common language that every device can speak, making it easier for them to share information and work together to automate tasks.

For example, if you have a Govee smart light and a HomePod from Apple, they can communicate using the Matter protocol to control your Govee product in your home when you give a voice command. This makes it easy to control all your smart devices from a single app or interface without compatibility issues.

Matter is a crucial development in the world of smart homes because it simplifies the process of setting up and managing different devices and makes it easier for users to choose the products they want without worrying about whether they'll work together or not.

What new experiences does Matter bring to users?

Matter is a new technology that helps different smart devices in your home work together easier. Some benefits of Matter include:

- Connecting Govee Matter-enabled products with different ecosystems and manufacturers. With Matter, you can connect Govee Matter-enabled products from different manufacturers, so you're not limited to just one ecosystem. This means you have more options to choose from when building your smart home. For example, you can turn on the Govee M1 (2-in) Strip Light through Apple Home and turn off the Govee M1 (2-in) Strip Light through Alexa.

- Controlling all your devices with one app. Matter-enabled devices can be controlled using a single app or interface, making it more convenient to manage everything in one place.

- Easy to set up and manage. Because Matter uses a common language that all devices can speak, it's easier to set up and manage different devices. You won't have to worry about compatibility issues or using multiple apps to control your devices. The configuration is finished using any Matter-enabled application and scanning the provided QR code.

- More secure and faster. Matter includes advanced security features to protect your smart devices from other threats, so you can feel more secure using them. With Matter, all devices don't need to be connected to the Internet. All you need is a Matter hub. This means the interaction with your smart home devices will be faster, and the devices will continue to work when the Internet is down.

What features are available through Matter? Will more features be available later?

- Currently supported features include switching on/off, brightness adjustment, color temperature adjustment, and color changing.
