2. RGB Rainbow Backlighting

The keyboard features dynamic RGB rainbow backlighting with multiple modes. You can cycle through these modes and adjust brightness using the multifunction wheel or dedicated keys.

- **Pulse Mode:** Lights illuminate upon key press.
- **Breathing Mode:** Lights fade in and out.
- **Rainbow (Fixed) Mode:** Static rainbow color display.
- **Tempo Mode:** Dynamic color flow.

3. Multifunction Wheel and Dedicated Keys

The keyboard features a 2-in-1 multifunction wheel and three dedicated access keys for convenient control:

- **Multifunction Wheel:** Controls audio volume and backlight brightness. Rotate to adjust, press to mute/toggle.
- **Dedicated Access Keys:** Provide quick access to common functions (e.g., media playback controls).

5. WinLock Function

The WinLock function allows you to disable the Windows key during gameplay. This prevents accidental presses of the Windows key, which could minimize your game and interrupt your experience.

MAINTENANCE

To ensure the longevity and optimal performance of your keyboard, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the keyboard surface. For deeper cleaning, use a can of compressed air to remove dust and debris from between the keys. Avoid using harsh chemicals or abrasive materials.
- **Keycap Removal:** Use the provided key puller to carefully remove keycaps for cleaning or replacement. Do not force keycaps off without the proper tool.
- **Liquid Spills:** In case of a liquid spill, immediately disconnect the keyboard from your device. Turn it upside down to drain any liquid and allow it to dry completely before reconnecting.

TROUBLESHOOTING

If you encounter issues with your Spirit Of Gamer Pro K7 keyboard, refer to the following common solutions:

- **Keyboard Not Responding:** Ensure the USB cable is securely connected to both the keyboard and your device. Try connecting to a different USB port.
- **Backlighting Not Working/Incorrect:** Check the keyboard's lighting controls (multifunction wheel or dedicated keys) to ensure the backlight is enabled and set to your desired mode. If using the software, verify settings there.
- **Specific Keys Not Working:** Clean the affected keys and surrounding areas. If the issue persists, and you have installed the software, check for any custom key assignments that might be interfering.
- **Software Issues:** Ensure your operating system is up to date. Reinstall the keyboard software if necessary.
- **Compatibility:** Verify that your device (PC, PS4, Xbox One) is running the latest system software or drivers.
