Blueair 113612

Blueair PetAir Pro P3i Summer Weave Accessory (Model 113612) Instruction Manual

Your guide to installation, use, and care.

1. INTRODUCTION

Thank you for choosing the Blueair PetAir Pro P3i Summer Weave Accessory. This accessory is designed to enhance your pet's comfort and well-being when used with the Blueair PetAir Pro P3i air purifier. It serves as both a durable scratch pad and a breathable resting surface, made from natural sisal fibers.

This manual provides essential information for the proper setup, operation, and maintenance of your Summer Weave Accessory. Please read it thoroughly before use and retain it for future reference.

2. PRODUCT OVERVIEW

The Summer Weave Accessory is crafted from 100% natural sisal, offering a textured surface that is both appealing to pets for scratching and comfortable for resting. Its durable fibers are designed to withstand regular use.

Key Features:

- **Natural Sisal Surface:** Provides a safe and satisfying texture for pets to sharpen their claws.
- **Breathable Design:** Functions as a cool, breathable bed, especially suitable for warmer climates.
- **Durable Construction:** Engineered with robust fibers for long-lasting performance against scratching.
- **Compatible with PetAir Pro P3i:** Specifically designed to fit the Blueair PetAir Pro P3i air purifier.

This image highlights the variety of options available to suit different pet preferences and seasons, with the Summer Weave being the focus of this manual.

3. SETUP

The Summer Weave Accessory is designed for simple placement on your Blueair PetAir Pro P3i air purifier. No tools or complex assembly are required.

Installation Steps:

1. Ensure your Blueair PetAir Pro P3i air purifier is placed on a stable, level surface.
2. Carefully unpackage the Summer Weave Accessory.
3. Align the accessory with the top surface of your PetAir Pro P3i air purifier. The accessory is designed to fit snugly on the designated area.
4. Gently place the accessory onto the air purifier, ensuring it sits flat and securely.

Image 3.1: The Blueair PetAir Pro P3i air purifier with the Summer Weave Accessory installed, positioned in a room setting. This image demonstrates the accessory's integrated appearance with the air purifier.

4. OPERATING

The Summer Weave Accessory offers two primary functions for your pet:

As a Scratch Pad:

The natural sisal surface provides an ideal texture for your pet to satisfy their natural scratching instincts. This can help protect furniture and other household items from damage. Encourage your pet to use the accessory by placing them on it or by gently guiding their paws.

As a Breathable Pet Bed:

The woven structure of the sisal allows for air circulation, making it a comfortable and breathable resting spot for your pet, particularly during warmer periods. Its elevated position on the air purifier may also appeal to pets who enjoy higher vantage points.

Image 4.1: A cat comfortably resting on the Summer Weave Accessory, which is placed on top of the Blueair PetAir Pro P3i air purifier. This image highlights the accessory's function as a comfortable pet bed.

Image 4.2: A person gently grooming a cat that is lying on the Summer Weave Accessory. This demonstrates how the accessory can provide a stable and comfortable surface for pet care activities.

Image 4.3: A cat peacefully sleeping on the Summer Weave Accessory, which is situated on the Blueair PetAir Pro P3i air purifier, next to a person reading in bed. This illustrates the accessory's role as a cozy and integrated resting spot for pets within a home environment.

5. MAINTENANCE

To ensure the longevity and hygiene of your Summer Weave Accessory, follow these maintenance guidelines:

- **Regular Cleaning:** Periodically shake off any loose fur or debris from the sisal surface.
- **Spot Cleaning:** For minor stains, gently wipe the affected area with a damp cloth and mild soap. Avoid saturating the sisal.
- **Drying:** Allow the accessory to air dry completely in a well-ventilated area before placing it back on the air purifier. Do not use heat to dry.
- **Avoid Harsh Chemicals:** Do not use strong detergents, bleach, or abrasive cleaners, as these can damage the natural sisal fibers.
- **Inspection:** Regularly inspect the accessory for any signs of wear or damage. If significant damage occurs, consider replacing the accessory to maintain its effectiveness and safety.

6. TROUBLESHOOTING

The Summer Weave Accessory is a passive component and typically does not require troubleshooting. If you encounter any issues related to its physical integrity or fit, please consider the following:

- **Improper Fit:** Ensure the accessory is correctly aligned and seated on the Blueair PetAir Pro P3i. Verify that you have the correct accessory model (113612) for your air purifier.
- **Excessive Wear:** Over time, natural sisal may show signs of wear from scratching. If the accessory becomes excessively frayed or damaged, it may be time for a replacement.

For further assistance, please refer to the Warranty and Support section.
