OPERATING INSTRUCTIONS

Using your Bedz King bunk bed and its storage features is straightforward. Always prioritize safety when using the bed.

Using the Stairway:

- Always use the stairway to access or exit the top bunk. Do not jump on or off the top bunk.
- Ensure children are supervised when using the stairway, especially those new to bunk beds.

Using the Drawers:

- The four drawers integrated into the stairway steps are designed for easy access and storage of clothing, toys, or other items.
- The two under-bed drawers roll out smoothly for additional storage. Ensure they are pushed completely under the bed when not in use to prevent tripping hazards.
- Avoid overloading drawers to ensure smooth operation and prevent damage.

MAINTENANCE

Proper care will extend the life and appearance of your Bedz King bunk bed.

- **Cleaning:** Wipe the bed frame and drawers with a damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.

- **Regular Checks:** Periodically check all bolts, screws, and fasteners to ensure they are tight. Re-tighten as necessary to maintain structural integrity and safety.
- **Wood Care:** As the bed is made of pine, avoid placing it in direct sunlight or near heat sources to prevent warping or cracking.

TROUBLESHOOTING

If you encounter any issues with your bunk bed, refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose fasteners. Re-tighten all bolts and screws on the bed frame and slats.
- **Drawers Sticking:** Check for any obstructions in the drawer glides or tracks. Ensure the drawers are properly aligned and not overloaded.
- **Wobbly Frame:** A wobbly frame is typically due to loose connections. Systematically check and tighten all assembly hardware.
