Bestway 56438

Bestway 56438 Framed Pool User Manual

Model: 56438 | Brand: Bestway

INTRODUCTION

Thank you for choosing the Bestway 56438 Framed Pool. This manual provides essential information for the safe assembly, operation, and maintenance of your new pool. Please read all instructions carefully before setting up and using the pool. Keep this manual for future reference.

SAFETY INFORMATION

WARNING: Failure to follow these instructions can result in serious injury or death.

- Adult supervision is required at all times when children are in or near the pool.
- Do not dive or jump into the pool. Shallow water can cause serious injury.
- Keep children away from the pool cover to prevent entanglement and drowning.
- Ensure the pool is set up on a level, stable surface to prevent collapse.
- Regularly inspect all components for damage and wear. Replace damaged parts immediately.
- Maintain proper water chemistry to ensure a safe and healthy swimming environment.
- Always use the safety ladder provided for entry and exit.

PACKAGE CONTENTS

Verify that all components listed below are present in your package:

- Framed Pool Liner
- Metal Frame Components (Poles, Connectors)
- Filter Pump (220-240V)
- Safety Ladder
- Pool Cover
- Compatible Cartridge 58012(III)
- Repair Patch Kit (may be included)
- Instruction Manual (this document)

Image: A grey safety ladder with four steps on each side, designed for easy and safe entry and exit from the pool.

Image: A grey cylindrical filter pump with two hose connections, used for circulating and filtering pool water.

Image: A white pleated filter cartridge with blue end caps, compatible with the filter pump to trap debris.

SETUP INSTRUCTIONS

Follow these steps for proper assembly of your Bestway Framed Pool:

1. **Site Selection:** Choose a firm, level surface free of sharp objects, debris, and overhead power lines. The area should be large enough to accommodate the pool and allow for safe access.
2. **Ground Preparation:** Clear the chosen area. A ground cloth (not included) is recommended to protect the pool liner.
3. **Unpack Components:** Carefully remove all parts from the packaging. Lay out the liner and frame components according to the instructions in the separate assembly guide (if provided).
4. **Assemble Frame:** Connect the metal poles and connectors as per the diagram. Ensure all connections are secure and click into place.
5. **Attach Liner:** Carefully spread out the pool liner and attach it to the assembled frame. Ensure the liner is centered and smooth, with no wrinkles on the bottom.
6. **Install Filter Pump:** Connect the filter pump to the designated inlet and outlet ports on the pool liner using the provided hoses and clamps. Ensure all connections are tight to prevent leaks.
7. **Assemble Ladder:** Follow the separate instructions for assembling the safety ladder. Place the ladder securely against the pool.
8. **Fill Pool:** Begin filling the pool with water. As the water level rises, smooth out any remaining wrinkles in the liner. Stop filling when the water reaches the recommended fill line.
9. **Initial Filter Operation:** Once filled, turn on the filter pump to begin circulating and filtering the water.

OPERATING THE POOL

To ensure optimal performance and safety:

- **Water Chemistry:** Regularly test and adjust pool water chemistry (pH, chlorine, alkalinity) using a pool test kit. Maintain recommended levels for safe and clean water.
- **Filter Pump Operation:** Operate the filter pump for several hours each day to ensure proper water circulation and filtration. Refer to the filter pump manual for specific run times.
- **Pool Cover Usage:** Use the provided pool cover when the pool is not in use to prevent debris from entering and to reduce water evaporation.

Image: The Bestway Framed Pool covered with a black protective cover, designed to keep debris out and reduce water evaporation.

- **Ladder Safety:** Always use the safety ladder for entering and exiting the pool. Ensure it is stable before use.

MAINTENANCE

Regular maintenance is crucial for the longevity and cleanliness of your pool:

- **Filter Cartridge Cleaning/Replacement:** Clean the filter cartridge regularly (e.g., weekly) by rinsing it with a garden hose. Replace the cartridge every 2-4 weeks, or more frequently depending on usage and water quality.
- **Skimming:** Use a pool skimmer net to remove leaves, insects, and other debris from the water surface daily.
- **Vacuuming:** Periodically vacuum the pool bottom to remove settled dirt and debris.
- **Liner Inspection:** Inspect the pool liner for any tears, punctures, or leaks. Use the included repair patch kit for minor damages.
- **Frame Inspection:** Check the metal frame components for rust, corrosion, or damage. Ensure all connections remain secure.
- **Winterization:** Before freezing temperatures, properly drain, clean, and disassemble the pool for storage. Store all components in a dry, protected area.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Water is cloudy/dirty	Insufficient filtration, dirty filter cartridge, improper water chemistry.	Run filter pump longer, clean/replace filter cartridge, test and adjust water chemistry.
Pool is leaking	Puncture in liner, loose hose connection.	Locate and patch hole with repair kit, tighten hose clamps.
Filter pump not working	No power, clogged impeller, air in system.	Check power supply, clean impeller, bleed air from pump.
Pool frame unstable	Uneven ground, loose connections.	Ensure pool is on a level surface, check and secure all frame connections.

SPECIFICATIONS

Feature	Detail
Model Number	56438 (Also known as 56088 in some regions)
Dimensions	457 cm x 122 cm (144.09 x 144.09 x 29.92 inches)
Shape	Round
Material	Metal Frame, Durable PVC Liner
Included Components	Pool, Filter Pump (220-240V), Safety Ladder, Cover, Compatible with Cartridge 58012(III)
Assembly Required	Yes

WARRANTY AND SUPPORT

Bestway products are manufactured to high-quality standards and undergo rigorous testing. While specific warranty details may vary by region and retailer, Bestway typically offers a limited warranty against manufacturing defects. Please retain your proof of purchase for warranty claims.
