2. PACKAGE CONTENTS

Please ensure all items are present in your package:

- iWALK 3-in-1 Portable Charger (Model: DBL9000W)

- Integrated Lightning Cable
- User Manual (this document)

3. PRODUCT OVERVIEW

Familiarize yourself with the components of your iWALK portable charger:

Image: Front view of the iWALK portable charger, showing the integrated Lightning cable, Apple Watch charging module, and LED indicators.

- **Integrated Lightning Cable:** For charging iPhones and other Lightning-compatible devices.
- **Apple Watch Magnetic Charging Module:** For wireless charging of Apple Watch.
- **USB-C Port (Input/Output):** For charging USB-C devices or recharging the power bank.
- **Power Button:** Activates charging and checks battery level.
- **LED Indicators:** Display the remaining battery capacity.

Pretty Compact Battery Pack

Easily fits on purse or jackets.

4. SETUP

4.1 Initial Charging of the Power Bank

Before first use, it is recommended to fully charge your iWALK portable charger. This can be done via the USB-C port.

1. Connect a USB-C charging cable to the USB-C input port on the power bank.
2. Connect the other end of the cable to a compatible USB power adapter (not included).
3. The LED indicators will illuminate to show the charging progress. All LEDs will be solid when fully charged.

5. OPERATING INSTRUCTIONS

5.1 Charging an iPhone (via Integrated Lightning Cable)

1. Press the power button on the iWALK portable charger to activate it. The LED indicators will light up.
2. Extend the integrated Lightning cable from the power bank.
3. Insert the Lightning connector into your iPhone's charging port.
4. Charging will begin automatically.

Note: For the integrated cable, you must press the power button to activate charging BEFORE connecting it to your iPhone. External cables connected to the USB-C port will activate charging automatically upon connection.

5.2 Charging an Apple Watch

1. Press the power button on the iWALK portable charger to activate it.
2. Place your Apple Watch onto the magnetic charging module on the power bank. Ensure the watch is properly aligned for charging.
3. Charging will begin automatically.

Compatible with All Apple Watch

38 / 40 / 42 / 44mm & Series 6 / 5 / 4 / 3 / 2

Image: The iWALK portable charger demonstrating compatibility with various Apple Watch series (38/40/42/44mm & Series 6/5/4/3/2).

5.3 Charging USB-C Devices

1. Connect a USB-C cable (not included) to the USB-C output port on the power bank.
2. Connect the other end of the cable to your USB-C compatible device (e.g., iPhone 15, iPad, Android phone).
3. Charging will begin automatically.

5.4 Simultaneous Charging (3-in-1 Functionality)

The iWALK portable charger can charge up to three devices simultaneously:

- One Apple Watch on the magnetic module.
- One iPhone via the integrated Lightning cable.
- One USB-C device via the USB-C port.

Charge Your Phone and Watch at The Same Time

Image: The iWALK portable charger actively charging both an Apple Watch and an iPhone at the same time.

Designed for Apple Family

Compatible with Apple Watch/ iPhone/iPad/iPod

6. RECHARGING THE POWER BANK

When the LED indicators show low battery, recharge the power bank using the USB-C input port. The power bank supports pass-through charging, meaning you can charge the power bank itself while it simultaneously charges your devices.

Image: The iWALK portable charger demonstrating pass-through charging, where it is being recharged from a wall adapter while simultaneously charging an Apple Watch and an iPhone.

7. MAINTENANCE

- Keep the device away from water, fire, and extreme temperatures.
- Do not disassemble or attempt to repair the device yourself.
- Clean the device with a soft, dry cloth. Avoid using harsh chemicals.
- Store in a cool, dry place when not in use for extended periods.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging (integrated cable)	Power button not pressed before connecting.	Press the power button to activate the power bank BEFORE plugging in the integrated Lightning cable.
Device not charging (any port)	Power bank battery is empty. / Cable or device is faulty.	Recharge the power bank. / Try a different cable or device to isolate the issue.
Apple Watch not charging	Watch not properly aligned on the magnetic module.	Ensure the Apple Watch is centered and securely placed on the magnetic charging module.
Slow charging	Using a low-power adapter/cable. / Multiple devices charging simultaneously.	Use a higher wattage USB power adapter. / Charging multiple devices may reduce individual charging speed.
