## 5. MAINTENANCE AND CARE

Proper care will extend the life and maintain the softness of your dressing gown. Always refer to the care label on the garment for specific instructions.

### General Care Guidelines:

- **Washing:** Machine wash cold with like colors on a gentle cycle.
- **Detergent:** Use a mild detergent. Avoid bleach.
- **Drying:** Tumble dry low. Remove promptly to prevent wrinkles. Air drying is also suitable.
- **Ironing:** Do not iron. The polyester fleece material does not typically require ironing and excessive heat can damage the fibers.
- **Dry Cleaning:** Do not dry clean.

### Storage:

Store the dressing gown in a clean, dry place away from direct sunlight to prevent fading and maintain fabric integrity.

## 6. TROUBLESHOOTING

While the ChenXi dressing gown is designed for durability and comfort, here are some common observations and solutions:

- **Issue:** Fabric feels less soft after washing.  
**Solution:** Ensure you are using a mild detergent and avoiding fabric softeners that can sometimes build up on fleece. Tumble drying on low heat can help fluff the fibers.
- **Issue:** Static cling.  
**Solution:** Use a dryer sheet during tumble drying or lightly mist with an anti-static spray.
- **Issue:** Minor pilling.  
**Solution:** Pilling can occur with fleece over time. Use a fabric shaver or lint roller to gently remove pills.
