## Little Learning Hands G268-32

# Instruction Manual: Little Learning Hands Mayan Pyramid 3D Puzzle

Model: G268-32

### INTRODUCTION

This manual provides detailed instructions for assembling your Little Learning Hands Mayan Pyramid 3D Puzzle. Designed for ages 5 and up, this model kit allows you to construct a realistic replica of the Mayan Pyramid of Chichen Itza. The assembly process is designed to enhance spatial recognition, hand-eye coordination, logical thinking, and focus. Please read all instructions carefully before beginning assembly.

## WHAT'S INCLUDED

Your Little Learning Hands Mayan Pyramid 3D Puzzle kit contains the following components:

- 50 pre-cut pieces made of Paper and EPS foam board
- 1 Poke Tool
- Illustrated Instruction Booklet

Image: Contents of the 3D puzzle kit, including the unassembled sheets.

## ASSEMBLY INSTRUCTIONS

Follow these step-by-step instructions to assemble your Mayan Pyramid 3D Puzzle. No tools or glue are required for assembly. Each piece is numbered for easy identification.

*Video: Official assembly guide for the Little Learning Hands Mayan Pyramid 3D Puzzle, demonstrating each step from punching out pieces to final assembly.*

1. **Preparation:** Carefully detach the pieces you need for each step. Do not pop out all pieces at once to avoid confusion. Punch out all the small holes along the edges of the pieces using the provided poke tool. This ensures a clean fit.
2. **Assemble the Base:** Find piece 4 (the base frame) and piece 15 (the green mat base). Punch out all holes from both pieces. Fold down the edges of piece 15 and insert it into piece 4, ensuring a snug fit.
3. **Attach the Nameplate:** Locate piece 3, the 'maya pyramid' nameplate. Fold it and insert it into the designated slot on piece 15 on the base.
4. **Construct the Pyramid Sides (Inner Layers):** Find the two pieces labeled 17. These form the initial inner pyramid structure. Punch out all holes. Insert these pieces into the corresponding slots on piece 15, ensuring they stand upright.
5. **Add More Pyramid Sides:** Locate the two pieces labeled 16. Punch out all holes. Insert these pieces into the slots on pieces 17 and piece 15, forming additional pyramid layers.
6. **Build the Top Structure Base:** Pop out piece 18. Insert it into the top of the assembled pieces 16.
7. **Complete Inner Pyramid Layers:** Find the four pieces labeled 19. Punch out all holes. Fold the edges of these pieces and insert them into the structure, building up the inner layers of the pyramid. Repeat this process for pieces 10, 11, 12, 13, and 14, progressively adding layers to the pyramid structure.
8. **Install the Stairs:** Locate the four pieces labeled 20, which are the stairs. Punch out all holes. Insert these stair pieces into the designated slots on each side of the pyramid.

9. **Assemble the Top Temple:** Find piece 5 (the top platform) and the two pieces labeled 6 (top structure sides). Punch out all holes from these pieces. Fold the corners of piece 5. Insert pieces 6 into piece 5.
10. **Finalize the Top Temple:** Locate piece 1 (top structure front) and piece 2 (top structure back). Fold piece 1 and insert it into piece 5. Then, insert piece 2 into piece 6. Ensure the correct orientation for all pieces.
11. **Attach the Temple to the Pyramid:** Carefully insert the fully assembled top temple structure onto the top of the pyramid. Ensure it locks securely into place.

Your Mayan Pyramid 3D Puzzle is now complete!

## CARE & MAINTENANCE

To ensure the longevity of your 3D puzzle, follow these care guidelines:

- **Handling:** Handle the assembled model with care to prevent bending or tearing of the paper and foam board pieces.
- **Storage:** Store the puzzle in a dry environment, away from direct sunlight or excessive humidity, which can cause warping or damage to the materials.
- **Cleaning:** Use a soft, dry cloth or a gentle brush to remove dust. Avoid using water or cleaning solutions, as they can damage the paper and colors.

## TROUBLESHOOTING

If you encounter any issues during assembly, consider the following:

- **Pieces Not Fitting:** Ensure all holes are fully punched out. Do not force pieces together, as this may damage the product. Gently re-check the numbering and orientation of the pieces according to the instructions.

- **Missing Pieces:** Double-check all packaging materials. If a piece is genuinely missing, please contact Little Learning Hands customer support for assistance.
- **Difficulty with Punching Out Holes:** Use the provided poke tool with firm but gentle pressure. If a hole is stubborn, try wiggling the tool slightly to loosen the material.

## SPECIFICATIONS

Feature	Detail
Product Dimensions (Assembled)	11 x 4.5 x 8 inches (approx.)
Item Weight	9.6 ounces
Item Model Number	G268-32
Manufacturer Recommended Age	5 years and up
Number of Pieces	50
Materials	Paper and EPS Foam Board
