erjigo ASX

erjigo KZ ASX In-Ear Monitors User Manual

Model: ASX

INTRODUCTION

The erjigo KZ ASX In-Ear Monitors are designed for musicians and audiophiles, featuring 10 balanced armature units per side for high-fidelity sound reproduction. This manual provides essential information for setting up, operating, and maintaining your KZ ASX earphones.

SETUP GUIDE

1. Attaching the Detachable Cable

1. Identify the left and right earpieces. The cable connectors are typically marked for orientation.
2. Align the 2-pin connector on the cable with the corresponding port on the earpiece. Ensure the pins are correctly oriented to avoid damage.
3. Gently push the cable connector into the earpiece port until it is securely seated. Do not force the connection.
4. Repeat for the other earpiece.

ASX carries our years of experience in acoustic research and development. Break through the bottleneck of traditional acoustic design again

2. Wearing the Earphones

- Select the appropriate ear tips for a comfortable and secure fit. Different sizes are usually provided.
- Insert the earpieces into your ears. The ergonomic design is intended to conform to the shape of the human ear.

- Position the memory PU hose earhook over your ear to secure the cable and earpiece in place. This design helps prevent the earphones from falling out during movement.

In-ear special-shaped structure will not fall during exercise
**Combined with ergonomic design,
comfortable to wear**

The fuselage curve conforms to the shape of the human ear,
combined with the memory PU hose earhook and the
ear-worn wear, so that there is no feeling of pressure and
strangeness in long-term wear.

OPERATING INSTRUCTIONS

The KZ ASX earphones feature a customized dual-capacitor microphone with integrated controls for media playback and call management. These controls are compatible with most devices.

Press Once	Play / Pause music, Answer / End call
Press Twice	Next Song
Press Three Times	Previous Song
Keep Pressing	Reject Call

Connectivity Options

- **Wired Connection:** Connect the 3.5mm jack to your audio source (smartphone, tablet, computer, music production equipment).
- **Bluetooth (Optional):** If you have a compatible Bluetooth module (not included with this specific model, but supported by the detachable cable system), you can convert your KZ ASX into wireless earphones. Refer to the Bluetooth module's manual for pairing instructions.

MAINTENANCE AND CARE

- **Cleaning:** Regularly wipe the earpieces and cable with a soft, dry cloth. For the resin body, a slightly damp cloth can be used, followed by drying. Avoid harsh chemicals or abrasive materials.
- **Ear Tips:** Remove and clean ear tips periodically with mild soap and water. Ensure they are completely dry before reattaching.
- **Cable Care:** The detachable cable is designed for durability. Avoid sharp bends or excessive pulling. When detaching, pull directly from the connector, not the cable itself.
- **Storage:** Store your earphones in a clean, dry place, preferably in a protective case, to prevent dust accumulation and physical damage.
- **Water Resistance:** The product description mentions "Waterproof" for Water Resistance Level. While this indicates a degree of protection, it is generally recommended to avoid prolonged exposure to water or submersion to ensure longevity.

TROUBLESHOOTING

- **No Sound:**
 - Ensure the 3.5mm jack is fully inserted into your audio device.
 - Check that the detachable 2-pin cable is securely connected to both earpieces.
 - Verify the audio source volume is turned up and not muted.
 - Test with a different audio source or cable if possible.
- **Poor Sound Quality / Distortion:**
 - Ensure ear tips provide a good seal in your ear canal. A poor seal can affect bass response and overall sound.
 - Check for debris in the earphone nozzles or on the ear tips.
 - Reduce the volume on your audio source if distortion occurs at high levels.
- **Uncomfortable Fit:**
 - Experiment with different sizes of ear tips to find the best fit for your ears.
 - Adjust the earhook to ensure it sits comfortably and securely over your ear.

- **Microphone Not Working:**
 - Ensure the 3.5mm jack is fully inserted into a device that supports microphone input.
 - Check your device's audio settings to ensure the correct microphone input is selected.

SPECIFICATIONS

Feature	Detail
Brand	erjigo
Model	ASX
Earphone Type	In-Ear Monitors (IEM)
Speaker Type	22955s BA*1; 29689s BA*1; 30017 BA*4; 31736 BA*4 (10 Balanced Armature Units per side)
