1. INTRODUCTION

This manual provides instructions for the Generic Master Universal AC Remote, designed to operate a wide range of Gree, Tosot, Lennox, and ComfortStar air conditioning units. This remote offers comprehensive control with a Fahrenheit display and includes all essential functions, making it a convenient replacement for lost or damaged original remotes.

2. SETUP

2.1. Battery Installation

1. Open the battery compartment cover on the back of the remote.
2. Insert two AAA batteries, ensuring correct polarity (+/-).
3. Close the battery compartment cover securely.

2.2. Initial Use

The Master Universal AC Remote is pre-programmed to work with a wide array of compatible models, including those from Gree, Tosot, Lennox, and ComfortStar. In most cases, the remote will function immediately upon battery insertion with a compatible air conditioner. No complex code input or programming steps are typically required for initial operation.

If your specific AC model is listed in the compatibility section or shown in the compatibility image, the remote is designed to work directly. For optimal performance, ensure a clear line of sight between the remote and the air conditioner's receiver.

3. OPERATING INSTRUCTIONS

The remote features a clear digital display and intuitively placed buttons for easy control of your air conditioner. Below are the primary functions:

- **ON/OFF Button:** Powers the air conditioner on or off.
- **TEMP ▲/▼ Buttons:** Adjusts the desired temperature up or down. The display shows temperature in Fahrenheit.
- **MODE Button:** Cycles through operating modes such as Cool, Heat, Dry, Fan, and Auto.
- **FAN SPEED Button:** Adjusts the fan speed (Low, Medium, High, Auto).
- **SWING Button:** Controls the vertical louver movement for air distribution.
- **TIMER ON/OFF Buttons:** Sets a timer for the unit to turn on or off automatically.
- **SLEEP Button:** Activates sleep mode for energy-efficient operation during sleep.
- **TURBO Button:** Provides a quick boost to reach the desired temperature rapidly.
- **LIGHT Button:** Toggles the backlight of the remote's display.

- **RESET LOCK Button:** Resets settings or locks the remote to prevent accidental changes.
- **AIR DIRECTION Button:** Adjusts the horizontal louver movement.
