Support**

1. SETUP

The SUNPIN 17.9" Portable DVD Player comes with all necessary accessories for immediate use. Before first use, ensure the device is fully charged using the provided UL Certified Power Adapter or Car Adapter.

1.1 What's in the Box

- 1 x 15.6" Portable DVD Player
- 1 x UL Certified Power Adapter
- 1 x Car Adapter
- 1 x Remote Controller
- 1 x AV Cable
- 1 x User Manual

1.2 Device Overview and Connections

Familiarize yourself with the player's layout and available ports for various connections.

Figure 1: SUNPIN Portable DVD Player with screen open, showing the main unit.

Video 1: Overview of SUNPIN Portable DVD Player features and port locations (USB, AV In/Out, HDMI In, Headphone Jack, Charging Port, On/Off Switch).

The player features a USB port, AV In/Out ports, an HDMI In port, a 3.5mm headphone jack, a charging port, and an On/Off switch located on the side for easy access.

2. OPERATING INSTRUCTIONS

2.1 Basic Playback

Insert a compatible disc (CD, DVD, DVD+R(-R), DVD+RW(-RW), VCD, SVCD-R(RW), CD-R(RW) - excluding Blu-ray) into the disc slot. The player will automatically begin loading and playback. Use the on-device controls or the remote control for playback functions.

Figure 2: The player supports various multimedia formats including VOB, AVI, MPEG1, MPEG2, MP3, MP4, WMA, and JPEG from USB Flash Drives (Max FAT 32GB).

2.2 Screen Mirroring

The built-in Screen Mirror Function allows you to project images/videos from your mobile phone directly onto the DVD player's large screen. This feature is compatible with both iOS and Android devices.

WIRELESS SCREEN MIRRORING

Project Pictures/Videos From Your Mobile Phone
Directly To the Portable DVD Player

Figure 3: The portable DVD player displaying content mirrored from a smartphone.

Video 2: Detailed steps for connecting your iOS or Android device to the DVD player via screen mirroring. This includes connecting to the player's WiFi network and accessing the screen mirroring function on your phone.

2.3 HDMI Input

Utilize the HDMI Input port to sync content from external devices such as mobile phones, computers, TV sticks, or gaming consoles (PS3/PS4/Xbox/Raspberry Pi/Play Station). HDMI cables are not included.

HDMI INPUT

Sync Your Video/Image To The Player Via HDMI

Figure 4: The portable DVD player receiving input via its HDMI port from a smartphone.

Video 3: Demonstration of connecting gaming consoles (Nintendo Switch, PlayStation) to the DVD player via HDMI input, allowing gameplay on the larger screen.

2.4 Sync to Larger Screen

Connect the portable DVD player to a larger TV or projector screen using the provided AV-RCA cable for an enhanced viewing experience.

Figure 5: The portable DVD player connected to a television, demonstrating its ability to output video to a larger display.

2.5 Swivel Screen and Anti-Shock Feature

The 15.6-inch HD screen supports 270° rotation and can be flipped 180°, offering flexible viewing angles. The anti-shock protection ensures uninterrupted playback during movement, ideal for car travel.

Figure 6: The screen can swivel 270 degrees and flip 180 degrees for versatile viewing.

Figure 7: The anti-shock feature ensures stable playback even during motion, preventing movie interruptions.

2.6 Last Memory Function

The last memory function allows you to resume watching from where you paused previously, ensuring a seamless viewing experience.

Figure 8: The player remembers your last playback position, allowing you to continue watching without interruption.

2.7 Battery Life and Charging

Equipped with a 5000mAh rechargeable Lithium battery, the player provides up to 6 hours of uninterrupted playback. It comes with a certified Power Adapter and Car Charger for convenient charging.

Durable Rechargeable Lithium-ion Battery

The 5000mAh Large-capacity Li-ion Battery Will Last Up To 6Hours

Figure 9: The battery indicator shows the remaining charge, ensuring you're aware of power levels.

Built-in 5000mAh Rechargeable Lithium-ion Battery

Figure 10: The 5000mAh battery provides up to 6 hours of playback, outperforming many standard portable DVD players.

3. TROUBLESHOOTING

If you encounter any issues with your SUNPIN Portable DVD Player, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Screen won't turn on	Battery is low or depleted.	Charge the device using the provided power adapter.
Disc not playing/loading	Disc is dirty, scratched, or incompatible format.	Clean the disc, try a different disc, or ensure it's a supported format (not Blu-ray).
No sound or low volume	Volume is too low or muted. Speakers are blocked.	Increase volume, check mute settings, ensure speakers are unobstructed.

Problem	Possible Cause	Solution
Screen mirroring not working	Incorrect WiFi connection or mirroring steps.	Ensure correct WiFi password, follow screen mirroring instructions carefully.
Remote control not responding	Batteries are dead or inserted incorrectly. Obstruction between remote and player.	Replace batteries, ensure clear line of sight to the player's sensor.

For more detailed troubleshooting, please refer to the included User Manual or contact SUNPIN customer support.
