9. MAINTENANCE

To ensure the longevity and optimal performance of your AILKIN USB Wall Charger, follow these simple maintenance tips:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Handling:** Avoid pulling the charger out of the wall by its cable. Always grasp the charger body when plugging or unplugging.

10. TROUBLESHOOTING

If you encounter issues with your AILKIN USB Wall Charger, refer to the following common problems and solutions:

- **Charger Not Working:**
 - Ensure the charger is securely plugged into a functional wall outlet. Test the outlet with another device.
 - Check if the USB cable is properly connected to both the charger and your device. Try a different USB cable to rule out cable issues.
 - Test the charger with a different device to confirm if the issue is with the charger or the original device.
- **Slow Charging:**
 - Ensure your device supports fast charging.
 - Verify that the USB cable used is of good quality and supports fast charging. Damaged or low-quality cables can reduce charging speed.
 - Avoid using your device extensively while it is charging, as this can slow down the charging process.
 - Ensure the charger ports are clean and free of debris.
- **Charger Overheating:**
 - While some warmth is normal during charging, excessive heat indicates a potential issue. Disconnect the charger immediately.
 - Ensure the charger is used in a well-ventilated area and not covered by blankets or other materials.
 - If overheating persists, discontinue use and contact customer support.
