## UBeesize TBC001

# UBeesize 12" Selfie Ring Light with 62" Tripod Stand

## INSTRUCTION MANUAL

### Introduction

Thank you for choosing the UBeesize 12" Selfie Ring Light with 62" Tripod Stand. This versatile lighting kit is designed to enhance your video recording, live streaming, photography, and online communication with professional-grade illumination and stability. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure you get the most out of your product.

The ring light features a robust 12-inch design with 240 high-efficiency LEDs, delivering 10W of power for consistent, bright illumination. It offers 10 brightness levels (10%–100%) and 5 adjustable color temperatures (3000K to 6000K) to reduce shadows and provide balanced lighting. The adjustable 62-inch tripod stand also functions as a selfie stick, offering stability and portability. Its flexible design includes a 360° rotatable tripod head and adjustable phone holder, compatible with most smartphones, cameras, GoPros, and webcams.

### What's in the Box

Please verify that all components are present:

- 12" LED Ring Light
- Extendable Tripod Stand (62" / 157.5 cm)
- Phone Holder
- Bluetooth Remote Shutter
- USB Power Cable

## Setup Guide

### 1. **Unfold the Tripod Stand:**

Carefully unfold the tripod legs until they are fully extended and stable. The tripod base is weighted to provide stable support. You can adjust the spread of the legs for different stability needs.

Image: Weighted Tripod Base for enhanced stability.

## 2. Adjust Tripod Height:

Loosen the quick-flip locks on the tripod shaft to extend the stand to your desired height, up to 62 inches. Securely fasten the locks once the height is set. The 4-stage flip lock design allows for precise height adjustments.

Image: Tripod stand showing various height adjustments from 17 to 62 inches.

Image: Close-up of quick-flip locks for easy height adjustment.

## 3. Attach the Ring Light:

Screw the 12-inch LED ring light onto the 1/4" screw mount at the top of the tripod stand. Ensure it is securely tightened. The standard 1/4" screw allows for expanded mounting options beyond just the ring light.

Image: Diagram illustrating the attachment of the ring light to the 1/4 inch screw mount.

#### 4. **Install Phone Holder:**

Insert your smartphone into the adjustable phone holder. The holder supports most smartphones (2.7"-5.3" width) and can be rotated 360° for portrait or landscape orientation. It can also be tilted for overhead shots.

# Universal Compatibility

Compatible with Most Phones

Image: Universal phone holder demonstrating 360-degree rotation and broad compatibility.

## 5. Connect Power:

Plug the USB power cable into a compatible USB power source (e.g., USB wall adapter, power bank, computer USB port). The ring light requires a 10W power input.

## 6. Pair Bluetooth Remote (Optional):

Turn on the Bluetooth remote. On your smartphone, go to Bluetooth settings and pair with 'AB Shutter3'. The remote allows for convenient hands-free photo and video capture.

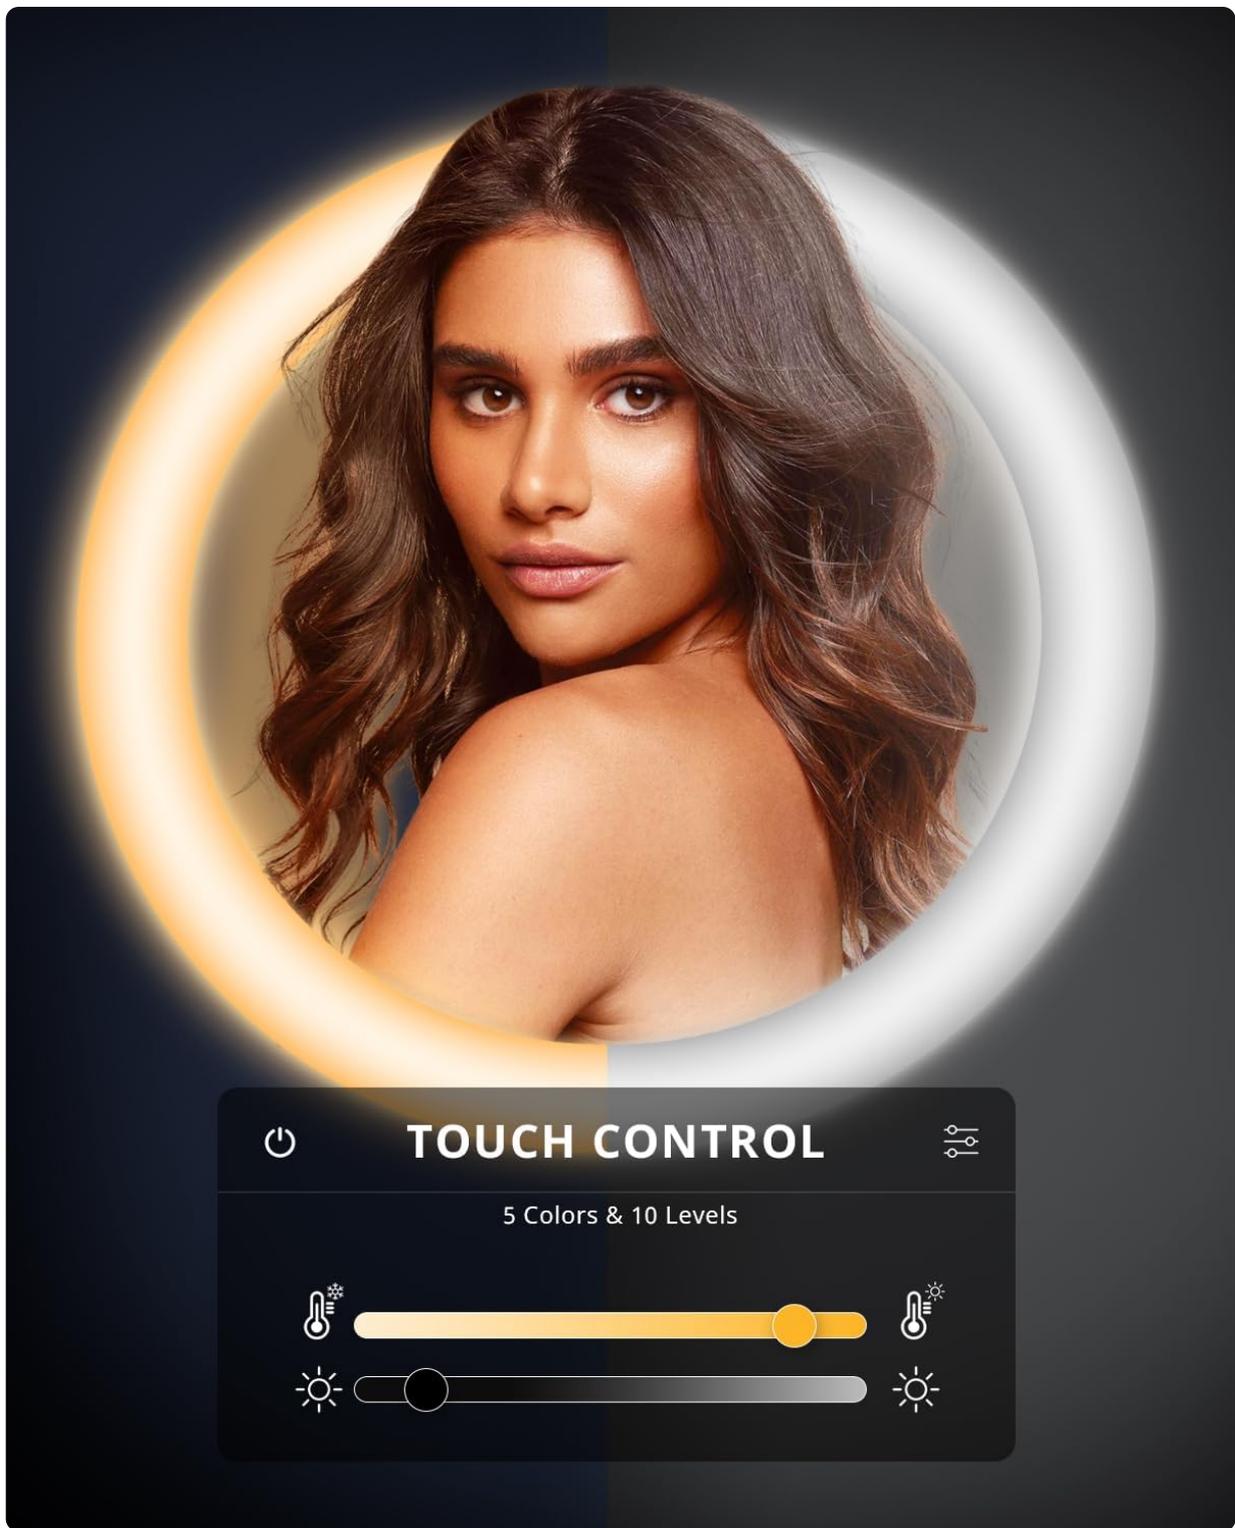

Image: Bluetooth remote shutter for convenient selfie and video recording.

## Operating Instructions

### Controlling the Ring Light:

The ring light features intuitive touch controls located on the unit for easy operation.

- **Power On/Off:** Press the power button (**ON/OFF**) to turn the light on or off.
- **Adjust Brightness:** Use the '+' and '-' buttons to increase or decrease the brightness level. There are 10 brightness levels available (10% to 100%).

- **Change Color Temperature:** Press the color temperature button (circular arrow icon) to cycle through the 5 available color temperatures: 3000K (warm), 3800K (warm white), 4500K (natural white), 5200K (cool white), and 6000K (cool).

# Remote Shutter

Selfie & Video Recording

# Dimmable Ring Light

Adjust to the suitable angle

Image: Dimmable ring light adjusted for optimal lighting.

## Using the Tripod and Phone Holder:

- **Angle Adjustment:** The ring light and phone holder can be tilted and rotated to achieve various angles, including portrait, landscape, low-angle, or overhead shots. Loosen the adjustment knobs, position as desired, and tighten to secure.
- **Selfie Stick Function:** The tripod stand can be collapsed and used as a handheld selfie stick for on-the-go content creation.
- **Multiple Device Mounting:** The 1/4" screw mount allows for attaching other compatible devices such as cameras or webcams, offering flexible lighting and camera setups.

# Touch Control

Facilitate Your Daily Operations

Image: Multiple mounting options for various devices.

## Maintenance

- **Cleaning:** Use a soft, dry cloth to wipe down the ring light and tripod stand. Avoid using abrasive cleaners or solvents that could damage the surface.
- **Storage:** When not in use, collapse the tripod stand and store the unit in a cool, dry place away from direct sunlight and excessive moisture.
- **Cable Care:** Ensure the USB power cable is not kinked or pinched during storage or use to prevent damage.

## Troubleshooting

### Light Not Turning On:

Ensure the USB power cable is securely connected to both the ring light and a functioning USB power source. Verify the power source is providing adequate power (10W recommended).

### Bluetooth Remote Not Pairing:

Make sure the remote is turned on and within range of your smartphone. Check your phone's Bluetooth settings to ensure it's discoverable and try re-pairing. Replace the remote's battery if necessary.

### Tripod Stability Issues:

Ensure the tripod legs are fully extended and the quick-flip locks are securely fastened. For overhead shots or when the light is tilted forward, extend the tripod legs further to increase the base's footprint and improve stability.

### Phone Not Fitting in Holder:

The phone holder is adjustable. Gently pull the spring-loaded clamp to expand it and insert your phone. Ensure your phone's width is within the 2.7"-5.3" range. Remove bulky cases or accessories if they prevent proper fit.

## Specifications

Feature	Detail
Product Dimensions	15 x 12 x 74 inches (fully extended)
Item Weight	1.2 pounds
Model Number	TBC001
Ring Light Size	12 inches
LED Quantity	240 pieces
Power Output	10W
Brightness Levels	10 (10% - 100%)
Color Temperatures	5 (3000K - 6000K)
Tripod Max Height	62 inches
Connectivity	USB (for light), Bluetooth (for remote)
Battery (Remote)	1 Lithium Metal battery (included)

## Warranty and Support

UBeesize products are designed for reliability and performance. For specific warranty information, please refer

to the documentation included with your purchase or visit the official UBeesize website. If you encounter any issues or require technical assistance, please contact UBeesize customer support through their official channels.
