Safety Information

WARNING: Risk of Electric Shock. Disconnect power at the circuit breaker before installation or servicing.

- Always turn off the main power supply at the circuit breaker before beginning any electrical work.
- Installation must be performed by a qualified electrician or a person with adequate knowledge of electrical wiring.
- Ensure the fixture is securely mounted to a structural element.
- Do not exceed the specified voltage (120 Volts).
- This product is designed for indoor use only. Do not expose to water or high humidity.
- Do not attempt to modify the fixture. Any modifications may void the warranty and pose a safety risk.
- Keep packaging materials away from children.

Package Contents

Verify that all components are present and undamaged before installation:

- 1 x Aipsun 43.3in Vanity Light Fixture
- 1 x Remote Control
- Mounting Hardware (screws, wire nuts)

- Instruction Manual (this document)

Product Overview

The Aipsun 43.3in Vanity Light Fixture features a modern, minimalist design with up and down light output. It offers adjustable color temperature and dimmable brightness via an included remote control.

Key Features:

- **Dimmable Brightness:** Adjust from 10% to 100%.
- **Adjustable Color Temperature:** Seamlessly transition from 3000K (warm white) to 6000K (daylight white).
- **Remote Control:** Conveniently control the light from up to 20 meters, even through walls.
- **Modern Design:** Sleek black aluminum body with acrylic shade.
- **Easy Installation:** Designed for standard US junction boxes.

Installation Guide

Follow these steps carefully for proper installation. If you are unsure about any step, consult a qualified electrician.

1. **Prepare for Installation:**
    - Turn off power at the circuit breaker or fuse box to avoid electrical shock.
    - Ensure the mounting surface is clean, dry, and structurally sound.
2. **Attach Mounting Bracket:**
    - Secure the mounting bracket to the junction box using the provided screws. Ensure it is firmly attached.
3. **Wire Connections:**
    - Connect the fixture's wires to the corresponding house wires using the provided wire nuts:
        - Black wire (Live) from fixture to Black wire (Live) from junction box.
        - White wire (Neutral) from fixture to White wire (Neutral) from junction box.
        - Green/Bare copper wire (Ground) from fixture to Green/Bare copper wire (Ground) from junction box.
    - Ensure all connections are secure and no bare wire is exposed.
4. **Mount the Fixture:**
    - Carefully align the fixture with the mounting bracket and secure it with the provided screws.
5. **Restore Power:**
    - Turn the power back on at the circuit breaker.
    - Test the light fixture to ensure it functions correctly.

Operating Instructions

Your Aipsun vanity light fixture comes with a remote control for convenient operation.

Remote Control Functions:

- **ON/OFF:** Turns the light fixture on or off.
- **Brightness Adjustment:** Use the **+** and **-** buttons to increase or decrease brightness (10%-100%).
- **Color Temperature Adjustment:** Use the **Sun** and **Moon** icons to adjust color temperature from 3000K (warm white) to 6000K (daylight white).
- **Night Light Mode:** Activates a low-brightness, warm light setting for nighttime use.

Maintenance

To ensure the longevity and optimal performance of your light fixture, follow these maintenance guidelines:

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the fixture. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish.
- **LEDs:** The integrated LED light source is designed for long-term use and is not user-replaceable.
- **Regular Checks:** Periodically check for any loose connections or damage to the wiring. If any issues are found, disconnect power and consult a qualified electrician.

Troubleshooting

If you encounter issues with your light fixture, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power supply; Loose wiring; Faulty remote control battery.	Check circuit breaker. Ensure all wire connections are secure. Replace remote control battery.
Light flickers or dims unexpectedly.	Loose wiring; Incompatible dimmer switch (if applicable, though this model uses its own remote).	Check all wire connections. Ensure the remote control is within range and has sufficient battery.
Remote control not responding.	Low or dead battery; Remote out of range; Interference.	Replace remote control battery. Ensure you are within the 20m effective range. Minimize interference from other electronic devices.

If the problem persists after trying these solutions, please contact Aipsun customer support.

Specifications

Attribute	Detail
Brand	Aipsun
Model Number	A065
