

## VAULTEK LifePod 2.0 (Model LH20-BK)

# VAULTEK LifePod 2.0 Humidor Instruction Manual

Model: LifePod 2.0 (LH20-BK)

Brand: VAULTEK

## 1. INTRODUCTION

---

The VAULTEK LifePod 2.0 Humidor is a portable, waterproof travel case designed for secure cigar storage. It integrates precision-engineered safe technology with an anti-impact latch design and a built-in electronic lock. This manual provides essential information for setting up, operating, and maintaining your LifePod 2.0 Humidor.

## 2. KEY FEATURES

- **Secure Built-in Lock System:** Features a robust electronic lock with a backlit keypad for quick access. Backup keys are included for manual entry.
- **Portable and Travel-Ready:** Designed for easy transport in cars, offices, boats, and luggage. Meets TSA guidelines.
- **Cigar Capacity:** Accommodates up to 9 cigars in the Spanish cedar tray, or up to 17 cigars when stacked. Suitable for cigars up to 7.25 inches (184 mm) in length with a ring size of 50 (20 mm).
- **Spanish Cedar Cigar Tray:** Helps regulate humidity and provides an ideal environment for cigars.
- **Leather Lid Organizer:** Includes a built-in control pack storage pocket for humidity control packs and additional pockets for lighters or cutters.
- **Lightweight and Rugged Construction:** Made from advanced non-metal polymer, engineered for superior strength and drop-tested durability.
- **Anti-Picking Feature:** An internal mechanism can disable the front keyway to prevent lock picking.

- **Water Resistant and Airtight:** Dual side compression latches and an inner rubber gasket create a watertight, airtight, and dustproof seal. The LifePod also floats in water.

### 3. SETUP

#### 3.1 Unpacking

Carefully remove the LifePod 2.0 Humidor and all accessories from its packaging. Verify that all components are present: LifePod 2.0 Humidor, Spanish cedar tray, leather lid organizer, two backup keys, and a steel security cable.

## What's Included

### Backup Manual Keys

(2) Backup keys included.

### Steel Security Cable

Secure your LifePod in place.

### Lid Organizer

Two-tone leather accessory storage.

## 3.2 Battery Installation

The LifePod 2.0 Humidor is powered by a 9V alkaline battery (not included). Locate the battery compartment, typically on the underside or side of the unit. Insert a fresh 9V battery, ensuring correct polarity. The keypad will illuminate briefly to indicate power.

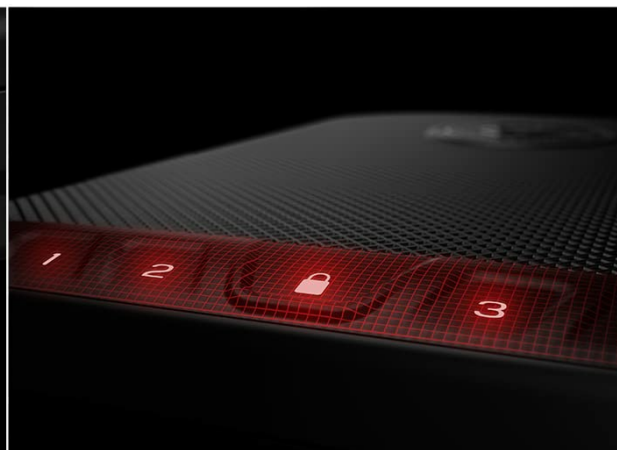

## 3.3 Setting Your Keypad Code

1. With the LifePod open, press and hold the 'Program' button (usually located inside the unit).
2. While holding 'Program', enter your desired 4-8 digit code using the backlit keypad.
3. Release the 'Program' button. The keypad will flash to confirm the new code is set.
4. Test your new code with the LifePod open to ensure it functions correctly before closing.

### **Manual Key Access**

(2) Backup keys included.

### **Backlit Capacitive Keypad Access**

Keypad responds with a simple touch.

## **3.4 Initial Humidor Seasoning**

Before storing cigars, it is recommended to season the Spanish cedar tray. Lightly wipe the cedar tray with distilled water using a clean cloth. Allow it to dry naturally. This process helps the cedar absorb moisture, creating an optimal humid environment for your cigars. Repeat if necessary until the cedar feels slightly damp but not wet.

## **3.5 Attaching the Security Cable**

The included steel security cable can be used to secure your LifePod to a fixed object. Loop the cable through the designated attachment point on the LifePod and around a secure anchor point. This provides an additional layer of theft deterrence.

## 4. OPERATING INSTRUCTIONS

### 4.1 Unlocking the LifePod

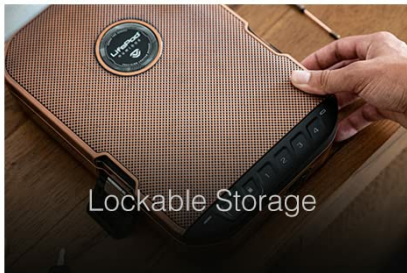

- **Using the Keypad:** Enter your programmed 4-8 digit code. The lock will disengage, allowing you to open the LifePod.
- **Using Backup Keys:** In case of battery depletion or forgotten code, insert one of the backup keys into the keyway and turn to unlock.

### 4.2 Locking the LifePod

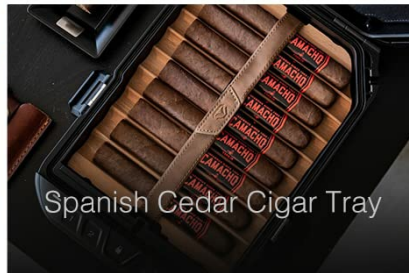

To lock the LifePod, simply close the lid and press any button on the keypad. The lock will engage automatically. Ensure the side compression latches are also securely closed for a watertight seal.

### 4.3 Storing Cigars

Place your cigars in the Spanish cedar tray. The tray is designed to hold cigars securely. Utilize the leather strap to keep cigars in place during transport. The lid organizer provides additional storage for humidity control packs, lighters, and cutters.

#### **4.4 Anti-Picking Feature**

To enable the anti-picking feature, refer to the detailed instructions provided in the full user manual or VAULTEK's official website. This feature disables the external keyway, preventing unauthorized access via lock picking.

#### **4.5 Optional Bluetooth Module and Smart App**

If your LifePod 2.0 Humidor is equipped with the optional Bluetooth module, download the VAULTEK smart app. The app allows you to monitor interior humidity and temperature, providing real-time status updates for your cigars.

## **5. MAINTENANCE**

### **5.1 Battery Replacement**

When the battery is low, the keypad lights may dim or fail to respond. Replace the 9V battery promptly to ensure continuous electronic access. Use only high-quality alkaline batteries.

## 5.2 Cleaning

Wipe the exterior of the LifePod with a soft, damp cloth. Avoid abrasive cleaners or solvents. For the interior, gently wipe the Spanish cedar tray with a dry cloth. Do not use water directly on the electronic components.

## 5.3 Humidity Control

Regularly check and replace or recharge your humidity control packs as needed to maintain optimal humidity levels for your cigars. Store control packs in the designated pocket within the lid organizer.

## 6. TROUBLESHOOTING

---

- **Keypad Not Responding:** Check the battery. Replace with a fresh 9V alkaline battery. If the issue persists, use the backup keys and contact VAULTEK support.
- **Difficulty Closing Latches:** Ensure no items are obstructing the seal. Check that the lid is properly aligned before engaging the latches.
- **Humidity Fluctuations:** Verify that your humidity control packs are active and correctly placed. Ensure the LifePod is fully sealed with both side latches closed.
- **Forgotten Keypad Code:** Use the provided backup keys to open the LifePod. Once open, you can reset your keypad code following the instructions in Section 3.3.
