## SETUP INSTRUCTIONS

### 1. Battery Installation

1. Open the battery compartment on your compatible Xbox controller.
2. Insert one of the provided 5580 mWh rechargeable battery packs into the compartment, ensuring correct polarity.
3. Select the appropriate battery cover (X-Series or X-One) for your controller model and securely close the battery compartment.

# How to install ?

1 Insert the battery pack

2 Close the battery cover

3 Connect the USB-C cable

4 Fast charging with indicator

*Image: A step-by-step guide demonstrating the installation of the rechargeable battery into an Xbox controller and placing it on the charging dock.*

## 2. Connecting the Charger Station

1. Connect the supplied 31.5-inch USB-C cable to the input port on the back of the OIVO Charging Dock.
2. Connect the other end of the USB-C cable to a power source. Compatible power sources include:
  - Xbox Console USB port
  - AC Adapter (not included)
  - USB Hub
  - Computer USB port
3. Ensure the charging dock receives stable power.

## 9 LIGHTS

Easy switching with one click

**Long Press**  
Turn On and Turn Off

**Short Press**  
Adjust 7 Colors & 2 Modes

## TWO MODELS

Breathing Light (Fast/Slow) & Individual Colour Lighting

## OPERATING INSTRUCTIONS

### Charging Your Controllers

1. Once the battery pack is installed in your controller, gently place the controller onto one of the charging slots on the OIVO Charging Dock.
2. Ensure the controller makes proper contact with the charging pins in the dock.
3. The charging process will begin automatically. The dock can charge two controllers simultaneously.
4. A full charge typically takes approximately 2.5 hours.

OIVO®

# Xbox Controller Charger

with 2 Packs Battery

-  Fits All XBOX Controllers
-  Rechargeable High Capacity
-  RGB Ambient light
-  Safe and Stable

## MAINTENANCE

- Keep the charging dock and controllers clean and free from dust. Use a soft, dry cloth for cleaning.
- Avoid exposing the product to water or other liquids.
- Store the charger in a cool, dry place when not in use.
- Do not attempt to disassemble or repair the product yourself.

## TROUBLESHOOTING

### • Controller not charging:

- Ensure the USB-C cable is securely connected to both the charging dock and the power source.
- Verify that the controller is correctly seated on the charging pins of the dock.
- Check if the power source is active and providing sufficient power.
- Confirm that the battery pack is properly installed in the controller and the correct battery cover is used.

### • LED indicators not working:

- Check the power connection to the charging dock.
- Try pressing the RGB button to ensure the lighting is not turned off.

- **Short battery life:**

- Ensure the batteries are fully charged (green LED indicator).
- Battery performance can degrade over time with extensive use. Consider replacing battery packs if performance significantly drops after many charge cycles.

## SPECIFICATIONS
