PETLIBRO PLAF101

PETLIBRO Automatic Pet Feeder - Instruction Manual

Model: PLAF101

Brand: PETLIBRO

1. INTRODUCTION

The PETLIBRO Automatic Cat Feeder is a Wi-Fi enabled food dispenser designed to provide convenient and consistent feeding for your pets. It features programmable meal times and portion sizes, an interactive voice recorder, and dual power options to ensure your pet is fed even during power outages. The feeder is built with user-friendly controls and easy-to-clean components for a hygienic feeding experience.

2. Setup Guide

2.1 Unboxing and Component Check

Before setting up your feeder, ensure all components are present:

- Automatic Pet Feeder Unit
- Stainless Steel Bowl
- Power Adapter and Cable
- User Manual (this document)
- Quick Guide

2.2 Powering the Feeder

The PETLIBRO feeder supports dual power modes for reliable operation:

- **Power Adapter:** Connect the included power adapter to the feeder and a wall outlet. This is the primary power source.
- **Battery Backup:** For uninterrupted feeding during power outages, install 3 D-size batteries (not included) in the battery compartment at the bottom of the feeder. It is recommended to use both power sources.

Figure 2: Dual power mode setup, illustrating both adapter and battery options.

2.3 App Installation and Wi-Fi Connection

To utilize the smart features, download the PETLIBRO app on your smartphone (Android or iOS). The feeder supports 2.4GHz Wi-Fi networks only. Follow the in-app instructions to connect your feeder to your home Wi-Fi network.

Convenient App Control
Feed your pet from your phone anytime, anywhere

Note: Only supports 2.4GHz network

3. OPERATING INSTRUCTIONS

3.1 Setting Up Feeding Schedules

Use the PETLIBRO app to set up automated feeding schedules. You can customize the number of meals per day (up to 4) and the portion size for each meal. This ensures your pet receives consistent nutrition even when you're away.
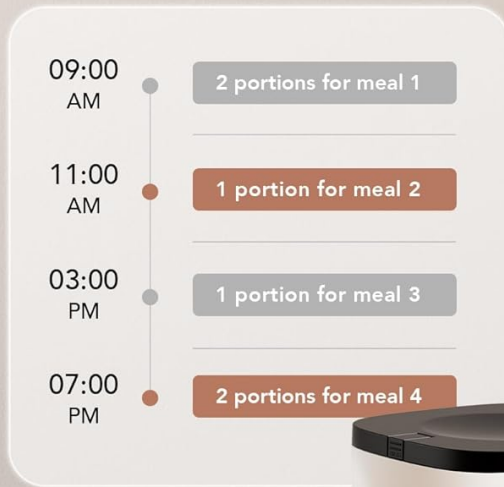

Figure 4: Example of timed meals and scheduled portions for healthy eating habits.

3.2 Interactive Voice Recorder

Record a 10-second personalized voice message through the app. This message will play automatically during meal times, helping your pet feel more comfortable and encouraging them to eat. This feature can reduce anxiety for pets when their owners are not physically present.

Figure 5: Personalized voice message feature to call your pet for meals.

3.3 Manual Feeding

For additional feedings outside of the schedule, you can manually dispense food using the "FEED" button on the feeder's LCD screen or through the app. The amount dispensed per manual feed can be pre-set in the app.

4. MAINTENANCE

4.1 Cleaning the Feeder

The food tank and stainless steel tray are detachable for easy cleaning. This ensures a hygienic feeding environment and helps prevent issues like chin acne in pets. The 8° tilt design also helps prevent food accumulation at the outlet.

- Remove the stainless steel tray and wash it with soap and water.
- Detach the food tank and clean it thoroughly.
- **Important:** Do not wash the main base unit of the feeder. Wipe it clean with a damp cloth.

No Greedy Cat Paws

Double-sided lid lock prevents cats from stealing food

Figure 6: Detachable components of the feeder for thorough cleaning.

4.2 Desiccant Bag Replacement

The feeder includes a desiccant bag located in the lid to keep the dry food fresh and prevent moisture absorption. It is recommended to replace the desiccant bag every half month for optimal food freshness. Replacement desiccant bags can be found by searching "B08NVBYQHV".

Figure 7: Location of the desiccant bag in the feeder lid to maintain food freshness.

5. TROUBLESHOOTING

If you encounter issues with your PETLIBRO Automatic Pet Feeder, consider the following common solutions:

- **Feeder Offline/App Connectivity Issues:**
  - Ensure your Wi-Fi network is 2.4GHz. The feeder does not support 5GHz networks.
  - Check your Wi-Fi signal strength near the feeder.
  - Restart the feeder and your Wi-Fi router.
  - Verify the app is updated to the latest version.

- **Food Not Dispensing or Getting Stuck:**
  - Ensure the food tank is not overfilled.

- Check that the kibble size is between 2-10mm in diameter. Larger kibble may cause blockages.
- Clean the food outlet and internal mechanism to remove any residue or stuck kibble.
- Verify the food tank is properly seated and the lid is securely locked.

- **Scheduled Feedings Not Occurring:**

  - Confirm the feeding schedule is correctly set in the app, including days, times, and portions.
  - Check the feeder's power source. If relying on batteries, ensure they are fresh.
  - Verify the feeder is connected to Wi-Fi and the app shows it as online.

- **Pet Accessing Food Outside of Schedule:**

  - Ensure the double-sided lid lock is properly engaged to prevent pets from opening the food tank.

6. SPECIFICATIONS

Feature	Detail
Brand	PETLIBRO
Model Name	automatic cat food dispenser
Item Model Number	PLAF101
Capacity	4L
Connectivity	Wi-Fi (2.4GHz only)
Power Source	Power Adapter or 3 x D Batteries (not included)
Material	Stainless Steel (tray)
