

WUBEN F5

WUBEN F5 Camping Lantern User Manual

Model: F5

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your WUBEN F5 Camping Lantern. Please read this manual thoroughly before using the product and retain it for future reference. The WUBEN F5 is a versatile, rechargeable LED lantern designed for various outdoor and indoor lighting needs, featuring multiple lighting modes, a power bank function, and robust construction.

PRODUCT OVERVIEW

Key Features

- **Adjustable Color Temperature:** Offers 3 lighting modes (High 500LM, Med 140LM, Low 10LM) and 3 color temperatures (5700K, 4500K, 3000K), allowing for 9 unique lighting options.
- **Dual-Way Charging:** Equipped with a 5200mAh rechargeable battery, supporting Type-C fast charging and USB-A discharge for charging external devices.
- **Smart Indicators:** Four blue LED indicators display real-time power and charging status.
- **Versatile Mounting:** Features a magnetic base, a hook design, and a 1/4 inch tripod thread hole for various placement options.
- **Durable Design:** IP64 water-resistant rating and 1.5M impact resistance.

Components

The WUBEN F5 Camping Lantern package includes the following items:

- WUBEN F5 Lantern
- Type-C Charging Cable
- Lanyard
- S-Hook
- User Manual

SETUP

Initial Charge

Before first use, fully charge the WUBEN F5 lantern. Connect the provided Type-C cable to the lantern's Type-C port and a compatible USB power adapter (not included). The blue indicator lights on the side will show the charging progress. All four lights will be solid blue when fully charged.

RECHARGEABLE CAMPING LANTERN

Can be used as a mobile power source to emergency charge mobile phones

OPERATING INSTRUCTIONS

Power On/Off

- Press and hold the power button (marked with a circle) for approximately 1 second to turn the lantern on or off.

Adjusting Brightness (Stepless Dimming)

- When the lantern is on, press and hold the '+' button to increase brightness.
- Press and hold the '-' button to decrease brightness.
- Brightness can be adjusted from 1% to 100%.

STEPLESS DIMMING

3 LIGHTING MODES

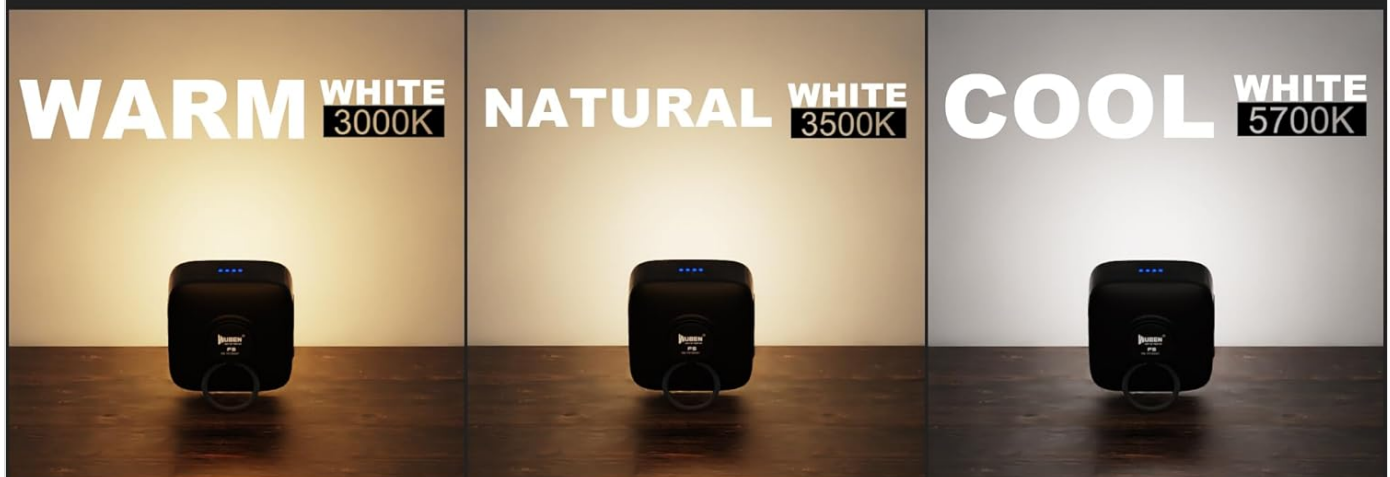

Image: Illustration of the stepless dimming feature, showing the lantern's brightness adjustable from 1% to 100%.

Changing Color Temperature

- Double-click the 'W' button to cycle through the three color temperature modes: Warm (3000K), Natural (4500K), and Cool White (5700K).
- Each color temperature can be combined with any brightness level.

Battery Indicator Lights

- The four blue indicator lights on the side of the lantern show the remaining battery level:
 - One light: $\leq 25\%$
 - Two lights: $25\% \sim 50\%$
 - Three lights: $50\% \sim 75\%$
 - Four lights: $75\% \sim 100\%$
- To turn the blue indicator light on or off when the lantern is off, triple-click the 'W' button.

CHARGING AND POWER BANK FUNCTION

Charging the Lantern

- Use the provided Type-C cable to charge the lantern. Connect the Type-C end to the lantern and the USB-A end to a power source (e.g., wall adapter, computer USB port).
- The blue indicator lights will flash during charging and remain solid when fully charged.
- The lantern can be used while charging.

Using as a Power Bank

- The WUBEN F5 can charge other devices via its USB-A output port.
- Connect your device's charging cable to the USB-A port on the lantern.
- The lantern will automatically begin charging the connected device.
- The power bank function will stop when the lantern's battery level drops below 25% to preserve its own illumination capability.

MOUNTING OPTIONS

The WUBEN F5 offers multiple ways to position it for optimal lighting:

- **Magnetic Base:** The built-in strong magnet allows attachment to metal surfaces, such as car hoods or refrigerators.
- **Integrated Hook:** Use the foldable ring on the back or the included S-hook to hang the lantern inside a tent, from a branch, or other suitable points.
- **Tripod Mount:** A 1/4 inch tripod thread hole on the bottom allows mounting the lantern onto a standard camera tripod or stand for precise positioning.

STRONG MAGNETS

1/4 INCH THREAD HOLE, FILL LIGHT ON

Compatible with Variety of Photographic Equipment

Image: The WUBEN F5 lantern mounted on a small tripod, highlighting its 1/4 inch thread hole for photographic equipment compatibility.

Image: The WUBEN F5 lantern hanging from a hook inside a tent, providing overhead illumination.

MAINTENANCE

- **Cleaning:** Wipe the lantern with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the lantern in a cool, dry place when not in use. For long-term storage, charge the battery to approximately 50% every 3-6 months to maintain battery health.
- **Water Resistance:** The lantern has an IP64 water-resistant rating, meaning it is protected from splashing water from any direction. It is not designed to be submerged in water.

IP64 WATER-RESISTANT

Works normally even in rainy or snowy days

TROUBLESHOOTING

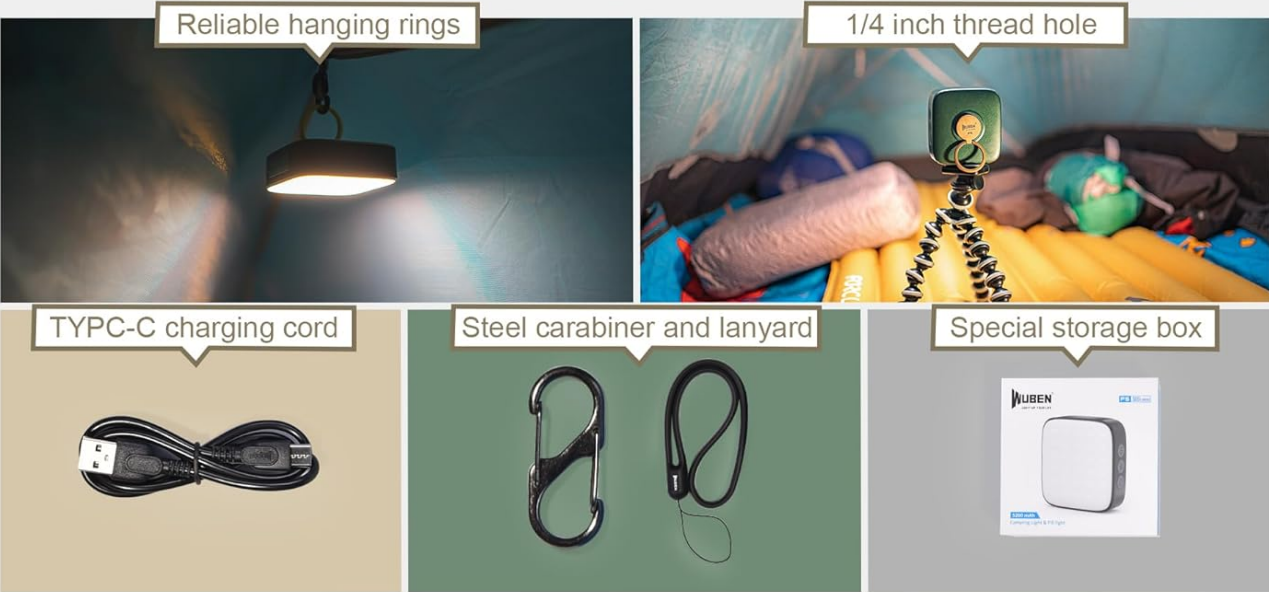

Problem	Possible Cause	Solution
Lantern does not turn on.	Low battery.	Charge the lantern using the Type-C cable.
Lantern does not charge.	Faulty cable or power adapter.	Try a different Type-C cable and/or power adapter. Ensure connections are secure.
Device not charging from power bank function.	Lantern battery too low (below 25%).	Charge the WUBEN F5 lantern.
Light output is dim.	Brightness set to low level.	Increase brightness using the '+' button.

SPECIFICATIONS

Feature	Detail
Model	F5
Brightness	Up to 500 Lumens
Battery Capacity	5200mAh (Lithium-Ion)
Battery Life	Up to 500 Hours (Low mode)
Color Temperatures	5700K (Cool White), 4500K (Natural), 3000K (Warm)
Charging Port	Type-C (5V 2A input)
Output Port	USB-A (5V 2A output)
Water Resistance	IP64
Impact Resistance	1.5 meters
Dimensions	4.8"L x 2.28"W x 83.46"H (approx. 84mm x 78mm x 28.5mm)
Weight	206 Grams (7.3 ounces)
Material	Acrylonitrile Butadiene Styrene (ABS)
