# Qplay Nova Eva Foldable Tricycle User Manual

Model: QP500.08

## 1. IMPORTANT SAFETY INFORMATION

---

Please read this manual carefully before assembling and using the Qplay Nova Eva Foldable Tricycle. Keep these instructions for future reference. Always ensure the child is supervised when using the tricycle.

- Ensure all locking mechanisms are engaged before use.
- Always use the 5-point safety harness to secure the child.
- Do not overload the tricycle beyond the manufacturer's suggested maximum weight of 8.9 kg.
- Regularly check all parts for wear and tear, especially the wheels, brakes, and harness.
- This product is recommended for children aged 3 years and up.

## 2. PRODUCT OVERVIEW AND FEATURES

---

The Qplay Nova Eva Foldable Tricycle is designed for comfort, safety, and adaptability, transitioning from a parent-controlled stroller to an independent trike as your child grows.

### **3. SETUP AND INITIAL PREPARATION**

---

The Qplay Nova Eva Tricycle comes largely pre-assembled. This section covers unfolding and preparing it for first use.

#### **3.1 Unfolding the Tricycle:**

1. Place the folded tricycle on a flat, stable surface.
2. Locate the main folding latch (refer to product diagrams if available).
3. Release the latch and gently unfold the frame until it clicks into place, indicating it is fully extended.
4. Ensure all parts are securely locked before proceeding.

#### **3.2 Adjusting the Parent Handle:**

- Extend the telescopic parent handle to a comfortable height.
- Secure the handle in position using the locking mechanism.

#### **3.3 Adjusting the Seat and Footrests:**

- To rotate the seat, press the one-button mechanism and turn the seat to face forward or backward.
- Adjust the backrest recline by locating the adjustment lever behind the seat.
- Deploy the infant footrest or middle footrest as appropriate for the child's age and height.

## 4. OPERATING THE TRICYCLE

---

This section details how to use the Qplay Nova Eva Tricycle in its various modes.

### 4.1 Parent Control Mode (Stroller Function):

- Ensure the handlebar clutch is disengaged (freewheel system activated) so the child's pedals do not interfere with parent pushing.
- Use the adjustable telescopic handle to steer and push the tricycle.
- Engage the stroller-certified braking system on the rear wheels when stationary.

### 4.2 Tricycle Mode (Child Pedaling):

- Once the child is ready to pedal independently, engage the handlebar clutch to connect the pedals to the front wheel.
- Fold away any unused footrests to allow the child's feet to reach the non-slip pedals.
- Supervise the child closely during independent pedaling.

**Figure 4.1:** A close-up of the front wheel and non-slip pedals, illustrating the mechanism for child-powered movement.

### 4.3 Folding for Storage/Transport:

- Ensure the seat is in the forward-facing position and any footrests are folded.
- Retract the telescopic parent handle.
- Locate and release the main folding latch.
- Gently fold the tricycle until it is compact. Ensure it locks in the folded position for secure transport.

## 5. MAINTENANCE AND CARE

---

Proper maintenance will extend the life of your Qplay Nova Eva Tricycle.

- **Cleaning:** Wipe down the frame with a damp cloth and mild soap. Do not use abrasive cleaners. The fabric seat cushion can be spot cleaned or gently hand washed.
- **Lubrication:** Periodically apply a small amount of silicone-based lubricant to moving parts like folding mechanisms and wheel axles to ensure smooth operation.
- **Storage:** Store the tricycle in a dry, cool place away from direct sunlight and extreme temperatures to prevent material degradation.
- **Inspections:** Regularly check all screws, bolts, and fasteners to ensure they are tight. Inspect the tires for wear and the braking system for proper function.

## 6. TROUBLESHOOTING

---

This section addresses common issues you might encounter.

- **Tricycle does not unfold/fold smoothly:** Check for any obstructions in the folding mechanism. Ensure the latch is fully released. Apply lubricant if necessary.
- **Pedals not engaging/disengaging:** Verify the handlebar clutch is correctly set to the desired mode (engaged for child pedaling, disengaged for freewheel).
- **Brakes not effective:** Check for debris in the brake mechanism. Ensure the brake levers are fully engaged. If issues persist, contact support.
- **Wobbly wheels:** Check if the wheel axles are securely fastened. Ensure no foreign objects are caught in the wheels.
