2. WHAT'S IN THE BOX

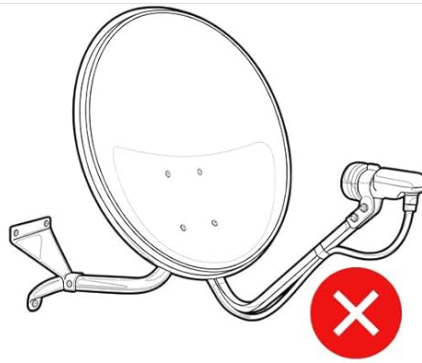

Upon unboxing your HUMAX Aura, please verify that all the following items are included:

- 1x Aura 1TB Recorder
- 1x Bluetooth Remote Control
- 1x Quick Start Guide
- 1x HDMI Lead
- 2x AAA Batteries

3. SETUP

3.1. Connecting Your Device

Before powering on your HUMAX Aura, ensure all necessary cables are securely connected. This device is designed for use with aerial antenna connections and is not compatible with satellite dishes.

For households with an aerial

Works with rooftop and indoor aerial antenna connections.

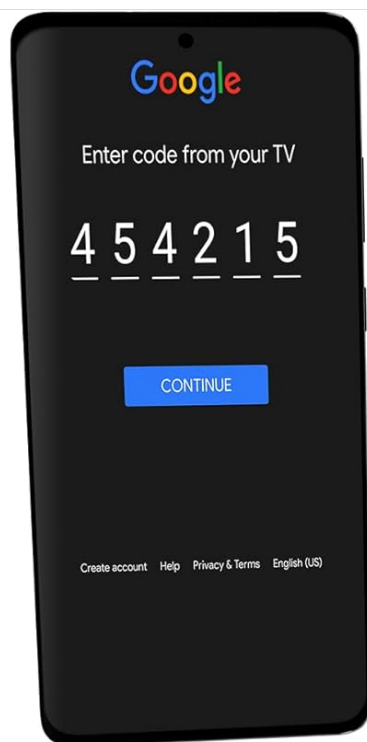

Please note: satellite dishes are NOT compatible with this box.

Rear panel connections of the HUMAX Aura, indicating compatibility with aerial antennas (RF IN/OUT) and incompatibility with satellite dishes. Ports include HDMI, Ethernet, USB, SPDIF, and Power.

1. Connect your aerial cable to the **RF IN** port.
2. Connect an HDMI cable from the **HDMI** port on the Aura to an HDMI input on your television.
3. (Optional) For wired internet, connect an Ethernet cable to the **ETHERNET** port.
4. Connect the power adapter to the **POWER** port and then to a wall outlet.

3.2. Initial Setup and Google Account Sign-in

Upon first power-on, the device will guide you through the initial setup process. This includes network configuration and signing in with your Google Account.

Sign in with your Google account

Use your phone to speed up the set-up process and sign in securely with your existing Google Account to sync across all your content and preferences from compatible devices.

Record 4 shows at once

Got popular shows starting at the same time? Programme clashes are a thing of the past. Aura has built-in triple tuners, letting you record up to four channels at once whilst watching a fifth.

Illustration of the HUMAX Aura's capability to record up to four television shows concurrently.

Access the easy-to-use 7-day on-screen TV guide to set recordings, reminders, or access show links. You can also scroll backwards to catch up on shows from the beginning or instantly watch previously aired content on demand.

7 day on screen TV guide

Access the easy-to-use TV guide and set recordings, reminders, or series links from the 7-day rolling EPG. Scroll backwards to catch up on shows from the beginning or instantly watch previously aired content on demand.

The 7-day Electronic Program Guide (EPG) interface, allowing users to browse channels, view program schedules, and manage recordings.

4.3. Android TV and Streaming

The HUMAX Aura runs on Android TV, providing access to thousands of apps and games from the Google Play Store, including popular streaming services like Amazon Prime Video, Disney+, and BT Sport (subscriptions may be required).

Freeview Play Recorder

All your favourite shows live and on demand, all in one place and all for free.

The Freeview Play Recorder interface, showcasing a wide array of on-demand services and catch-up apps available.

30,000

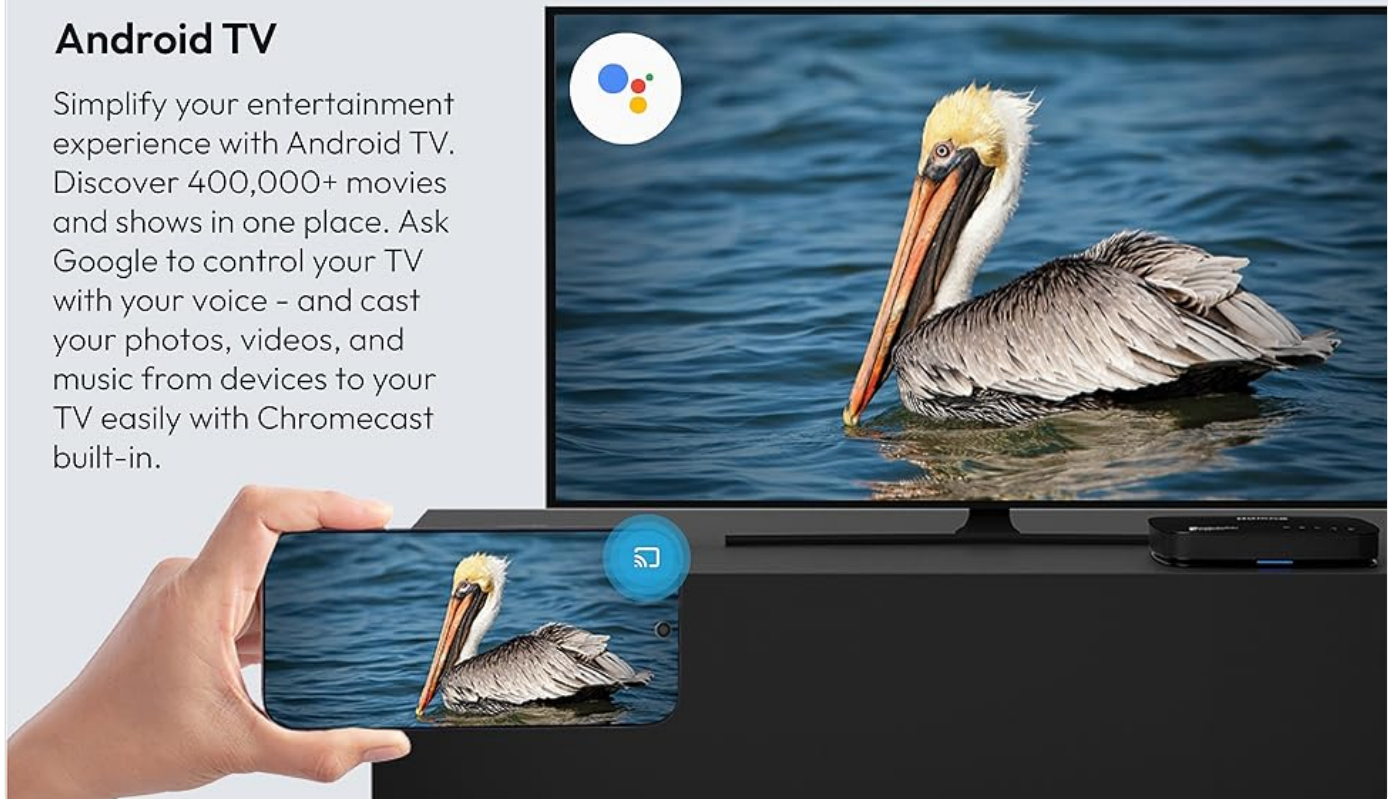

Stream on demand and more

With access to an impressive 30,000+ hours of TV and over 700 boxsets, across nine on demand services, you can enjoy 95% of the nation's favourite TV. All for free, courtesy of Freeview Play.

The streaming interface, highlighting access to over 30,000 hours of TV and 700 boxsets from various on-demand services.

Android TV

Simplify your entertainment experience with Android TV. Discover 400,000+ movies and shows in one place. Ask Google to control your TV with your voice - and cast your photos, videos, and music from devices to your TV easily with Chromecast built-in.

A visual representation of the vast amount of on-demand content available, emphasizing that the HUMANX Aura is a central hub for entertainment.

4.4. Voice Control with Google Assistant

The HUMANX Aura integrates Google Assistant, allowing you to control your TV and access information using voice

commands via the remote control.

Control your TV using your voice

Get to the good stuff faster, using just your voice. With built-in Google Assistant, search for your favourite shows, change the volume and get answers directly on your screen.

Using Google Assistant to control the TV, search for content, and get answers directly on screen with voice commands.

Simply press the Google Assistant button on your remote and speak your command. You can search for entertainment, change the volume, get answers to questions, and more.

4.5. Smart Home Control

Leverage the power of Google Assistant to control compatible smart home devices directly from your HUMANIX Aura. Create the perfect viewing environment by adjusting lighting, temperature, and other smart devices with your voice.

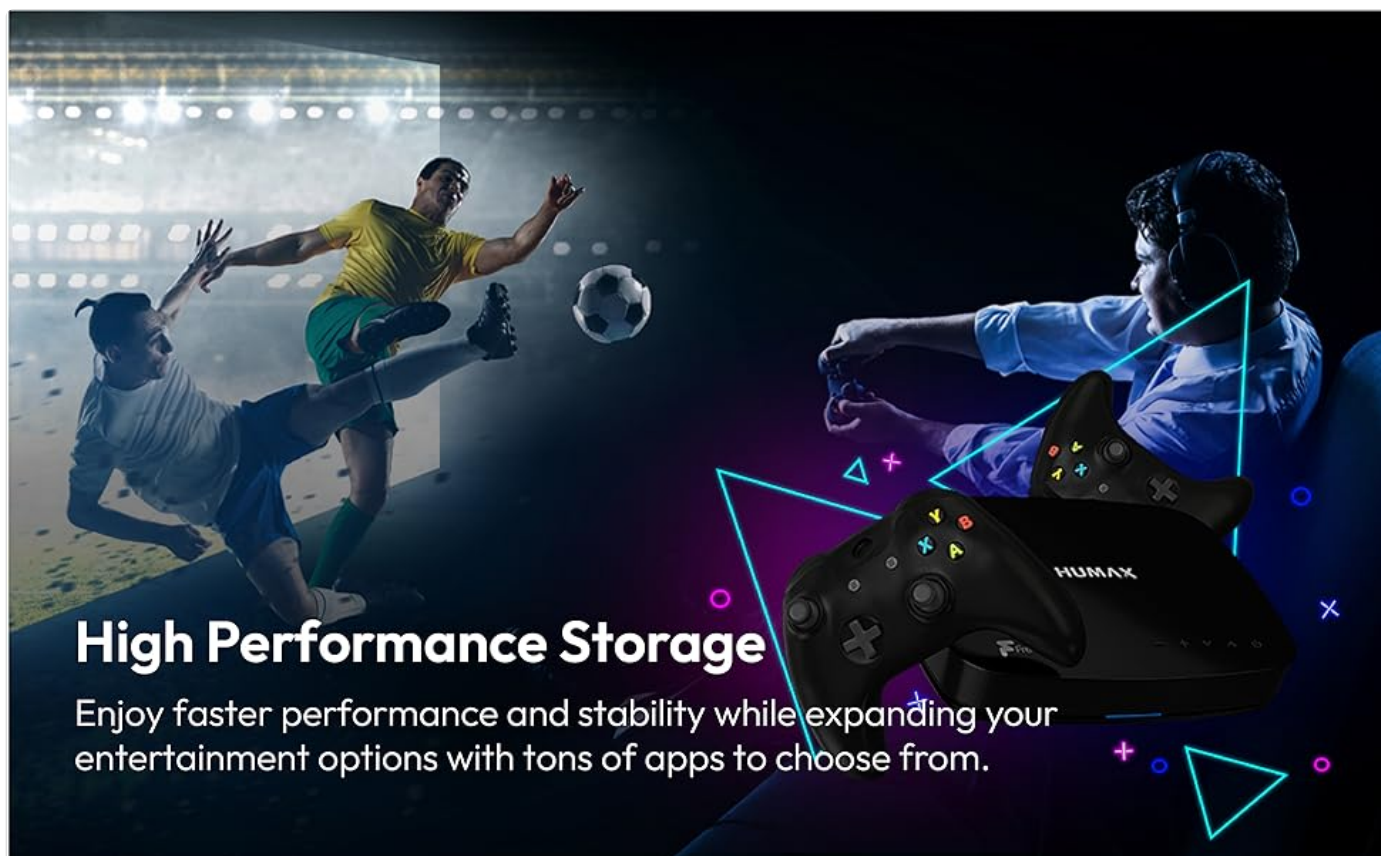

Smart home control

Be the boss in your own home by using the power of your voice to create the perfect viewing environment. Control smart home devices like lighting, adjusting the temperature and more, all from the comfort of your sofa.

The smart home control feature, illustrating how to adjust smart devices like thermostats using voice commands through the HUMAX Aura.

4.6. High Performance Storage and Family Features

The 1TB internal storage provides ample space for recordings and ensures faster performance for apps and games. The Aura also offers family-friendly features, consolidating children's favorite shows from live TV and on-demand services into one easy-to-use screen.

High Performance Storage

Enjoy faster performance and stability while expanding your entertainment options with tons of apps to choose from.

The HUMAX Aura's high-performance storage, suitable for gaming and expanding entertainment options with various applications.

More for the whole family

Aura brings together children's favourite shows from live TV and on demand in to one easy to use screen.

The 'Kids' feature, bringing together children's favorite live and on-demand shows into a single, user-friendly interface.

5. MAINTENANCE

To ensure the longevity and optimal performance of your HUMAX Aura, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the device. Avoid abrasive cleaners or solvents.
- **Ventilation:** Ensure the device is placed in a well-ventilated area, away from direct sunlight or heat sources, to prevent overheating.
- **Software Updates:** The device may receive automatic software updates. Ensure your device is connected to the internet to receive these updates, which can improve performance and add new features.

6. TROUBLESHOOTING

If you encounter issues with your HUMAX Aura, try the following troubleshooting steps:

Problem	Possible Solution
No picture/sound	Check HDMI cable connections. Ensure the TV input is set to the correct HDMI port. Verify the device is powered on.
Remote control not responding	Replace the AAA batteries in the remote. Ensure there are no obstructions between the remote and the device. Re-pair the Bluetooth remote if necessary (refer to Quick Start Guide).
Cannot record programs	Check aerial connection for signal strength. Ensure sufficient free space on the 1TB hard drive. Verify recording settings and schedule.
Internet connectivity issues	Check Ethernet cable connection (if wired). Restart your Wi-Fi router. Re-enter Wi-Fi password in device settings.
Device freezes or is unresponsive	Perform a power cycle: Disconnect power, wait 30 seconds, then reconnect. If persistent, a factory reset may be required (note: this will erase recordings and settings).

For further assistance, please refer to the official HUMAX support website or contact their customer service.
