PawHut D51-147

PawHut Large Wooden Rabbit Hutch Instruction Manual

Model: D51-147

1. INTRODUCTION

Thank you for choosing the PawHut Large Wooden Rabbit Hutch. This enclosure is designed to provide a secure and comfortable outdoor habitat for small animals such as rabbits, guinea pigs, and similar pets. Please read this manual thoroughly before assembly and use to ensure proper setup and safe operation.

2. SAFETY INFORMATION

- Always supervise pets when they are in the hutch, especially during initial use.
- Ensure all latches and doors are securely closed to prevent escapes and protect against predators.
- Place the hutch on a level, stable surface.
- Regularly inspect the hutch for any damage, loose parts, or sharp edges that could harm your pet.
- This hutch is designed for small animals. Do not use it for animals larger than recommended.

- Keep children away from the hutch during assembly to prevent injury from small parts.
- The wood is coated with water-based paint for weather resistance; however, prolonged exposure to extreme weather conditions may affect its durability.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Wooden frame panels (various sizes)
- Wire mesh panels
- Roof panels with hinges
- Side access door
- Locking latches and hardware
- Assembly screws and fasteners
- Instruction manual

4. ASSEMBLY INSTRUCTIONS

Assembly is required. It is recommended to have a power drill for easier assembly, as some screw points may not be pre-drilled. Follow the included pictorial instructions carefully. Do not overtighten screws to avoid splitting the wood.

General Steps:

1. Identify all components and hardware.
2. Assemble the base frame sections.
3. Attach the wire mesh panels to the frame.
4. Install the hinged roof panels.
5. Attach the side access door and secure all latches.
6. Ensure all connections are stable and secure before placing animals inside.

5. SETUP AND PLACEMENT

Outdoor Placement:

- Choose a location that offers partial shade and protection from strong winds and direct sunlight.
- Ensure the ground is level and well-drained to prevent water accumulation.
- Consider placing the hutch on a solid surface or adding a protective barrier underneath to deter digging predators.

Image 5.1: The hutch positioned in an outdoor environment.

Connecting to a Rabbit Cage:

This hutch can function as a standalone run or be connected to an existing rabbit cage to expand your pet's living space. Ensure a secure and seamless connection between the hutch and the cage to prevent gaps or escape routes.

MULTI FUNCTIONAL

Can be connected to rabbit cage

6. OPERATION

Accessing the Interior:

The hutch features multiple access points for convenient interaction with your pets and for cleaning:

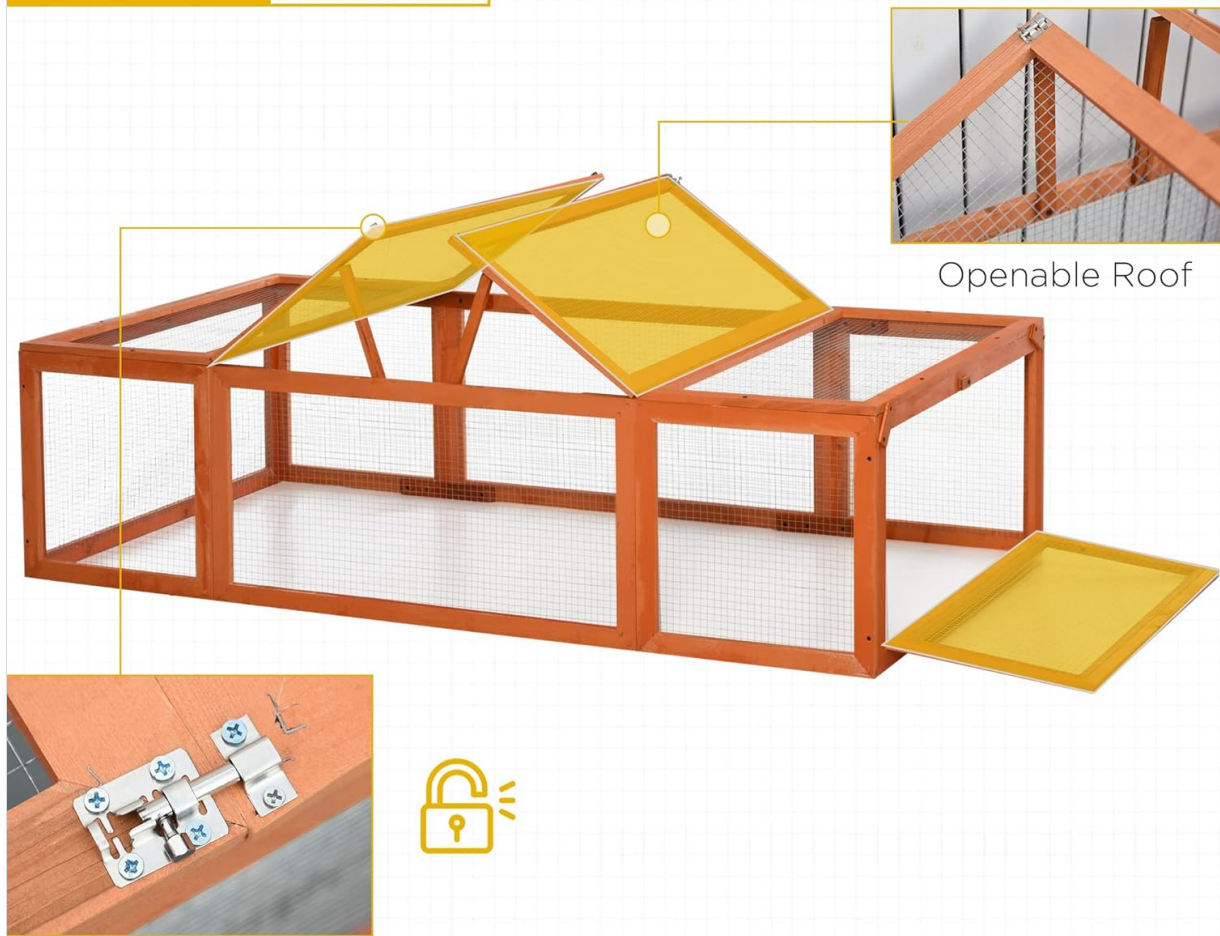

- **Top Panels:** The middle panels on the top of the hutch can be easily opened. This provides wide access for feeding, placing toys, or retrieving your pet.
- **Side Panel:** A dedicated side panel can also be opened, allowing pets easy entry and exit, especially when connected to another enclosure.

Lockable
Doors

MULTIPLE ENTRANCES

Easily access to your lovely pets

Openable Roof

Locking Mechanism:

Each access point is equipped with a secure latch to keep your pets safely inside and deter unwanted visitors. Ensure all latches are engaged after opening and closing any door or panel.

7. MAINTENANCE

- **Regular Cleaning:** Clean the hutch regularly to maintain a hygienic environment for your pets. Remove soiled bedding and waste daily.
- **Deep Cleaning:** Perform a thorough cleaning weekly, using pet-safe disinfectants. Allow the hutch to dry completely before returning pets.
- **Weather Protection:** While the hutch is weather-resistant, consider additional protection during harsh weather conditions (heavy rain, snow, extreme heat) to prolong its lifespan and ensure pet comfort.
- **Inspection:** Periodically check the wood for signs of wear, rot, or damage. Inspect the wire mesh for any breaks or sharp points. Tighten any loose screws as needed.

8. TROUBLESHOOTING

- **Wood Splitting During Assembly:** This can occur if screws are overtightened or if pilot holes are not used. If minor, it may not affect structural integrity. For significant splits, contact customer support for replacement parts.

- **Parts Not Fitting:** Double-check the pictorial instructions. Ensure you are using the correct parts for each step and that they are oriented correctly. Do not force parts together.
- **Latches Not Secure:** Ensure the latch components are properly aligned and installed. If a latch is loose or ineffective, it may need adjustment or replacement.
- **Hutch Instability:** Verify that the hutch is placed on a completely level surface. Check all screws and connections to ensure they are tightened securely.

9. SPECIFICATIONS

Feature	Detail
Model Number	D51-147
Overall Dimensions (L x W x H)	70.75" x 35.5" x 19"
